COLUMBIA, March 20 .- Although we are in a spring month, yet winter is not yet/over, if we can take to day as a criterion. The cold is intense, while the piercing wind which prevails, makes the fact all the more noticeable. At six o'clock the thermometer at the P. R. R. depot registered six degrees above zero ; it is nearly that at present writ ing, 11 a. m. But few persons are on the streets, and these only when necessity complls. Pavements are thick with dust blown from the streets, and windows are dark and cloudy from the same cause. The outlet has has again frozen over, and as fine and safe skating as we have had this winter can be enjoyed upon its smooth surface, the ice being between two and four inches thick.

Will Probably Disband. The defeat given to the Metropolitan polo The defeat given to the Metropolitan polo club, by the Lancaster team, will probably cause the home seven to disoand. The boys do not take the proper interest in the game they should, and this, with so little practice, has been the cause of most of their defeats. They enjoyed their trip, however, and speak in high terms of praise of their treatment at the hands of their opponents. **Personal.** 

### Personal

Homer Booth was given a birthday surprise party last evening at his home, on Fifth and

Locust streets. It is needless to say his guests spent a delightful evening ; his hospi-tality is too well known for comment. Mr. Bartzhoff, the Evangelist, who has as-sisted at the Bethel revival meeting, left for Easton this morning, where he will conduct a similar meeting. Miss Huedel, of Reading, is visiting Miss Mary Pierce at her home, on South Front street.

Street. Charles E. Bennett is ill at the home of his The former gentleman, by illness, was com-pelled to leave his work, as manager of the machinery of the Hummelstown brown stone company, which position he had ac-cepted last Monday. The Reports Concerning the Rink.

Several reports are out about the Metro politan rink, all of which are not only untrue but detrimental to the institution. A Mount Joy paper stated that the "rink had closed Joy paper stated that the "rink had closed for want of patronage," and another rumor stated that the rink had been purchased by Frederick Bucher, who intended turning it into a market house. Manager Krom says he will keep the rink open until May, even though he loses money by the operation. He corroborates his statement by announcing several strong combinations which are to ap-pear in the rink at an early date.

### Borough Briefs.

One of the attractions at the Vigilant fair will be an art gallery, managed by Samuel Filbert. It will cause lots of fun, and be the means of considerable revenue to the

company. Scarlet fever has again broken out among the children of Walnut street above Fifth. It is nothing serious, however, as the cases re-ported are of a very mild form. About midnight a loud crash was heard on

South Second street near Locust, and those persons awakened by the terrific noise at first thought a terrible accident had happened. Investigation, however, showed otherwise. Several gentlemen returning home from a card party, had shoved over the long pile of wooden boxes at Odd Fellows' hall.

By next week the Columbia Relief associ-ation will have their final report for their

ation will have their final report for their work for the winter ready for publication. It will no doubt be very interesting. The house besides the Third Ward hotel, on Fourth Street, is now occupied by Frank Shillow, he having recently removed from his beautiful farm near Norwood. It has been a custom with fire companies, lodges, etc., to sell beer when they hold a pience at Heise's woods. This will not be al-lowed this summer, consequently there will be fewer picnics than usual, as the receipts from the sale of beer is the source of profit to those holding the picnic.

## A Gypsy's Prophecies Fulfilled.

Thirty-one years ago a gypsy fortune-teller told the fortune of a young woman, living near Rockland, N. Y. The young woman was then unmarried. The gypsy told her she would be married in less than a year ; that she would have fourteen children, but that before the fourteenth was born three of the other children would die. The fourteenth child, the gypsy said, would be born in the thirtieth year of the young woman's marriage. These prophecies are now recalled by Mrs. John Dutcher, of Park ville, who was the young woman whose are now recatten by Mrs. John Ducher, of Parkville, who was the young woman whose fortune was told by the gypsy. She was married in less than a year after the gypsy predictions were made, although she had no prospect of marrying then. Thirteen chil-dren were born to her, and then three of them died. ### A Girl Puts a Ballet Into Her Enemy,

George McClury has been the affianced husband, for five years, of Miss Fanny Bender, who lives at 1,976 Portland avenue, Louisville, Ky., but instead of remaining true to his oath he sought constant favor from Miss Addie Beard, of No. 2,108 Portland avenue. This so excited Miss Bender that she lost her reason, and went to the home of Miss Beard and asked that young lady to come into the par-lor. Miss Beard started into the parlor, but before she had taken two steps Miss Bender drew a pistol from under her shawl and quickly fired one shot, which took effect in Miss Beard's left side. The wounded girl ran into the other room and foll fainting in the arms of her mother, while the other rushed out into the street, and, firing her pistol over her head, started on a lively run down Portland avenue. Miss Beard is lying in a critical condition. true to his oath he sought constant in a critical condition.

## Why Garland Abstain

Senator Garland is a total abstainer from stimulants. He was asked one day how it appened that he, coming as he did from a art of the country where liquor was believed o be used as commonly as coffee, was a teeotaler. "Well, it was this way: I used to drink as regular and as frequently as any one, but one day some years ago I was walking through our cemetery at Little Rock, and I saw the our centery at lattice rock, and 1 saw the grave of one very bright man who would have been my age, and then I saw another, and another, until I suddenly realized that almost all the young men with whom I began life had gone and I almost alone was left, and I knew what had carried them away. Well, as I had been spared, it occurred to me that I had certainly had my share of alcohol, so I made up my mind that I wouldn't drink anybody else's share; that wouldn't be fair. So I just stopped right then and there."
