HAVING A GOOD TIME ON THEIR FIFTIETH ANNIVERSARY.

The Feast of Reason to Which a Brilliant Audience Were Treated in the Opera House. Beautiful Floral Decorations—The Addresses That Were Delivered.

The semi-centennial anniversary of the Goethean Literary Society of Franklin and Marshall college took place in Fulton opera house Friday evening, and was attended by a brilliant audience of ladies and gentlemen, who entirely filled the lower portion of the house and furnished a large contingent for the gallery.

The occasion being of more than usual significance, marking as it did the close of the first half century of the society's existence, more than usual care was taken to make the event a literary epoch in its history.

The committee of arrangements, consisting of A. L. Little, chairman, S. E. Stoffel, E. A. Russ, A. L. G. Hay, W. P. Peters, J. C. Noll and David Scheerer, were indefatigable in their endeavor to give the hall an attractive appearance by the use of flowers, and the words "SEMI-CENTENNIAL" and under these the initials of the society, "G. L. S." also in cut flowers.

THE VOTE OF CREDIT.

GREAT ANXIETY IN PARLIAMENT OF ITS RECEPTION.

The True Inwardness of the Rumored Resignation of Earl Dufferin—The Work of Equipment for the Sudan Nearly at a Standstill—Much Money Spent.

LONDON, May 9.—The continued uncertainty of the political aspect restricts business on the stock exchange, and results in each transaction having a disproportionate effect on prices. Great anxiety is felt as to the result of the vote of credit which comes up in the House of Commons on Monday, although it is unlikely that the ministry will be defeated, especially if Lord Hartington's statement of the Sudan policy proves satisfactory to the Liberals. The current rumors of the resignation of Earl Dufferin arise from the inference that he disagrees with the government's policy and the fact that Dufferin accepted his position with the understanding that he was to take the full responsibility of the government of India. It is rumored that the Russian dispatch by courier differs somewhat from the summary first received by telegraph, but it is expected that the discrepancy of statement can easily be reconciled. It is estimated that almost half the vote of credit has already been absorbed in the war preparations, so far ordered, which are now far advanced to be revoked.

TWO BIG FIRES IN CHICAGO.

Forty-Five Million Feet of Lumber Destroyed. A Six-Story Building Burned.

Shortly after noon on Friday a spark from a passing locomotive started a fire in the heart of the great pine lumber yard district, which lies along both sides of the south branch of the Chicago river. Boarding the southwestern limits of Chicago, and near the Union stock-yards, with its acres of wooden sheds and pens filled with cattle, hogs and sheep.

A fierce wind was blowing from the west, and the flames spread with rapidity. The entire fire department was called out and began fighting the flames; but the twenty or thirty streams of water which could be thrown upon them had little or no effect as far as staying their progress was concerned. The dry pine boards and shingles were piled to great heights, only narrow lanes were left for the fire to pass through. The narrow intervals between the boards furnished unusual facilities for the progress of the flames, while they broke the force of the streams of water and prevented it from penetrating to the blazing pine in the centre of the piles.

Starting from the foot of the river, the flames ate the lumber between Thirty-fifth and Thirty-seventh streets, an area of about 400 by 2000 feet. This set fire to a canal-boat yard, the fire burning westward to the river, which is 150 feet wide at this point, and set fire to the lumber on the east bank, which covered about an equal area, and with one or two narrow lanes was consumed. Brands were carried eastward and set fire to several small frame houses occupied by employes in the lumber district.

The fire department, however, made a stand at this point, and succeeded in preventing the spread of the flames into the residence district. The streets of water were cut off after the conflagration was brought under control, having practically burned itself out to the limits of the lumber yard, where it was which it began. A heavy rain during most of the afternoon was of material assistance. The fire, which burned over an area of 2,500 feet, the aggregate amount of lumber destroyed was 45,000,000 feet, valued at \$700,000. The individual losses and insured are as follows: Chicago Lumber company, 25,000,000 feet of lumber, valued at 400,000; insurance \$170,000; Bigelow Brothers, 10,000,000 feet, \$300,000; insurance, \$120,000; Adams, Hastings & Co., 5,000,000 feet of lumber, valued at 600,000; J. W. Hinckley, planing mill, \$25,000; insurance, \$12,000. Five cottages, aggregate loss about \$10,000; insurance about \$5,000.

Another Great Blaze This Morning.

CHICAGO, May 9.—At 2 o'clock this morning a fire broke out at the building, Nos. 85 and 87½ West Adams street. An alarm was turned in by only two persons, and the fire department was enabled to respond, owing to many of the engines being temporarily disabled by pumping filthy river water at the great lumber fire last night, and still others being on duty at the scene of the big fire. Within five minutes the fire was under control, and the firemen were working busily, and in a few moments were reinforced by the arrival of two more large engines.

The building is a large stone front, six stories high. The Wilson & Wagner Lithographing company occupied most of the fifth floor, and their stock is seriously damaged. The first floor of No. 87 is used as a salaroom by the Western Furniture company, and they will lose several thousand dollars worth of property. The firemen were almost completely exhausted by their efforts at the lumber fire and had a hard fight to obtain control of the flames. The building was completely gutted, but the exact losses are not yet ascertained.

INVESTIGATING A TRUNK MYSTERY.

CHICAGO, May 9.—The police now believe they have arrested all the persons concerned in the murder of Filippo Caruso, whose body was found in a trunk at Pittsburg. At an early hour yesterday morning Detective McDonald arrested two Italians, Antonio Mercurio and Giovanni Savadori, and locked them up in the Desplaines street station. The two men were taken to the police station, and the police officers were informed that the murder is supposed to have been committed. The Dolan boy and Mamie Corbett identified Mercurio as the man who was in the room when the trunk was carried away, though he has since had his whiskers trimmed. Dr. B. F. Broughton, of 77½ West Adams street, has been identified as the man who carried the trunk past his office on April 20.

At a half-past 3 this afternoon the New Holland Clarion telephones that the constable was out on the hills, and saw Jake Buzzard, who says that he does not believe Abe has been arrested.

Gap Evicted.

GAP, May 9.—Last evening the citizens of Gap and vicinity were aroused by a grand concert which was held in the M. E. church, by the Street concert party of that town. The church, a large edifice, was well filled, and the audience showed their appreciation of the different selections given by their hearty applause. The concert, given by the Street concert party of that town, was a most successful one, and it was highly appreciated.
