INNINGS.

The Lancaster club won their seventh consecutive game yesterday by defeating the Ridgewood, L. I., club at their park. The contest was a beautiful one, and there was a large crowd present. Deagle made his first appearance in the box for the Lancasters, and but six hits were made off him in ten innings. Oldfield gave him the same excel-lent support that he does all pitchers. Dugan, of last years Virginias, but more recently a member of Kansas City, pitched for the home team, with Pitz to catch him. The game was a fine exhibition of fielding, in which the Ridgewood excelled. It was the closest game the Lancasters have had so far this season. The score by innings was: INNINGS.

CHRISTIANA, Pa., June 22.-The Christiana club went to West Chester on Saturday and defeated the club of that place by a score of 6 to 4. The West Chester club was strengthened by Riddle, Kane, Ewell and Queen, of the Philadelphia. The club did fair work in the field, but were unable to gauge Melcher's curves; they only secured one hit, and sixteen of them struck out. On the other hand the Christiana club took kindly to Kane's pitching and batted him for 13 hits with a total of 17, but were unfortunate in not bunching their hits. There were 250 spectators, and judging from the manner in which some of them acted one would think they were a trice of Ute Indians. At times first base would be nearly surrounded by a yelling mob, using abusive language to Christiana players.

There are rumors that the Jersey City club is about to disband, but there is no reason

why it should. The manager keeps telling the people that he intends to strengthen the club, but he is unable to obtain players. There should be no difficulty at any time to make that club stronger than it is, and a manager well acquainted with players and the game would have a fine nine there. It is a good hall town and from the big lot of noise made by the backers of the club before their admission to the league, it was supposed that they would easily hold out through the season.

## WILL KEEP THE MACHINES.

How Difficulties Over Some Promissory Notes Were Amicably Settled. About the middle of April the INTELLI-ENCER published items about two or three farmers of the county having been induced to allow the Cleveland Manufacturing company to place grinding machines on their farms, so that their workings could be seen by neighboring farmers. The farmers were requested to sign papers which were said to be a receipt for the machine. These papers be a receipt for the machine. These papers it afterwards turned out were promissory notes, and A. B. Haverstick, of Manheim township, and George Mowrer, of Providence township, cautioned the public against purchasing or negotiating these notes as they were fraudulently obtained. The notes were for \$170 each, and a few weeks ago were sent the banking house of D. P. Locher & Son for collection. Messrs. Haverstick and Mowrer employed J. Hay Brown as their attorney. Every Collector's Head Must Fall

The Washington Post says: "In the ninety days since Commissioner Miller took charge of the internal revenue bureau, out of the eighty-four internal revenue collectors in the country he has appointed sixty new ones. The remaining officers to be changed are one each in Colorado, Delaware, Florida, Indiana, Maryland, Missouri, Montana, New Hampshire, New Mexico, Ohio and Wisconsin, five each in Illinois and New York, and three in in Pennsylvania. These will be taken up as rapidly as possible and soon there will not be a Republican internal revenue collector in the country."

Employes of the Pennsylvania Rathroad Company, While Standing Aside For One Train, Cut to Pieces by Another. Mourning Households in Atglen.

A terrible accident occurred at North Bend, a point on the Pennsylvania railroad between Christiana and Atgien, about half past nine o'clock this morning. At this place there is one of the sharpest curves on the line of the railroad, and numerous accidents have occurred there in the past few years. At the time above mentioned, a large party of track men, who had been at work under Boss John Donavon, on the north track, crossed over to the south track to allow engine No. 208 drawing a freight train west to pass.

At this time engine 232, which is attached o the mud train, doing work at Gap, came of trackmen. The result was that three of the men were instantly killed, being almost

Promptly at the ringing of the 7:30 bell, the gentlemen gathered in the campus and after forming in line marched to the chapel. At 7:45 Miss Knight went to the piano and played a march, while the officers proceeded in the main aisle of the chapel and taok their positions on the rostrum.

The president, Miss Katie S. Hostetter, called the meeting to order. First on the programme was music by the club, led by Miss Susie Oberlin. The president then delivered the opening address in a few well chosen words. A vocal solo entitled "O Girls Take Care," sung by Miss Cunningham, came next. Debate was then announced. The question, "Resolved, That Childhood is the Happiest Period of Life," was discussed on the affirmative by Misses Patterson and Howder; on the negative by Misses Eyster and Oberlin. The judges decided in favor of the affirmative.

Debate was followed by a piano duet by Misses Weeks and Eckert. "Brier Rose" was then recited by Miss Annie E. Fridy. Her accustomed freedom as a reciter was used to an advantage. The Annual Union Vitalizer was then read by the editress, Miss. Lizzie Myers. The paper contained enough humor to make it entertaining and a few pointed personals that the gentlemen could not help but admit to be true. An instrumental piano duet by Misses Rhinard and Westlake followed. The critic's remarks were then heard. Both societies had appointed a critic, and each briefly reviewed the exercises.

Rose, a tramp, was arrested at Glenville, adjacent to this city, for distribu ting, among respectable ladies, letters containing indecent proposals. He was subsework-house. Saturday night a number of citizens forced their way into the lockup, where Rose was confined. They had nearly succeeded in getting him outside, when the marshal with a posse of deputies and police arrived upon the scene, and rescued the tramp. Rose says the men had a rope and were going to hang him, and that they avowed their intention of making another attempt to-night. The avengers are supposed to be the husbands and brothers of the insulted ladies. Rose is strongly guarded, and should another attempt at lynching be made there will probably be trouble.

HE GRAND ARMY OF THE REPUBLIO GATHERING IN PORTLAND, MAINE.

diers Journeying from all Parts of the North to Attend the National Encampment-A Reception to One of the Moguls of the Order in Boston

PORTLAND, Me., June 22.-The sky is overcast and the air full of moisture, but the spirits of the veterans who are now becoming numerous in the streets do not seem to be affected. Rain to-day and shine to-morrow will suit them well. It looks as though the numbers coming had been overestimented For to-morrow 20,000 veterans and 20,000 other strangers would now seem to be a liberal estimate. But the inflow has hardly begun and with this afternoon's arrivals things may look different. To such as have attended other national encampments the comparative paucity of the decorations about town is notable. At Minneapolis last year, on the day preceding that in which the encampment opened the whole city was in a blaze of color. In Portland to-day the decorations are the exception and not the rule, even along the streets through which the procession will pass to-morrow The finest display, and it is really an elegant one, is made at the Falmouth hotel, which is not on the line of march. A dozen public or business buildings and as many dwalling houses are handsomely adorned, but most of the stores and houses show only a few flags and streamers. Neither the custom house nor the postoffice is decorated.

En Route for Portland Boston, June 23.-At 9:15 this morning the heavy train arrived bringing John S Kountz, commander in chief of the G. A. The Food That Grant Subalets Upon Without The Knowledge of His Doctors.
CHICAGO, Ill., June 22.—A plain, strong box addressed "General U. S. Grant, Mound McGregor, N. V." went East last laight in charge of a special messenger on the limited express over the Michigan Central. Investigation has developed the fact that the last gation has developed the fact that the box contained a liquid extract of raw beef of a orand not yet upon the market and that it has been supplied to and been used by General Grant probably without knowledge of his attending physicians for several months. It was conveyed to him through the Hon. Salem H. Wales, of New fork, and a letter from Colone dated a few days ago, said that it had to the general's principal food for about months and expressed a request for regala supplies. The preparation is and a patent ostrum or medicine, but simply the rite principle of raw beef and is assimilated into the system within a few moments with out the ordinary process of digestion, being, consequently, the next thing to transferior of blood. Ex-Revenue Collector Meilen, of the custern district of Michigan, who is a warm friend of the general, says that he and Mr. Wales had to use his wits to get the pre paration into the general's house, as the doctors were very peculiar, and he only man-

ged to get it in one bottle at a time. Grant Passes Another Good Night. SARATOGA, N. Y., June 22.—A rain and wind storm swept over Mt.
