John Payne was born at Cadley, Devonire, England, in 1818, and was 67 years old then he died. He came to America from louth Wales in 1846, settling in Danville, Pa. When the Susquesiand he was one of its incorporators and in the year 1874 was called to Columbia to take burge of the mill in place of Mr. Harris, the ormer superintendent. The mill soon prosered under his able management and during the financial difficulties of the past few years the mill was kept steadily at work when in almost every other place they were iteming on account of the dull times. He was compelled to resign the active management about a year ago on account of failing sealth.

Stevenson, son of Mr. E. M. Stevenson, son serily of Columbia but now of Battimore, met with a very zerious accident at that place on Saturaty. The young boy was with his father at the place where he is employed, and by a misstep fell through an open elevator from the second story of the building to the first floor, causing a fracture of the skull. The injuries received by the lad are of a very serious character, and the sympathies of friends of his parents are extended to them in the state of the

Early closing in the Borough.

The question of early closing in the stores of Columbia has again been agitated among some merchants, but read especially by the clorks. A few years ago the movement was general among dealers and no one seemed to be any the loser by the operation. For the past two years only a few of the storekeepers closed at 7 o'clock in the evening and thereby gave their clerks a much needed rest. It does not seem very probable that there will be closing at an early hour in the evening during the summer months, although a few stores may do so. If the customers are aware stores may do so. If the customers are aware of the fact that nothing could be bought after 7 o'clock, they would make their purchases at a suitable time, and no one would be any the worse off by the stores closing at such a time that all could have the evenings to themselves. The stores of Lancaster are closing at 6 o'clock during July and August, and Columbia merchants should do likewise.

The gas and water committee of councils, who were on a visiting trip to different cities inspecting the system of lighting by electricity have returned home fully impressed with the idea that that is the proper and best manner of lighting a town. They inspected seven different systems of electric-lights.

The money, which was lost from the Adams express car at Landisville on Friday, has not been found. It was consigned to the Fulton bank, this city, from the United States sury at Washington, and consisted of es on that bank. As soon as the loss was made known, the express agreed to make it good and on Saturday they paid the full amount to the bank. Indeed the sum was paid before the bank knew it was their money that was lost. The officials of the bank and express company know the number of the noies, which have been lost and if any are passed the persons who found the packages may yet be ascertained.

On Saturday night Dr. Busheng, of New Holland, made a mistake that came near Holland, made a mistake that came near terminating his mortal existence. He had a hard day's work among his patients and on returning home late in the evening and feeling worn out he resolved to take a dose of medicine to recuperate himself. After doing so he went to bed and asleep, but soon awoke suffering intensely. He soon discovered that he had taken aconite instead of the medicine he intended. He at once took an emetic and sent for another doctor, and after some hours the effect of the poisonous aconite passed off, and to-day the doctor is considered out of danger.

A Good Time at Penryn Park.
On Saturday there were excursions to Penryn park from Lebanon, Lancaster, Reading and other places, and between 500 and 700 pupie spent the day on the grounds, where they had an excellent time. A concert is given at the park every Wednesday evening by the Perseverance band of Lebanon, and a great many people attend, especially from Lebanon.

DROWNED IN BALIABURY TOWNSHIP.

Yesterday afternoon a very sad drowning secident, in which two young boys lost their lives, occurred at Charles Hillard's mill dam, in Salisbury township. It appears that a number of boys went bathing in the dam, and among them were John A. Robinson, aged 14 years, sen of Wilson Robinson, and Georges W. Anna aged 12 years, who lived 14 years, scn of Wilson Robinson, and George W. Anne, aged 12 years, who lived with Mr. Hillard. Young Robinson was in the water by himself, and soon got beyond his depths. He began to sink, and when Mr. Hillard's boy ran to his assistance, Robinson caught him tightly around the neck and the result was that both were drowned. The boys who were on the bank saw the danger of their companions, but were unable to render any assistance, as they were also afraid of being drowned. Both bodies were recovered in about an hour after the accident. Young Robinson was apprenticed to Mr. Hillard by the authorities of the Home for Friendless Children, of this city.

George Kirk and James Waters, residing in the Seventh ward, got drunk on Saturday

George Kirk and James Waters, residing in the Seventh ward, got drunk on Saturday night, raised a row and were prosecuted by their wives before Alderman A. F. Donnelly. Warrants were issued for their arrest. It is said that when the men learned that they were sned they again assaulted their wives. This morning Mrs. Kirk and Mrs. Waters left town on the Harrisburg express east, and the supposition is that they took with them all the money in their respective houses belonging to their husbands.

Kirk says that he was not guilty of any crime, but his wife merely brought suit against him so that she could get him put up in order that she might go to the house and get away with his money and leave town. He says that she took every cent he had and he has no idea where she has gone. Mrs. Kirk is a white woman, but she is very fond of negroes, and has been married to several of them in the last few years. As far as is known she has never been divorced from her former husbands, and it is said that she marries every colored man that she finds is making any money. Whether the story Kirk told is true or not it is certain that there has been a great deal of drunkunness among the darkies in the Seventh ward for several days past, and especially on Saturday and Sunday nights. past, and especially on Saturday and Sunday nights.

Reading school affairs are badly mixed. City Superintendent Valentine is said to be lacking to some of the legal requirements for his position and State Superintendent Higbee has declined to issue a commission to him. Notwithstanding this warning from the department the school board recognized Mr. Valentine as the city superintendent and accepted all fits acts as official and legal. This year the board reclerted him and the \$10,000 state appropriation, it is intimated, has been and will be withheld.

Yesterday the colored people held a woods neeting in the grove at Millway, on the Reading & Columbia railroad. The attendance was not large in the forenoon, when here was a light rain. A DISGUSTED PHYSICIAN.

And a Good Reason for It.

"I was called the other day," remarked an old and highly esteemed physician, "to the house of a well-to-do mechanic, who child was dangerously ill with scarlet fever. Upon inquiring as to what measures he had taken to prevent disease in his family, or to what extent he used districtions in his family, or to what extent he used districtions when he told me 'he never used any,' and upon further questioning I ascertained the fact that he hardly knew what the word disinfectant meant. He acknowledged he had heard about Platt's Chiorides, but had never thought it worth 'while to use it himself, although his wife had told him of the high esteem in which friends of hers held it; but as to purifying the waste pipes and water closet of his own house, to sprinkle it And a Good Reason for It.

"By my advice he sent immediately to the druggist near by and boughts bottle of it, and by any directions he soon got more practical sanitary ideas in his head than he had ever dreamed of.

dreamed of.
"It does seem as if some people are bound to
keep right on defying all known sanitary laws,
adopting no precautions, even with cholera

Everybony's Air-Brake.

"Yes, sah," said Unele Zach, "I'se watched it forty years, an' 'its as I sez: De fast of May an' Christmas day ob de same year allers comes on de same week day."

Further conversation proved Unele Zach a most incredulous person. Chancing to mention Dr. Carver's feet of breaking glass balls with a rifle, he said:

Dr. Carver's feet of breaking glass balls with a rifle, he sald:

"I heerd 'bout dat shootin' and knowed right off it wasn't squar'; dat was a Yankee trick, boss, sho's you born."

"What was the trick?"

"Dar wuz loadstone put into de glass balls, an 'likewise onto de bullets; so when de bullet fly outen de gun, it an' de ball jes drawed tergedder, which, in course, brokes be glass—dats de trick!"

Later, Uncle Zach observed a rose running. Later, Uncle Zach observed a rope running

along the side of the car.
"Boss, what's dat line fur ?" "To apply the air brake in case of accident." Then we had further to explain how the forces of the brake was obtained, to which Uncle Zach

of the brake was obtained, to which Uncle Zach responded:

"Look a here boss, you sholy don't 'spect me lo b'leeve dat foolishness: Why, de biggest hurricane whatever blowed couldn't stop dis train, runnin' forty miles a hour. An' you think I gwine to b'leeve a little pipe full of wind under de kyars can do it? No, sah-ree:

There are a great many Uncle Zachs who judge everything by appearances. The airbrake does not seem to be a very powerful thing, but power and efficiency are not necessarily equivalent to bigness and pretense.

Phillip Beers, esq., who real des at the United States hotel, New York city, and is engaged in raising subscriptions for the New York World Bartholdi pedestal fund, was once upbraided by a distinguished relative, who was aphysician, for commending in such enthusiastic terms a remedy that cured him of bright's disease eight years ago. He said: "Sir, has the medical profession with all its power and experience of thousands of years, anything that can cure this terrible disorder?" No, no, that is true, there is no mistake about it but that Warner's safe cure is really a wonderfully effective preparation.

That remedy is an "air brake" that every man is really a wonderfully effective preparation That remedy is an "air-brake" that every ma can apply, and this fact explains why it has saved so many hundreds of thousands of lives —Copyrighted. Used by permission of American Rural Home.
