THE SHAME OF BRITAIN. An Outbreak of Scandal and Political Hatred in England.

The atmosphere of the English Parliament is fetid with scandal. Shocking charges are freely brought against both young and old. Politicians, heedless of debates, are discussing only the latest scandals. It seems as though the Pall Mall Gazette's exposures would create, in addition to a moral revolt, a political campaign of personal scandal. The criminal law amendment bill, previously unheard of, is now the most important measure of the session, and the House is crowded whenever it is up for debate. The most notorious libertines in Parliament are vieing with each other to propose the most stringent restrictions. The bill is being pushed for ward with feverish anxiety. The libertines, fearing exposure, desire to close the Westminster school for scandal at the earliest pos-

atble moment. Lord Randolph Churchill is just now passing through the roughest struggle of his life. His foes concentrate in deadly numbers, They include men who have been driven into exile by him, and men whose claims to advancement have been overlooked in his reckless pursuit of his own ambition, and they form a body of bitter and relentless enemies. Every blow which they aim at Churchill strikes the cabinet. It is the universal of the present of th Churchill strikes the cabinet. It is the universal opinion that if the session were to last two menths longer the ministry would be completely split. The Duke of Abercorn's sons, Lord George and Claud Hamilton, who are leading Orangemen, and who detest Churchill's Irish policy, are the leaders of the Tory attack upon him. In the Liberal camp the Whigs, under the leadership of Lord Hartington, are enraged at Chamberlain for throwing over Spencer, and likelain for throwing over Spencer, and like-wise threaten a split from the Radicals. Churchill may be defeated for the moment, but the masses will trust him.

The Orange party will practically cease to exist with the end of the present Parliament. The Parnellites will exterminate them in Ulster by a Whig alliance, and the Tories will then probably agree that Churchill's policy, backed by eighty-two Parnellites, is better than ten Orange votes. ETON'S AWFUL SCANDAL.

The latest seandal affects Eton school, the highest institution of its kind in the land, which is situated just across the river from the royal castle park of Windsor. It has now been ascertained that for months past horder of abandoned women from the surrounding towns and from London have had a rendez vous at Windsor. They were met at night by schoolboys 16 or 17 years old and driven around the district in carriages. The example of the big boys was speedily imitated by the younger lads. Becoming more daring, they invaded Windsor Park with the women. An exhaustive secret in-quiry followed the discovery of these facts. The result was that nearly 300 boys made full confessions, and all the guilty ones were forbidden to return to Eton next term The head master forbore expelling them pub liely to prevent scandal, and, moreover, be-cause boys expelled from Eton are forever incause boys expelled from Eton are forever in-eligible for appointment in the army, the navy, or the church, and have their pros-pects in life hopelessly wrecked. Many of the boys are connected with the highest English families, and every one of them was supplied with an amount of pocket meany equal to an ordinary man's entire income. The boys presented lavish tips to the park keepers and the police to purchase their si-lence, and since the investigation the masters have made strenuous efforts to prevent pub-licity of the facts. licity of the facts.

A Necessity of Health.

It is a prime necessity of health that the action of the bowels should be kept regular. But the way to overcome a temporary fit of constination or to remedy chronic costiveness, is not to deluge the stomach and drench the bowels with purgatives of violent and painful action. The happy medium between an inoperative and vio-lent cathartic is Hostetter's Stomach Bitters, which acts just sufficiently upon the bowels to relax them without pain, and which being : wholesome tenic, as well as aperient, has the effect of strengthening both them and the stom-ach, and promoting the well being of the whole internal economy. The removal of the bile from the blood, increases activity of the liver, usually dormant in cases of costiveness, and sound digestion follows the use of this beneficent medicine, as thorough and gental in its effects as it is safe and pure in composition. Rheumat'sm, safe and pure in composition. Rheumat'sm, fsver and ague, kidney troubles and debility are also remedied by it.

You gave me a bottle of Dr. Kennedy's Favorite Remedy and set me all right. I want more of it."
