TOLUMBIA, Aug. 3.—Columbia was visited

Baturday afternoon with one of the
sylest storms the town has experienced in my years. Two storms met directly over umbia about three o'clock and for over an ar the rain fell in torrents. The lightning wy. A house on Perry street, above scond, occupied by William Findley, was ruck by a flash of lightning and the shingles struck by a flash of lightning and the shingles of the roof torn off. The house occupied by amos Bowers, on Poplar street, was also struck and the lightning did damage to the roof to the amount of twenty dollars. The house of the Reading railroad company at the foot of Locust street had the roof damaged considerably by a flash. The slate roof was somewhat torn off and the bricks and mortar hurled in many directions. During a part of Sunday afternoon the town had a very heavy rain but during early Monday morning the rain felt with terrific force accompanied by a very heavy gale of wind. Hatches were blown from several canal boats at the Columbia wharves and the board piles in the lumber yard received the full force of the wind, which scattered the boards around in a promiscuous manner. The race running back of the coal bins of Herbert's coal yard was which scattered the boards around in a promisouous manner. The race running back of the coal bins of Herbert's coal yard was soon full of water causing a part of the bins to give way. About too car-loads of coal was carried away by the water. Limbs and trees were blown down in different parts of the town and the crossings at the corners of the sirects were carried from their places. The guiters soon overflowed and many cellars were tull of water. The cellar of the armory was full to the floor of the building.

The Columbia & Port Deposit railroad was somewhat damaged by the heavy rains. A large washout occurred on the road between Washington borough and Turkey Hill. The road is washed in many other places, and the regular trains are prevented from making their customary trips over the road.

The funeral of William F. Mowery on

The funeral of William F. Mowery on

Sunday morning was largely attended. Company C, the Columbia and Vigilant fire companies, and the employes of the Pennsylvania round house were present in large numbers at the funeral of their late associate. The services were held in the United Brethren church, but the building could not contain half the persons attending. Rev. Kaufman, of Washington borough, Rev. Kauffman, of Washington borough, preached a very impressive sermon. Touching reference was made to the military company, and their presence, at the funeral of their late comrade. The parents of the deceased wish it mentioned that the omitting of the fire companies in the funeral sermon was due to Rev. Kauffman not knowing that William Mowery was a member of any such organization. After the last sad rites were performed at the grave, three volleys were fired by the squad of Company C, as is customary at the burial of members of the militia of Pennsylvania.

Death of Constable Struck. Death of Constable Struck.

Frederick Struck, an old resident of Columbia, died at his home on Sunday morning at ten o'clock, in the sixtieth year of his age. The funeral will take place from the Salem Lutheran church, on Walnut street, on Thursday afternoon, at two o'clock. Frederick Struck was born in Germany, on July 11th, 1826. He imigrated to America about thirty-two years ago and for the past twentyfour years, lived in Columbia. For eighteen
years he was in the employ of F. S. Blatz,
and only left on being elected constable of
the Third ward, five years ago. Last February he was again elected and was serving his
fifth successive term as constable, at the
time of his death. Mr. Struck was the father
of seven children, six of whom survive him.

The Union No. 1 Fishing Association Ruturns From Its Encampment on the Susquehanna. The Union Fishing association, which had on encamped on Weise's Island since Wednesday last, returned home on Saturday evening, the members much fatigued, but all the better for their trip. Fishing, amateur base ball, music, athletic sports of all kinds, excellent camp fare, good com-pany, song, story and practical joke, made

pany, song, story and practical joke, made a lively week for the participants.

The annual election of officers resulted in the choice of the following; Pres. J. Byron Cummings; Vice Pres. J. E. Barr. Sec. Chos. Lehman; Treas. J. B. Lebkicher. It was unanimously adopted to change the name of the association to the "Weise's Island Fishing association," that this association shall not exceed thirty men; also that the band and orchestra take the same name, and consist of sixteen men exclusive of the other thirty, Harry Stricker was elected leader; John Bruder conductor, and Chas. Donnelly manager. A committee of five were appointed to adopt rules, viz: Leibly, Barr, Breneman, Leman and Lebkicher. The last Friday in August was named for a meeting. The band will meet the first Monday in January at Bruder's for a rehearsal. To the hospitality of Captain Weise, the catering of John Woodside, the vivacity of Alderman Barr, and the courtesy H. Layman, of the Union hotel, York county, much of the success of the excursion was due.

On a Fishing Trip. Lewis S. Hartman and son, George H. Miller, Letter-Carrier Deen and Wm. Rote left yesterday afternoon for a week's fish-ing. Their objective point is in the neigh-blochood of Steelville, Chester county. They will remain away for a week if the rain don't drive them home sooner.

OUR NORMAL SCHOOL. An Institution that Has Had Wonderful Growth

and Influence. The annual catalogue and circular of the Millersville State Normal school, which has ust been issued, is a very interesting publication, illustrating the wonderful growth and continuing strength of the institution, under wise direction and prudent management. Its students are gathered in from all parts of the state, and they go out to leave their impress on all the departments of practical and intellectual activity. The catalogue shows that the roil of last year numbered of ladies, 251 gentlemen, 325; girls in model school, 51 boys in model school, 41; number during winter session, 330; number during summer session, 513. Total for both sessions, 843. A very interesting and useful feature of the annual circular is the roil of alumni, with remarks. It is significant that while the class of 1858 numbered six—three of whom ation, illustrating the wonderful growth and

iass of 1868 numbered six—three of whom re decased, and two members of the Mill-raville faculty. The class of 1881 counts orty-six, of whom nearly all are teachers and five of them principals. The Rote Automatic Brake. inrday a leading transportation comordered the equipment of one hundred rator cars with the Rote automatic orake for fust service. The several orders re-cently received were accompanied with as-aurances that larger orders would follow if the brake worked satisfactorily. The busi-ness outlook of the company is much better than at any time since it began business.

ACTRESS AND CLERGYMAN

A Pious Man Who Opened His Mouth and Put His Poot Into It. A talented clergyman of New York city was dining at the house of one of the most devout and one of the wealthiest ladies of his congregation. He seemed to take great pleasure in entertaining the handsome young lady who sat next to him, and was evidently iady who sat next to him, and was evidently much impressed with her charms of face and her conversational powers. The amusement question came up at the dinner, and the young clergyman mounted a favorite hobby, and began to speak with warmth and feeling about the immortality of the stage. He had committed himself beyond redemption before he noticed that his remark was received with some degree of coolness by the company, but the face of his neighbor only wore an amused smille.

"Do you often go to the theatre?" she inquired.

"No, indeed, was the energetic reply, it is enough for me to see the posters on the fences, and the photographs in the shop windows. Why only two days ago I saw the picture of an actress who appears on the stage absolutely barefoot. For my part, I am not surprised at the low social standing of theatrical people, and I do not wender that they are never seen in the houses of respectable people.

are never seen in the houses of respectable people.

A chill seemed to fall upon the company, but the young lady's face still wore an amused smile. "Let us talk of something else," said the hostess, and by that time the young clergyman really felt that he had put his foot in it. The party broke up and as he was walking home, in company with another of the guests, he asked, "What was the name of the young lady who sat next to me at the table. I did not catch it?"

"Miss Extelle Clayton," was the reply.

"Estelle Clayton," repeated the young divine, "it seems to me that I have heard the name before. Who is she?"

"She's the actress who appeared on the stage barefoot; her mother is an old friend of our hostess to-night."

A silence followed.

THE CHOLERA IN SPAIN. seventy Bodies Remain Unburied on the Outskirts of Madrid.

Within two days sixty-nine new cases of cholera and forty-one deaths were reported in Madrid. Seventy bodies remained unburied in a cemetery outside the town, the police cordon around the intected houses preventing the people from obtaining burial icenses. The lower class manifest the greatest hospitility to the official doctors and ambulance-bearers. The epidemic is spreading to all the northern provinces. Owing to the prevalence of cholera in the Basque pro-vinces, King Alfonso has abandoned his projected visit to that section. Malaga, Seville and Cadiz have refused to act with the government medical commission. There is no apparent decrease in the epidemic. The number of new cases of cholera throughout Spain on Saturday was 2,349, and of deaths from the disease, 849. In the city of Madrid 29 new cases and 3 deaths have been reported, and in the province of Madrid, outside of the city, 40 new cases and 14 deaths.

The Correspondencia Espana reports that five persons were suffocated while a house was being fumigated at Juen.

In the whole of Spain on Saturday there were reported 3,820 new cases of cholera and 1,464 deaths from that disease. ville and Cadiz have refused to act with the

ST. JOHN'S NEW ORGAN.

Dedicated With Appropriate Services on Syn The dedication of the new organ of the St John's German Reformed church, corner of West Orange and Mulberry streets, took place yesterday at the morning's service. The pastor, Rev. G. L. Neefl, read the 142d and 150th psalms, and in a few appropriate words dedicated the fine instrument to the praise and service of the Almighty, the Father and Creator, the Saviour of mankind and the Redeemer of the world. The well drilled church choir sang a beautiful anthem, closely following the paster's dedicatory service and another line selection during the collectionembracing some splendid solos for soprano, alto, tenor and bass. Prof. F. W. Haas handled the new organ to the full satisfaction of the vast assemblage that filled the church of the vast assemblage that had the church
on this festive occasion. The ladies had
donned the chancel and fitar with a perfect
bower of flowers and couquets, out of which
rose a beautiful cross made of yellow roses.
The front part of the new organ was also
nicely accorated with flowers.

The sermon of the Rev. G. L. Neeff was
according to Echecians v. 19. "Singing and make

ased on Ephesians v., 19, "Singing and mak ing melody in your heart to the Lord." He spoke in forcible language of the harmony that should exist among the members of the

congregation.
At the evening service, Prof. Geo. Benkert, organist of Zion's Lutheran church, presided at the organ.

The importation of lemons to this country last week amounted to only 15,000 boxes. The week before 40,000 boxes arrived. The fruit is abnormally high, with every prospect of reaching figures higher than have been known for many years. A Philadelphia fruit dealer said on Saturday that is was not true, as has been suggested, that there is no corner in the fruit, but the advance is ine to the enormous consumption owing to the extremely hot weather. The fruit is now held at from \$7 to \$9 a box, with some very fine specimens at \$12. The imports have not been heavy, and this has had a great deal to do with the very stiff market, but unques-tionably more lemons have been used this summer than ever before. Lemons were largely used for medicinal purposes, and their use in hot weather for various complaints, as well as for luxury, is becoming greater and greater every year. It is though that the fruit will go up to \$15 a box if the heated term lasts much longer.

A MENDMENT TO THE CONSTITU-TION proposed to the citizens of this Com-monwealth for their approval or rejection, by the General Assembly of the Commonwealth of Pennsylvania. Published by order of the Sec-retary of the Commonwealth, in pursuance of the lst section of Article XVIII of the Constitu-tion.

Pennsylvania. Published by order of the Secretary of the Commonwealth, in pursuance of the 1st section of Article XVIII of the Constitution.

Joint resolution proposing an amendment to the Constitution of the Commonwealth of Pennsylvania:

Be it resolved by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, that the following is proposed as an amendment of the Constitution of the Commonwealth of Pennsylvania, in accordance with the provisions of the eighteenth article thereof.

AMENDMENT.

That section five of article five of the Constitution of the Commonwealth of Pennsylvania, in accordance with the provisions of the eighteenth article thereof.

AMENDMENT.

That section five of article five of the Constitution of the Commonwealth of Pennsylvania, which reads as follows: "Whenever a county shall constitute a separate judicial district, and shall elect one judge learned in the law, and the General Assembly shall provide for additional judges, as the business of the said districts may require. Counties containing a population less than is sufficient to constitute separate districts shall be formed into convenient single districts, or, if necessary, may be attached to contiguous districts as the General Assembly may provide. The office of associate judges, not learned in the law, is abolished in counties forming separate districts: but the several associate judges in office when this Constitution shall be adopted shall serve for their unexpired terms," be and the same is hereby amonded, so as to read as follows: Whenever a county shall contain sixty thousand inhabitants it may constitute a separate judicial district, and may elect one judge learned in the law; and the General Assembly shall provide for additional judges, as the business of said district, and may elect one judge learned in the law; such the General Assembly may provide. The office of associate judges, not learned in the law, is abolished in counties forming separate districts, as the feneral Assemb
