The heavy rains of yesterday cleaned the gutters and washed many streets badly. Many cellars in the town were flooded and a large wash occurred in the gutter at the corner of Commerce and Walnut streets.

Notes Around Town. A trial was given this morning to the new sand digging machine of Adam Rodenhauer. Everything proved to work in a very satisfactory manner, and the sand handled much faster than by the old manner of using shovels.

LANCASTER DISBANDED.

After Their Defeat by the Virginia They Collapse—Notes of the Game.

After to-day Lancaster will have no professional baseball club, as the team which represented this city in the Eastern League was disbanded to-day.

John Copland, president of the Lancaster club, that the game played by them in Richmond to-day would be their last. Mr. Copland notified the club of the league by letter that the Lancaster would disband.

The cause for the breaking up of the club is lack of financial support at home. It has been some time that they were in a bad way, and it was a surprise to many that they held out as long as they have.

The management of the club, as well as the players, became dissatisfied. Up to last night the club had played eight games, and this loss the manager had to be paid, and of late it is said that several gentlemen, who were interested in the club, have been coming to make up the necessary money.

The Lancaster played another excellent game of ball Monday against the Richmond, but they were unable to win. They seem of late to have been in a great fix, and they hit Pyle hard, Oldfield and Parker leading, but the usual good fortune followed the Virginians and they won.

It is difficult to tell at this writing what will become of the players. There are but few in the team and several of that number will have little trouble in securing engagements, as they are excellent "all round" players. Others will be far from so lucky.

THE BOARD OF HEALTH.

Sanctions Complained Of—The City and Others Threatened With Prosecution.

Last evening the board of health held a meeting at the office of Dr. C. H. Brown, the following members being present: Messrs. A. Lechler, C. Widmyer, H. R. Fulton, and Dr. Brown, secretary.

In the absence of the president Mr. Widmyer was called to the chair. Mr. Fulton, after making a preamble and resolutions, which were adopted: WHEREAS, Saffron Lake, near the corner of Chestnut and Nevins streets, has been proved to be a nuisance dangerous to the community and should be speedily abated; therefore,

Resolved, That the health commissioner be and is hereby authorized and instructed to bring complaints against the city of Lancaster or any of its citizens, owners of the ground on which the nuisance exists, and that the health commissioner prosecute the cases with as much dispatch as possible, until relief is secured to the citizens of that section of the city.

Ridgely Encampment No. 517. At the meeting of the members of Ridgely Encampment last evening, officers were agreed upon for the ensuing year. These will be formally elected and installed this evening after the encampment, which has been called for the 10th inst.

A Runaway Team. This afternoon a horse belonging to Frank Mettief, and hitched to a truck wagon, frightened at the fall of a loose wheel while standing at Mr. Mettief's stand in Centre squares.

William Hutton, an inmate of the county almshouse, was heard last evening by Alderman Barr, on charges of burglary and larceny. The testimony showed that Hutton was caught in the act of robbing the house of Isaac Zimmerman, the farmer at the almshouse, and detained until an officer arrived.

At the meeting of the managers of the Lancaster fair, held yesterday, arrangements were made with the P. & R. to run a train from Reading to this city in the evening of each day during the fair. The prospects of a successful fair are very flattering.
