god With Criminal Dimacy With Mrs. scob Worts, the Promotion Fall to Make Out a Cose—Base full Nows. Michap to a Little Cild.

Columbia, Aug. 21,—The case that has seen agitating the inhibitants of Washington prough for the past two weeks that of B. Frank Saylor, charged with criminal intimaty with Mra. Jacob Wertz, on complant of the aggrieved husband, was settled last vening at the hearing before Squire Frank. The interested parties with their witnesses were all present at the office of the squire and all the testimony, having any bearing on the case, was heard. From the testimony it appeared that Jecob Wertz, the husband, arrived home on the afternoon of Tuesday, August 11th, and found Saylor at his home in company with his wife. He at once suspected criminal relations between the two and Saylor escaped from the house followed by a platol shot from the hands of Mr. Wertz, but their testimony did not have any bearing on the case. The defense was a general denial of all the charge. Saylor was in the habit of visiting Mrs. Wertz, but as the wife and Saylor are first consins, it was sooting out of the ordinary run of things for relations to visit each other. The prosecution utterly failed to substantiate any hearge of a criminal intimacy existing between the couple, and the squire dismissed the case and Saylor was sent from the office a vindicated man.

first appearance in Columbia on Saturday afternoon, when they will play a game of ball with the Columbia club.

The town club succeeded in defeating the Dauntless club, of Mt. Joy, last Tuesday, and now feel anxious to give the champion amatuer club of Lancaster county a trial. The want of practice is the only drawback to the success of our home nine, and this is the main cause of their defeat. The only time the members of the club do any playing together is the preliminary practice just before a match game commences. The material of the club is of a good quality, but they want practice. The difficulty with getting the members together is that four of the club are not residents of fown and only come to town when a game is to be played. On account of the increased expense attendant on the bringing of the Christiana club to town the management are compelled to raise the price of admission to 15 cents for to-morrow's game.

Workmen are busily engaged in putting the boiler to be used in the electric light plant, in position in the building in the rear of the market house, formerly used as a carriage shop, which has been purchased by the company for the use of their machinery. STOPPING AN UNLAWFUL PRACTICE.

Collector MacGonigle recently wrote to the internal revenue department for instructions in cases where one cigar manufacturer hases stamps and disposes of the same to another manufacturer. This practice by confusing two accounts has been the cause of ious embarrassment to the management of a local internal revenue office which has out 1,600 factories within its jurisdiction. commissioner Miller writes that while the law governing the supply of cigar stamps (Sec. 3,395 R. S.) does not in terms prohibit the purchase of stamps by one cigar manufacturer for or of another, it was clearly the intention to prohibit anything like a promiseuous traffic in these stamps. Collectors are instructed that when a manufacturer's stamp account does not show a purchase (from the collector) of stamps corresponding with his returns of products and sales, an immediate investigation must be made to ascertain the cause of the deficiency.

Two of the concluding paragraphs of the letter of instructions are given in full: "It is svident that if eigar stamps may pass from hand to to hand, collectors may be kept at work continuously making such investigations (as the foregoing.) This office has therefore declared in its regulations that the purchase or sale of stamps by one cigar manufacturer of or to another manufacturer is deemed to be filegal and will not be permitted.

You will notify the parties who are re-ported to be in the practice of purchasing tamps for others' use, and those who use tamps so purchased of other manufacturers, hat unless the practice is at once stopped, uch measures will be adopted by you as the aw has provided."

St. Lighing Herself in Her Bedroom.

A profound sensation in social circles was created in Atlants, Ga., on Thursday by the suicide of Mrs. F. Eddieman, who strangled herself. She was last soen alive at midnight, Wednesday night, when she bade her sons good night. By the light of a dimiy burning gas jet she took one of the sheets from her bed and tied one end of it to the outside knob of the door leading from her room into the hall. After tying it she made it still more secure by a number of pins. The other end of the sheet was thrown over the door and se arranged that it lacked several feet of touching the floor in her room. A trunk was then piaced on end near the door. Mrs. Eddieman stood upon the trunk, and after tying the shept firmly around her neck jumped off. Mrs. Eddleman was widely known and highly respected. She was the daughter of Mayor Steele, oncewa prominent Atlanta editor.
