Near the bottom of the plate, in very large pures, is the date J1-55- enclosed in a long, prow oval, with flowers before and after e figures, and also between the 17 and 55. The wood-stove, of which this old plate rimed one side, was box-shaped and com-med of six plates, the front one being a nged door, through which the fuel was put to the stove.

The recently published history of Lancas-ter county states that "Baron Steigel manu-factured the first wood stove in use in the provines, which was in the shape of a box, and had six plates. The historian is evidently at fault. Jacob Huber built his furnace on "Furnace Run," a northweatern branch of Middle creek, in 1760, and as this old plate shows, he made stoves as early as 1755. "He claimed to be the first and only German in America who knew how to make iron, and so recorded the fact upon stone tablet placed in the stack over the month of the furnace and lands be-longing to it to Ervon Steigel and others, and it was the baron who gave it the name of Elizabeth Furnace, in honor of his wills. Steigel and his partners did a big business and bought large tracts of lands, and Steigel improved Huber's stove, by inventing the very proud, as he had cast on the side plates the words " Haron Steigel is the man who knows how to make stoves." And so he did; his ten-plate wood stove has not been im-proved upon during the past hundred and twenty-five years. But the old plate un-venty-five years. Personal Meation. Mr. John E. Young, of San Antonio, Texas, spent to-day in town with his brother, Iarry C. Young. Messra, A. J. Kauffman, F. A. Bennett and

Messra A. J. Kauffman, F. A. Bennett and Dr. J. B. McBride, who, in company with their wives, have been visiting Bedford Springs, returned home last ovening. Electric Light. For the past week or ten days the electric light business in Columbia has been at a standstill. The cause of this stoppage of work was the absence of Manager George S. Brock, who was called to his home, in Phila-delphia, by sickness and death in his immedelphia, by sickness and death in his imme ily. Mr. Brock returned to Colum diate family. Mr. Brock returned to Colum-bia yesterday, and has resumed the charge of preparing everything for lighting the town by electricity. The engine to be used in the plant arrived in town yesterday, and workmen are now busily engaged in putting it in proper position. It was at first thought by many that the poles used to hang the wirse on would have an un-sightly appearance, but by the application of paint they look very well. The poles are painted red from the top down to within six or sight feet of the bottom which part is painted black, making a pleasing contrast. Town Notes.

quality and may be written upon without the spluttering and spreading of the ink, as was too often the case with the old cards. The engraving on the address ide of the card is much better in the new than in the old series. A fine vignette head of Jefferson fills the upper right hand corner, while to the left on scroll are the words "United States Postal Card," and under it "Nothing but the ad-dress to be on this side." It is not likely that another famine will occur in the postal market. Town Notes. A man of that name was killed on the militad somewhere in New Jorsey recently and it is betleved that the astobal belonged to him. A man of that name boarded at the City hotel last winter for some time. He sold picture frames, and so did the man who was killed. It is almost certain that they are one and the mans.

Domain of a Monider. Joseph S. Stevens, who was on a visit to Harrisburg, died there on Thursdry. De-ceased was a well-known stove moulder, married and leaves a wife and three children, one son and two daughters. He is a son of William Stevens, of Reading, and has three brothers and four aisters, two of whom reside in Laucaster. He was in the thirty-ninth year of his age. The funeral will take place from his late residence, 519 South Prince street, on Saturday afternoon at 3 o'clock ; interment in Woodward Hill come-tary.

A supposed Third Arrested. In June, 1984, a man named Levi Ander-son hired a horse and buggy at the stable of Thomas Houghton, this city, and succeeded in getting away with him. Although diligent was not to be found. It is now believed that he has been captured. Mr. Houghton yes-terday received word that a man who exactly answers Anderson's description was arrested in Philadelphis. Officer Barnhold, who knows Anderson, has gone to the city to see if it is he. If no, he will be brought here.

Burgines at Eby's Hotel. The hotel of E. O. Eby, on the New Hol-land turnpike, near the stock yards, was visited by burgiars last night who broke into the cellar and stole a ham and some other edibles. They effected an entrance by break-ing open a cellar door. Mr. Eby's larder has been several times rifled by thieves, and he has almost come to the conclusion to rifle them, a la Jesse Pennabaker, by setting apring guns to the doors and windows.

Internally Injured by a Fall, From the Manheim Sentinel.

On Tuesday last Mr. Moses G. Miller, of this borough, in preparing a scaffold in his tobacco sked fell to the ground, a distance of about eight feet, sustaining internal in-juries of a sorious nature. He is at present suffering intense pain and unable to move his body in the least. His condition is very critical.

The first." How the old plate happened to get to the premises on which it was found, can only be guessed at. A century ago there was a tavern there, and it continued to be a tavern until 1840 or later. It does not require a very wide stretch of imagination to see the tavern loungers and strangers and travelers of a hundred years ago sitting around the old six plate stove in the bar-room, toasting their shins as they drank their three-cent whisky. Ex-Mayor Zimmerman very well remem-bers that John Weidler, cabinet maker, who occupied the Brimmer premises for many years used the old stove plate in his shop to burn shavings and other rubbish on. Years A Hay Wagan Ride. A Hay Wagan Ride. Last evening a happy party of young ladies passed through this city in a large bay wagon drawn by mules. On the bottom of the wagon were planks which were covered with straw and upon this the protiy young misses were scated. They came in North Duke street and as they passed through town sang a number of songs.

Postofice Pests. The postoffice people complain that people and stealing or breaking the pens and carry-ing off the blotters, all of which are left and on the outside desk for the accommodation of the public. Fruit Stolen. On Wednesday afternoon thieves got into a lot of John Humphreyville, on West Vine street, and stole all the peaches and other fruit they could find, besides doing injury to the trees. This was about the only business of import-ance transacted and after the meeting the whole party sai down to an excellent dinaer at the hotel of Elins Urey. The attendance at the soundon was not as large as in former years and this was no doubt largely owing to the change in the weather. The doctors who attended the reunion from the contry ware as follows : Carpenter, Al-bright, F. Musser and Boardman, city ; J. H. Musser, Lampelar ; J. M. Desver, Buck ; P. S. Clinger, Concettors ; Zell, Little Britain ; A. Miller, Bird-in Hand ; Bruner and Craig, Columbia ; Birg-and, Robrerstown ; Living-ntos, Columbia ; Bryson, Martic ; Wiseman, Bainbridge, A number of ladies were also present.
