WILS FOR THE APOILSMEN of the Republican Politicians for

The city offices and the second secon

a persistently that the councilmen-elect persistently that the councilmen will con-linde that their lot is not a happy one. A year ago Councilman Mentzer, loss of the of the factions, mid Jake Halbach must defeated, because he joined hands with lavi Benseng in the last county primary and tert some of Mentzer's friends. Halbach is condidate for re-election, nevertheless and readidate for re-election, nevertheless, and ye he will get there. Two other candidates the function of the second sec iman, was a candidate this year for council at was defeated. A year ago he was a canfor street commissioner and thought sction was certain. So sure was he that would be the caucus nominee, that he on a corner near the City hall and made a little speech to the curbstone delegates as-sembled, (while the caucus was in session) a to the proper way to lay crossings and ze streets. When the caucus ad-

macadamize streets. When the caucus ad-journed Cox made inquiry as to how he was defeated and he was greatly surprised to learn that he had received one vote only, for the office of arrest commissioner. He has no strength in this fight. Boss Mentzer is for Weimer. Until a very recent period Weimer was Capt. McMellen's right bower. He and McMellen had a fall-out bout housiness matters and now they do not

about business matters and now they do not speak as they pass by. Weimer was against Modellen in his candidacy for select council last month and that made him solid with Mentzer. Weimer may be made superin-tendent of the water works but the chances are against him. He is a carrentee chances are against him. He is a carpenter by trade, a fairly intelligent man, but knows nothing of the duties of the office. If Mentzer could induce Weimer to stand aside and would take *sp* some practical engineer like Tom. Thu dow, Halbach could be beaten.

City Treasurer.

For city treasurer the present incumbent, Clayton F. Myers, has no opposition. Exelerk of the quarter sessions, Dr. B. F. W. Urban has a hankering after this office, but he will hardly make a canvass for it. Myers has his own ward solid to start with, and the other influences behind him will make him a hard man to beat.

City Solicitor

For city solicitor the candidates thus far are J. W. Johnson, the present law officer of the city, Henry Carpenter, J. W. Denlin-ger and W. T. Brown. Johnson is the shrewdest politician and wire-puller of the lot, and although he may not have his own ward solid, he has warm friends in some other wards who will be for him. While not originally a Rosenmiller man he tood the mark on election day, and did all in his power to keep the Fourth ward in line, but the harder he worked the worse Rosy ed. The result in that ward is well

nown. Denlinger is the candidate of "Judge" Sherly. W. T. Brown is a candidate on his Eberly. W. T. Brown is a candidate of merits. Henry Carpenter is backed up by a strong combination and has the best of the

Street Commissioner.

Four persons have thus far announced themselves as candidates for street commissioner, and three of them come from the 9th The present commissioner, Jacob Bertz, seeks a re-election on the record he has made during the year he held that office. Bertz has made a fair officer but he has the bad habit of talking too much and too loud. Pete Gorrecht, who made a strong fight for this office a year ago, is also a candidate. He has some friends but hardly enough to see him through. Harry Resh, of the same ward, is also a candidate, but his following will be Small. Charley Buckius, who was street commis-

sioner a few years ago, is also after the snap. The fight, from present indications, will be between Bertz and Buckius. The Regulators,

For principal regulator the contestants will be Col. S. C. Slavmaker and Allan A.

Herr, the present incombent. For assistant regulators Hubley and Albright, the present officers, are candidates for re-election. Anthony Lechler, sr., is also a can-didate for assistant regulator, and he will be

one of the successful ones. Councils Organization It is said that Dr. R. M. Bolenius, who

New York Life Insurance Company. Such a report as the New York Life Insurance Company makes to day is not only a gratifying exhibit for its members, but is of great interest to financial circles.

to financial circles. Its record for 1855 shows an increase in income of \$1,850,697; an increase in assets of \$7,550,565, and an increase in divisible surplus of \$2, 495,456, with liabilities calculated at four per cept. (the legal standard of the State of New York as in Pennsylvania, is 45 per cent., and on this basis the increase on surplus is \$3,25,500. The total assets are \$66,564,321 32. The surplus at four per cent, exclusive of over three million of dol iars of surplus belonging to Tontine policy holders, which this company rightly treats as a hability, is \$7,064,473.13-this is claimed to be the argest 4 per cent, divisible surplus held by any

life company. The amount of new business written in 1883 was \$65,521,452, making a total insurance in force 116* of \$259,671,580.

The success and progress of the New York Life may be attributed to its liberality toward policy-holders, its care in accepting risks, its shrewd financial administration, and its presentation of the best plans of insurance.
