TWO FIRES AT EARLY MORN.

BARN AND CONTRNIS AT M'GOVERN VILLE ENTIRELY DESTROYED.

Valuable Property of Mrs. A. T. McTague Con samed-Twelve Head of Live Stock and Tobacco Burned-Disastrous Fire in Eimer Shreiner's Jewelry Shop.

Between four and five o'clock this morning the barn on the old McGovern farm, at Medovernville, on the Harrisburg turnpike, three miles west of this city, was destroyed by fire. The building was of stone and in size, 69x39 feet. It was owned by Mrs. Annie T. McTague, of this city, and occupied by acob B. Huber, the tenant farmer. The tire was discovered about four o'clock and in a short time nothing was left standing but the walls. Although a great many people were on the grounds during the fire, it was impossible to save anything. The live stock, consisting of three horses and nine bead of cattle, perished in the flames. The building also contained a large quantity of hay, straw and cornfoider, three and a half scree of tobacco, two large and heavy wagons, one market wagon, farming implements of all kinds, including a reaper and mower and other machinery.

The house belonging to the property stands on the opposite side of the turnpike from the barn. During the fire it was in great danger. The kitchen attached to it was on fire several times and was only saved through the hard work of those present, who kept applying water by the bucketsful. The damage to the ouse will not be very great.

Mrs. McTague's buildings are insured in the Farmers' Mutual company, of which A. O. Newpher is agent, for \$1,125. The amount on the barn, owned by Mr. Huber, were insured with Bausman & Burns, in the Washington Fire and Marine company, of Boston, for \$2,665. No one knows how the fire originated, but it is pretty certain that it was the work of an incendiary.

#### AN EARLY MORNING FIRE. The Speciacle Factory of Elmer Shreiner Badly

At half-past two o'clock on Sunday morn ing an alarm of fire was struck from box 12, Centre Square. It was caused by the burn-ing of a small brick building in the rear of is one story, about 30 x 15 in siz., and was formerly used as a repair shop by Mr. Phoads, who owns it. Of late it has been occupied by Elmer Shreiner, who carried on the manufacture of gold and silver spectacles. The fire was discovered by Private Watch-man Erisman, and he sounded the alarm. Engines No. 4 and 3 soon came to the square shortly. Two plug streams were turned on the fire and several gentlemen, having no come without with the fire department, who were in the neighborhood when the fire broke out, took hold of the pipes and did good work in aiding the firemen. The fire was ex unguished in a short time after an engine stream had been turned on by No. 4. The fire in engine No. 3 was not started unfil after the machine had been attached to the plug at the Western Union office and it was not not needed. At one time the fire looked very bright and from was not started ('thill after the machine had been attached to the plug at the Western Union office and it w. a not needed. At one time the fire looked very bright and from Centre Square it seemed as though the rear of Rhoads' store was on fire. This building was in little danger, however, as the spectacle factory is not attached to it. The wood work, including the window frames, doors, and floors of the building were almost totally destroyed. The machinery and tools owned by Mr. Sbreiner, consising of lathes, rollers, dies, cutters, &c., are ruined. Two large and valuable grind stones were cracked. The origin of the fire is a mystery as yot. There are two rooms in the building. The one in the north end contained an engine and boiler. In the southwest corner of the other room a small stove stood. From the appearance of the building it seems that the

in Chicago on Saturday with a sermon to girls only. There was over 4,500 present. Among other things Mr. Jones said:

Girls, watch your company; an angel from heaven could not keep some company that girls do in Chicago and not be corrupt. Pure, noble girls stand alone on this earth for beauty and glory. Boys go in bad company, but the hope of this land is in its pure girls. Oh, be vigitant; guard your parlor; beware with whom and how you go to entertainments. The best way to go is not to go at all.

Tell me what your associations are, young lady, and I will give you a glimpse of your history. Is he an exquisite dancer? Does he clerk in a big establishment at \$50 a month and spend \$10 a month for board, \$30 a month for carriage hire, and \$28 a month for theatres? Does he convince you that he has not a stingy bone in his body? Do you think he is "just nice"? Where does he get his money? " " I am in love with these wool-hat boys. He starts at \$30 a month, sticks to business and the wool hat till he gets \$1,000 a year; then gets to be junior partner, then sentor partner, and finally owns the whole block where he does business. You stylish girls do not like him. Well, he likes you just about as well, for when he wanted a wife he went back to his country home and married plain Mary, and for a few years it was love in a cottage, and now he has a residence on Michigan avenue. Girls, tile to these woolhat boys, and they will take care of you.

A beautiful girl of this city arranged to attend a wine suppers last week. When the night came she sent word saying, "I can't go; my heart has been touched at the meetings." Now she has brought three of her associates here with her. What do you want of wine suppers? Oh, mothers! no matter what the devil may owe you, if he sends you about three drunken sons-in-law, he will have paid all the debt and you will receipt in full. Then, girls, watch your tempers. If a girl is ugiv to her mother she will have paid all the cover has one.

Mothers, overhaul your libraries. A young girl once

make it warm in her own home, if she ever has one.

Mothers, overhanl your libraries. A young girl once said she was terribly bored by reading the Bible. The poor, silly, sapheaded thing! Some mothers fix their daughters to be damned. They insist on having little parties for their children. A little party is a big party in short clothes. Then comes the big party, and then the hugging german. I want to have the grass growing on my grave when my daughters are attending aermans. After the germans, then what? I will not go further. Take the words of a profound priest, who says that at young women who have strayed ascribed their fall from purity and virtue to the in-fluences of the ball-room.

The Salvation Army is still hard at work fighting the devil in this city. is small, but if the Salvationists only succeed in holding some of those they have converted they will be doing a great work.

Large crowds attended the meetings at Grant hall, which is called the "barracks," on Saturday and Sunday evenings; and among those who go are some that are badly in need of conversion. Although the weather was very bad last evening, the army appeared in Centre Square as usual and did some very earnest praying and singing. From the Square they marched to their hall, which was packed with a crowd that was not of the quietest kind. The army here seems rather weak to do much battling with Satan. They work hard, however, and seem satisfied with the progress they have made. They are said to be very eaffly satisfied.

ELIZABETHTOWS, March 22 - Yesterday about 1:40 p. m., a alide occurred at the "Tunnel Cut" near town, which might have caused a disastrous wreck and loss of life : save about ten tons of rock, etc., falling to the track below. The New York and Chieago limited express, due here at 1:37 p. m., was a few minutes late, the slide occurring about the time it was due. The train backed to Dillerville and went westward on her ourney via Columbia. The track was leared after several hours by the wreck train from Middletown. Something should be done at once by the P. R. R. company to avoid these perils, as there have been several escapes made by trains just passing. The Cigar Industry.

The cigar industry was at one time carried on on a large scale in this place, but of late very little has been done in that line, owing to no demand for non-union made cigars. Three of our manufacturers last week changed their plans and will bereafter employ none but union men. It is supposed there will be a revival in that branch of industry here, and that before long a large number of hands will be in demand. The manufacturers with union shops here are J. S. Gross, S. Y. Heisey and J. A. Ulrich. Several of our cigarmakers have joined the Cigarmakers' International Union and more will follow. The public schools will close in about two weeks, and during the month of April, Mr. J. F. Ober and Mr. D. Singer will open school

to continue ten weeks.

Mr. S. Y. Heisey, cigar manufacturer of this place, will in two weeks leave for the West, on business pertaining to his farm in Anthony, Kan., and to his factory here.

Mr. H. K. Peirce, of Fenn township, this county, will remove to this place, having purchased the bakery, etc., of Mr. H. G. Gebhart. Mr. G., will take a trip to the West shortly, intending to look for a good location.

## SATURDAY'S RUNNING RACE.

The Darkey From Reading Defeate Clark McGrann's Park. The running race between Frank Clark, white, and Edward Broedly, colored, came off at McGrann's park on Saturday afternoon and the darkey was the winner. The race was 100 yards for \$100 a side and the money was posted at the INTELLIGENCER office Owing to the very disagreeable weather was but a couple people at the park. This included many well-known sporting men from dif-ferent places, and especially from Reading where the colored man came from. the race there was some betting. The friends of Broedley had lots of money and were very anxious to back him. He was the favorite anxious to back him. He was the favorite in the pools by 10 to 7 and odds of two to one were freely offered on him, just before the race. At half-past three o'clock while a drizzling rain was falling the runners made their appearance on the east side of the track, where 100 yards had been measured off, and soon stripped themselves of their ciothing. The colored man is about six feet high and well made. Clark is much shorter but very muscular looking. After three attempts the men were given the "go" by Frank Parker. They sped down the track like the wind. Clark was in the load almost to the end when for some reason he seemed to fall back and the colored man won by a few inches. There colored man won by a few inches. There was a great deal of difference of opinion was a great deal of therefore of opinion among people holding watches in regard to the time made. One gentleman who cer-tainly is very reliable, said that they made it 10% seconds, while others say that it was ot better than 11.  number of gentlemen who claim to know, say that the race was a set-up allair between the runners and their backers. Clark is not the right name of the white man, who is a professional runner and hails from the neighorhood of Allentown. He came to Lancas ter about two weeks ago and gave out that he was a runner and anxious to make a match. He found no one here to run him and he went o Reading where he matched himself against the negro. The people who believe that the affair was a hippodrome, say that Clark was sent here by the betting men from Reading and other places. He was to become ac-quainted and in that way to get Lancaster people to bet on him. The scheme, as is sl-leged, was for the negro to win and the Lanaster people to be big losers. Whether this was the case or not it is difficult to tell, but if t was, the game did not work, as the Lancaster people knew nothing of Clark and they did not back him to any great extent. It is claimed by the backers of the men and others that the race was on the square and the men an on their merits. It is said that Clark and Broedly will next

A CRIPPLED PLAGMAN'S RESCISM.

The flagman at the River street crossing o the Erie railroad in Paterson, N. J., is Patrick Lynch, who can discuss with intelligence the relative merits of the Salisbury and Hadstone cabinets, criticise the president's policy daily, tell the cause of the Afghanistar war, and write a beautiful hand. And yet he has no hands, both arms having been am-putated at the elbow. He writes by sticking the end of his penholder between his teeth and guiding the pen with his remnants of arms. He can dress himself, hold and turn the Sur he is reading, and even defend himself, as he did recently in punching unmerelfully a drunken man who attacked him. He selzes the handle of his flag between his arm and side, and waves it to an approaching train gracefully as well as vigorously. He is a jolly, genial, sunny, pock-marked, red-faced, intelligent man, whom everybody likes, and who never had any one hurt when he was on duty, notwithstanding he has the most dangerous crossing between Bergen tunnel and Hornellsville. It is too wide for gates, for the wind would blow them over. e is reading, and even defend himself, as he

Early Saturday morning a long string of mill girls were walking down the track on the way to Ashley & Bailey's silk factory, contiguous to the crossing. A train passed, and the girls were just stepping on the tracks to cross them when all except one noticed a train coming the other way. The girl was to cross them when all except one noticed a train coming the other way. The girl who did not notice the train stepped on the track directly in front of the approaching locomotive, which she did not heed because she confounded the noise it made with that made by the first train. The girl's companions and the flagman yelled for her to look out, but she could not hear them. The other girls were variety and with horver and their were paralyzed with horror and turned their ware paralyzed with horror and turned their heads so that they should not see her killed. The engineer of the train reversed his engine and put on the air brakes, but it was too late. In the meantime, however, Lynch was on his way, dead ahead of the locomotive, and running a losing race with it, making a bee-line for the girl. When he got down the track to where she was he was not ten feet track to where she was he was not ten feet ahead of the pilot. He had no hands to seize her, so he simply threw himself against her and with such force as to knock her headlong and with such force as to knock her heading down the bank at the side of the track. Then he jumped to save himself. The pilot grazed his side as he was in the air, but he came down safe beyond the reach of the train.

The engineer and firemen on the locomotive cheered and gave a series of shrill whistless as applause for the brave act, and the cheere were taken up by the cirls and Lynch

cheers were taken up by the girls, and Lynch was led back to his shanty by the whole crowd like a hero. The girl whose life was saved had for a second been indignant at what she thought an unprovoked assault, but she was earnest in her thanks when she rec-ognized the fact that Lynch had saved her life at the risk of his own.

#### PAVOR GLADSTONE'S PLANS. coich Liberals Found to Be in Favor of His

Irish Scheme. LONDON, March 22.-The deadlock in the political situation still continues. It was fully expected that there would be a cabine council to-day at which some arrangement would be made regarding the differences be tween Mr. Gladstone and Messrs. Chamber lain and Trevelyan. No council was held, nor has any summons yet been issued for a meeting at any future date. The primier, however, has had a number of conferences with ministers known to be in accord with his views, and these conference have in reality amounted to a cabinet council with the malcontents left out. The first was with the Earl of Rosebery, with whom Mr. Gladstone was closeted all the forenoon. It is reported that the earl has made a thorough canvass of all the Scotch Libersl members, and of many of the Tories, and that he reported to-day that they were as a rule, favorably disposed toward Mr. Gladstone's plans. The premier afterward invited Earl Spencer, Mr. John Morley and Earl Granville to a consultation and they are now discussing the situation. has been ascertained that Mr. Gladstone is securing, through trusted agents, the views of all the Radical members of the House upon the Irish problem. This is with a view, first, of ascertaining how far the defection of Mr. Chamberlain has leavened the party with secession views; and, second, of seeing what modifications may be necessary or desirable to make in his scheme to render it certain of success in the House.

#### KREPING UP THE STRIKE. The Knights of Labor Reject the Propo

of the Two Governors, St. Louis, March 22.-The local strike sit uation is unchanged this morning so far as the Gould system is concerned. No attempt is made to run trains as yet, and more trouble is experienced in getting out the pas-senger trains now than has been the rule for the past week. The firemen are standing by the strike faithfully and every train that goes out except those carrying mails is pulled by an engineer who is posisted by an amateur fireman. The condition of the track is very bad as no section men are at work, and many watchmen are among the strikers. The outto the governors will not be accepted by the Knights. They claim it is a mere dictation of terms by the company which, if accepted. would be a complete surrender, which they will decline. Rumors of a further spread of the strike are rife, but cannot be verified a

English Evacuating Egypt.

London, March 22.—In the House of Commons this afternoon, Mr. H. Campbell Bannerman announced the withdrawal of the British and Egyptian troops on the Nile to Assouan or the first cataract. This action, he said, was in pursuance of the general purpose of the government to evacuate Egypt as fast as practicable, and in view of the fact that the occupation of Assouan is sufficient to defend the frontier of Egypt proper.

J. W. Johnson, city, announced that proceedings were now pending in court for a division of Salisbury township into four voting precincts, and he believed the matter would be consummated. He moved therefore that when consummated, the present committee be authorized to appoint committeemen, and designate the polling places for the new precincts. The motion was adopted.

Martin S. Fry, Ephrata, made a motion that the rules be so changed as to authorize the committeemen of Ephrata township to open the polls of the primary election in said township at 1 o'clock p. m., instead of at 3, as now provided. He said it was almost impossible to poil 700 votes in the time between 3 and 7 o'clock.

Percy Schock and others opposed the motion as being illegal. The people had adopted the present rules and only the people

Mr. Seiple, of Washington, moved that Saturday, the 22d of May, be fixed for the holding of the primary election, and that the polls be opened at 2 o'clock p.m., and close at

There was a storm of opposition to the last clause of the motion, and a divison of the question was demanded.

The date for holding the election was unanimously agreed to, and the time for opening the polls was voted down by a vote of yeas 24, nays 30.

Martin S. Fry moved that the assessment of candidates for Congress be fixed at \$25; state senator and district attorney \$10 each; assembly \$5 each; prison inspector and poor directors \$2 each; and county surveyor \$1.

The motion was unanimously agreed to. The motion was unanimously agreed to.

Treasurer Smith stated that there remained in bis hands \$75.34, and on motion an auditing committee was appointed to audit his books.

LOCAL CHURCH NEWS. A tedication Anniversary-Forty Hours De votion—Cost of Improvements, Yesterday was the fifth anniversary of the dedication of St. Stephen's Lutheran church. dedication of St. Stephen's Lutheran church. Rev. Meister in his sermon at the morning services referred to the anniversary and the increase in membership since the dedication. The Forty Hours' devotion opened at St. Joseph's Catholic church on Sunday morning at 6 o'clock, at which hour mass was celebrated by Father Grotemyer. At the 10 o'clock mass, Father Smeltz, of St. Joseph's hospital, preached the sermon. Services were also held in the evening. The attendance was large at all the masses, Masses were celebrated this morning at 15 and 7 o'clock. A sermon will be preached this o'clock. A sermon will be preached this evening. Masses will be celebrated to-mor-row morning at 5 and 7 o'clock, and in the row morning at 5 and 7 o'clock, and in the evening the devotions will be closed with a sermon, benediction and procession. A number of clergymen from a distance are expected to take part in the closing exercises. At the late mass at St. Mary's Catholic church on Sunday, Dr. McCullagh announced that the expense incurred for the recent repairs and improvements made in the church, all of which have been described at length in the INTELLIGENCER, was \$14,094. This amount is reasonable, taking into consideration the fact that St. Mary's is now one of the finest churches in the state.

MACKIN AND GALLAGHER.

The Supreme Court of the United States Say That the Defendant's Crimes Were Inhunons and That They Must Be Acted

Upon By Presentment. WASHINGTON, D. C., March 22.—In the supreme court of the United States to-day Justice Gray delivered the opinion of the full bench in the case of Joseph C. Mackin and Wm. J. Gallagher, plaintiffs in error, vs. the United States from the United States court at United States from the United States court at Chicago. It is the well-known Chicago election case, and was sent to the supre court of the United States by the lower co for the purpose of determining whether the crimes charged to the defendants were infamous, and could be proceeded with upon information. In the course of his opinion Justice Gray says: "The provision of section 1,022 of the revised statutes of the United States for all crimes and force." States for all crimes and offenses comp against the provisions of chapter be prosecuted either by indictment or by information filed by a district attorney, does not undertake to define which of those offenses are infamous and therefore not to be prosecuted by information, but leaves that to be regulated by the paramount authority of the constitution. Our conclusion, there-fore, is that all the crimes charged against the defendants in this informat mous crimes within the meaning of the fifth defendants cannot be held to answer in the courts of the United States for any of those ndictment of a grand jury; and that conse quently the first question certified must be nswered in the affirmative and the second in the negative, and the other questions cer-

## ANARCHISTS FIGHT GENDARMES

oldiers Charge Upon a Mob, Wounding Mate Workingmen, BRUSSELS, March 22.—The anarchist riot ing which was begun at Liege last Thursday, is not yet ended. Last Saturday night a large force of anarchists attempted to fight their way back into Liege, but were again

driven back by the troops at the point of the bayonet. Very heavy damage has been in-flicted upon the property of miners, manu-facturers and others at Seraing, Jemeppe and Tilleur. The whole district is now guarded by strong detachments of troops. A serious conflict occurred to-day between the anarchists and the gendarmes at Sera-ing. A party of anarchists, backed by a large mob of unemployed miners and other

workmen, formed a compact body and were about to renew the work of wrecking the mines ane machine shops when a pla gendarmes charged upon them. As the soldiers approached they were met by several shots from revolvers in the hands o wounded and two or three others received slight fiesh wounds. This was the first time that firearms had been used during the The soldiers were exasperated at the casualties of their comrades, but their officers at

irst refused to allow them to return the fire. Finally, however, the funilade from the auarchists became too galling and disastrous to be endured and the commanding officer gave the order to fire. Two volleys of ball of were fired directly into the mob and then the order was given to charge. The streets were scores of wounded anarchists and working men were left lying on the ground. All of these men were removed to the prison hospi-tal. This ended the open rioting, but the in-

surgents have only been made more sulleu and desperate by their disasters. They are now plotting together in small groups and it is believed that many incendiary attempts will be made to-night upon the workshops whose owners are charged with having

#### A BOY'S FATAL DISCOFERY. Finding Bidden Shells, One of Which Blows

Him to Pieces. GALVESTON, Texas, March 22.-While Fred Gould and several companions were playing at the corner of 35th street and avenue M, they dug up an old rusty cannon ball. The boys went to work searching for others and in a short time they had unearthed over a dozen shells. They discovered that bullets. Gould thought it would be a capital idea to get some bullets for his gun out of the rusty shells. He successfully opened five and secured the bullets within; but while holding the sixth shell in the act of filing off the leadslae it exploded with terrific force, blowing his hip off, mutilating the body in a fearful manner. He lived only a few minutes after the explosion. The missile proved to be a ten-pound schrapnel shell; a portion of which entered the house near which the boy was sitting, tore through a bed and passing through the front of the dwelling. There is reason to believe that hundreds of shells are buried beneath the and in the vicinity. Whether they were buried by design in order to save them the federals when they captured the city in 1862 is unknown. They are found about four feet below the sandy furnace, lying in rows as though carefully placed there.
