THE BASE BALL SEASON.

The people of Louisville were disgusted at the exhibition made by the home team on Saturday. Mack, at second base, had six errors and the whole team had fourteen. Brooklyn, Baltimore and Pittsburg were

said to be the weak teams of the association but they seem able to hold up their ends after all. The Smoky City men have im proved lately.

On Saturday a great base ball deal was made, and the Sporting Life was the only Sunday paper that had the news. Negotiations have for some time been pending be-tween the Washington League club and the Newark club, for the transfer of Phenomenal Smith and Catcher Daly. These negotiations were completed Saturday, and in the even-ing both players were released by Newark and signed by Washington. Both men will leave at once for St. Louis, where they will om the club. Everybody will be glad to learn that the Kansas City cow-boys have won a game, for new clubs of the league deserve to be encouraged. The Kansas City people have pluck and \$25,000 behind their team.

The Augusta (Ga.) people have been trying to get Hofford from Pittsburg. Horace Phillips told them that John would play the season out with his team and they might as well save their time trying to secure him. The Atlantas started out with big work at the bat, but "booze" and over confidence are

beginning to tell upon the players.

Many fine ball players are in minor associations, simply because they cannot abstain So far Wetzell and Hofford have done the

For some time past the base ball department of the Philadelphia Times has been very weak. The paper has taken a sudden leap, however, and yesterday they published the full score of all games during the week besides a lot of interesting notes. Base ball is the leading sport of this country just now, and the newspapers must keep up with it. The Philadelphia Times calls Hothord "Pittsburg's left-hand pitcher." This

The people of this city are very fond of base ball, and there is no good reason why the ciub which has just been organized here should not be made a success. The nine should be strengthened wherever it may be found weak and to do this money will be found weak, and to do this money will b needed. From the West Chester Local News. Samuel Ladd, of this borough, has just re turned from a trip to Lancaster and York counties, where he was in search of bird's eggs. He was particularly in search of eagle's eggs. In the vicinity of Fites' Eddy he were empty, when finally another gentleman informed him where there was one, he was positive, containing eggs. The tree was shown to Mr. Ladd, up which he climbed, but instead of eggs be found two young eagles, apparently about two weeks old, one of which he brought home, and the other was taken by the gentleman above alluded to, who will, like Mr. Ladd, endeavor to make a pet of it. TELLING THE KNIGHTS OF LABOR OF THEIR SERIOUS MISTAKES.

POWDERLY'S STRONG WORDS.

Expressing so Optaion of the Boycott That Wil He Read With Great Interest-Counseling Moderation to the Tollers-Recelving 400 Letters a Day.

CRICAGO, May 10.—The following secret circular has been received by the Knights of Labor of Chicago, and will be read in the various assemblies during the coming week: PHILADELPHIA, May 3, 1886.

To the order everywhere, greeting! The response to the secret circular issued on March 13th has been so generous and the indorsement of the sentiments contained in it has been so unanimous that I feel encourage and strengthened in the work. Nearly four thousand assemblies have pledged them-selves to act on the advice contained in the circular of the 13th uit. I feel that it only re quires the coming to the front of the real mer of our order to set us right before the world We have been losing ground, so far as put lic opinion is concerned, for some time. One of the causes is that we have allowed things to be done under the name of the Knights of Labor, for which the organization was in no way responsible. I ask of our members to keep a zealous eye upon the do-ings of the labor men who never labor, and when they charge anything to our order in your local city, set the seal of your condem nation upon it at once by denying it. SOME GOOD ADVICE.

If a paper criticises the Knights of Labor or its officers do not beycott it; and if you have any such toycotts on, remove them. A journal not long since made some uncomplimentary allusion to the general master workman of the Knights of Labor, and at the next meeting of the nearest assembly a motion was cast to boycott the paper; not that alone, but every person who advertised in the columns of the paper. wrote to the assembly, asking that they re-move the boycott, and it was done. We must bear in mind that our general master workman is only a man and is not above criticism. We demand for ourselves the criticism. We demand for ourselves the "right of free speech." We cannot consistently deny it to others. We must tolerate fair, open criticism. If a reply is necessary, make it in a goutlemantly, dignified manner. If we are criticised or abused by a blackguard sheet, treat it as you would the blackguard himself—in silence. That our sines and objects are good. lence. That our aims and objects are good is no reason why our members should be re-garded as beings of a superior build or mate-rial. We are no more the salt of the earth than the millions of unknown totlers who de the work of the world. In our dealings with done to us, we in turn must do equity to others. This is the aim of the Knights of Labor and must not be lost sight of in the

A FEW LITTLE ARTSES. Let me direct your attention to a few little abuses: I find that wherever a strike occurs appeals for aid are scattered broadcast among appeals for aid are scattered broadcast among the assemblies. Do not pay one cent for such purposes in future, unless the appeal comes from your own district assembly or the general assembly. If boycott notices are sent to you, burn them. I have in my possession over four hundred boycott notices which were sent to assemblies with a request that they be seted on. Let me mention some that they be acted on. Let me mention some of them. A member is editing a paper. He fears a rival, and proceeds to get into an altercation with him, boycotts him, and then ask the order to carry it out. A certain paper is influential in one or the other political parties. Members of the apposing party conceive the idea of getting rid of the paper, and they invoke the aid of the Knights of Labor, firs taking the precaution to have the paper in question say something uncomplimentary of the Knights of Labor. In fact, our order has been used as a tail for a hundred different kites, and in future it must sear aloft, free

rom all of them.

I hate the word boycott. I was boycotted ten years ago, and could not get work at my trade for months. It is a bad practice. It has been handed to us by the capitalists. It have no use for it, only when everything else fails. Appeals for aid, circulars, peti-tions, advertisements of every kind are scat-tered everywhere through the order. I copy a letter which comes to me on the subject: eturn at any time with a guarantee of big "A large part of our time has been spent i reading hoycott notices and appeals for aid, keeping us until twelve o'clock. We were led to believe the Knights of Labor to be an educational institution, but this kind of edu ration is not productive of good. We have no time for instruction. What do you ad-vise us to do?"

I advised them to either burn or table these

natters, and now ask of the secretary of each assembly to do the same. If your Journal were not beyouted by our members it could be made the medium of communication between the general officers and the order, but the Journal is not read in one quarter of the assemblies. Some assemblies sent out documents in envelopes, and addressed to "Secretary of Assembly, No...." in to "Secretary of Assembly, No.;" in many places the secretaries have been dis-charged because of this practice. No mem-ber has the right to address another in that way, and it it is ever practiced again the of

NOT TO BE INTERFERED WITH. In future the general executive board must not be interfered with in the performance of its duties. If you have confidence in them sustain them and obey them, if not, ask for their resignation. While the board was endeavoring to settle the Southwest trouble, assemblies in some places, with the best of intentions no doubt, were passing and publishing resolutions condemning Jay Gould. These things did no good; on the con-trary they were injurious. In the settlement of troubles it becomes the duty of the executive board to meet everybody and go everywhere. While they are doing this they must not be hampered by the actions of those who do not know what their task is. Keep quiet; let your officers do their best, and if you cannot find a way to aid them, do not re-tard their progress. Resolutions do not pre-vent laud stealing, stock watering or gamb-ling in the necessaries of life. If I had my mind made up to rob a bank at midnight a string of resolutions as long as the moral law protesting against my contemplated ac-tion would not influence me a particle, but it some interested party would take the trou-ble to study up the question and would in-form himself as to my right to rob the ban-and would stand guard at the doors of the vault, I would not rob it if he did his duty.

WHAT IS NEEDED. What we want from every member is gush or windy resolutions about our rights, We know we have rights without passing resolutions. Men who think, study and act are required. The general assembly will meet in special session on the 28th of May, in the city of Cleveland. From the receipt of this letter you must not address any commu-nication to me, nor need you expect an answer if you do. I have thousands of letters piled up around me now, and they never can piled up around me now, and they never can be read, much less answered, by one man. During and since my illness, the mail delivered at my house has exceeded four hundred letters a day. They come from everybody and everywhere. I must play the part of wheel-horse instead of leader of a great movement, and our own members are responsible for it. I asked through the Journal that no one send letters to me. I am told by some to get help. If I had fifty assistants it would do no good, for it takes my whole time to read one-half of the letters, and in the middle of my work I am waited on by some committee, who generally misrepresent me after they leave, for every member of the committee will tell a different story. From now until the general assembly meets I will receive no committees, answer no letters. I must formulate a plan for the future and will not be interfered with. Let me repeat, I will receive no committee, answer repeat, I will receive no committee, answer no letter, nor will I go anywhere at the re-quest of members of assemblies. This is im-perative. I must have a chance to do someperative. I must have a chance to do some-thing of benefit for the order, and I cannot do it if I am to set eighteen hours a day reading -letters which have been answered and re-answered in the Journal and constitution. What I will say to the general as-sembly will be said to the entire or-der, and you must give time to pre-pare it. We have had some trouble from drinking members, and from men who talk about buying guns and dynamite. If the men who possess money enough to buy

purchase of some well selected work on labor, they would put the mony to good use. They will never need a gun or dynamite in this country. It is my opinion that the man who will not study the politics of our nation and the wants of our people would need but little use of a rifle. The man who cannot vote intelligently and who will not watch the man be votes for after he is elected cannot be depended upon to use either gun or dynamite. If the head, the brain of man, cannot work out the problem now confronting us, his need alone will never solve it. If I kill my enemy I silence him, it is true, but I do not convince him. I would make a convert rather than a corpse of my enemy. corpse of my enemy.

CAPITALISTS' NOT LABOR'S ENEMIES. Men who own capital are not our enemies. If that theory held good the workmen of to-day would be the enemy of his fellow-toiler on the morrow, for after all it is how to acquire capital and how to use it properly that we are endeavoring to learn. No, the that we are endeavoring to learn. No, the man of capital is not necessarily the enemy of the laborer; on the contrary they must be brought closer together. I am well aware that some extremists will say I am advocating a weak plan, and will say that bloodshed and destruction of property alone will solve the problem. To our drinking members I extend the hand of kindness. I hate the uses to which rum has been put, but it is my duty to reach down and lift up the man who has fallen a victim to the use of liquors. If there is such a man within the sound of If there is such a man within the sound of the secretary's voice when this is read, I ask him to stand erect on the floor of his assembly, raise his hand to heaven and repeat with me these words: "I am a Knight of Labor; I believe that every man should be free from the curse of slavery, whether the slavery appears in the shape of monopoly, usury or intemperance. The firmest link is the characteristics. in the chain of oppression is the one I forge when I drown manhood and reason in drink. No man can rob me of the brain my God has given me, unless I am a party to the theft. If one moment's forgetfulness of inattention to duty while drunk brings defeat to the least of labor's plans, a lifetime of attention to duty alone can repair the loss. promise never again to put myself in such

position."
We have through some unfortunate misun derstanding incurred the enmity of several trades unions. While I can find no excuse trades unions. While I can find no excuse for the unmanly attack upon us by some of these people at a time when we stood face to face with a most perplexing question, neither can I see any good reason why there should be any cause for a quarrel. We must have no clashing between the men of labor's army. If I am the cause of the trouble I stand ready at a possession of the trouble I stand ready at a possession of the stand ready at a possession. stand ready at a moment's notice to make way for any one of my rivals whom the general assembly may select.

A BINGING CONCLUSION. Break the power of Knights of Labor, and you hand labor, bound hand and foot, over to its enemies. Years ago I extended an in-vitation to men of all trades to become a part and parcel of the Knights of Labor. To-day I stand ready to make every honorable concession, to do everything in my power to bring about a better feeling between trades unions and the Knights of Labor. At the special session of the general assembly the trouble can and must be settled. If mis-takes have been made, they must be rectified, If wrongs have been inflicted, they must be But there is one thing that will not e done while I stand at the head of this or ganization—it will not be used to further the schemes of individuals, cliques or parties, and it will be subordinate to no other organization on earth.

fully Away. A horse died in this city on Saturday that s deserving of a more than passing notice. He was known as "Limber Jim," and was owned by William Rosenfeld, the hackman. It is believed that "Jim" was about 29 years of age. He was an old-timer in the back bus-iness, and knew a great deal more about it than many of the drivers of the present day. Rosenfeld owned the horse about seven day. Rosenfeld owned the horse about seven years, having purchased him from John Steiger, who had owned him several years. He is said to have been in the hack business about sixteen years and was first put upon the streets by Zecher & Bro. "Jim" was never very fat, but he was wiry and full of life. He could pull a coupe over town as well as a colt up to within a short time of his death. He was well acquainted with his death. He was well acquainted with every street in the city. He will be missed by many old friends. Lamparter disposed of the remains.

Members Have Already Died-A Career With Many Vicissitudes...The Anarchists and Socialists Now Tamed Down.

Catcago, May 10. - There continues to be a great deal of feeling, more or less suppressed, over the riotous and murderous events of the past ten days in this city. The coming of Monday morning in such periods here is always awaited with particular interest because Sunday is the great gathering day blies. It transpires this morning that the Central Labor Union held a secret session yesterday upon the advisability of continuing the publication of the Arbeiter Zeitione. Lengthy speeches were made upon the recent outrages, and the police were heartily abused, while a guard saw that none of them came within hearing. It was decided that the paper should change its name. It will here after be known as the Volks Zeitung, and will be modeled after the Volks Zeitung, of New York. Special committees were appointed to visit the unions belonging to the Central Labor Union, to raise money to equip new printing house and job office for the Volks Zeitung. The executive counsel also resolved to publish the paper under its direct supervision as the organ of trades unions. Until such time as the new office shall be fully equipped, the Zeitung will not be issued. The union decided that the great eight hour issue had been in no wise injured by the bomb throwing and that the only persons hurt were its natural enemies, the police. Members of the union figure that they have adherents enough to support the paper and it is promised that the Spies gang shall have nothing to do with the new paper.

Frank Lieus, a shoemaker, died at II a, m. yesterday, from a gun-shot wound received during the battle last Tuesday night. He was known to the police as a hard character, having served a term in the penitentiary severa years ago.

The other wounded policemen are expected to recover. The county hospital was thronged yesterday with their friends. Mayor and ers, Harrison were among the visitors. The mayor shook hands and talked with them and Mrs. Harrison gave them flowers. The contributions to the policemen's fund amount to \$25,000. The Policeman's Benevolent association will pay \$2,000 to each family of the dead officers. The money yet to be turned over to the department will swell the fund to \$60,000. Congressman Lawler has forwarded from Washington his cheque for \$100 for the relief of the families of the wounded policemen.

A Victim's Funeral.

The funeral of Officer John J. Barrett, one of the policemen wounded by the bomb thrown Tuesday night, took place yesterday morning. The casket was covered with flowers. The deceased was a member of the Moulders' union, and over 200 from that organization were present. The work which still keeps the policemen at their posts prevented the attendance of many fellow officers. The remains of the dead officer were escorted to the Northwestern depot by 200 moulders. The body was interred at Calvary. As the procession marched past the Desplaines street station all the officers were drawn up in line in front of the building and presented arms. Mayor Harrison Criticised.

There is now, as there always has been, good deal of criticism of Mayor Harrison, who is charged by some of the conservative elements of the city with too much sympathy for the lawless and disorderly elements of Chicago's population. At the same time it is recognized that he has acted through these troubles with discretion and firmness; and it is believed that a wholesome effect will result from the conflict of his police with the Anarchist rioters. His officers were largely chosen from foreign-born citizens and mechanics and workingmen. The shooting down of some of these has produced a power tul revulsion of feeling among their friends and associates and against the rioters. This induces a salutary feeling among the workingmen of the city, and they will stand for aw and order in the present condition of af fairs.

Mayor Harrison is 51 years old; a native o Kentucky, graduate of Yale and a lawyer by profession. He became a real estate agent in hicago thirty years ago; was county commissioner, 1871-74; congressman, 1873-77. He has been three times chosen mayor against the fiercest opposition, and if he gets through the present crisis will no doubt be stronger than ever.

Adjusting Hours and Wages. CHICAGO, May 10. - At most of the railroad offices to-day the late striking laborers were anxious to get back. The Northwestern refused to re-employ them; the Wisconsin division also refused; the Baltimore & Ohio took them back at nine hours' pay for eight hours' work : the Chicago, Burlington & Quincy will not re-employ them ; the Fort Wayne road refuses the terms of the freight handlers.

Among the other business concerns, Crane Bros., pipe mill, 400 employes out of 1,200 went to ten hours work for ten hours pay ; s00 men started in at the Malleable iron works at eight hours work for nine hours pay; the Adams, West Lake and Union Brass companies have not yet resumed. In the lumber district much interest pre-

vailed, but no mill started up early except that of P. Wohler & Co. Here eighty men went to work at eight hours with nine hours pay. Later in the morning all the sash, door and blind factories in the district started up. About 1,500 men went to work. They will get nine hours pay for eight hours work.

600 Tailors' Employes Go Out. PHILADELPHIA, May 10. — About 600 garment cutters and trimmers employed in the various wholesale clothing establishments in this city struck to-day for a reduction of working hours from 10 to 8 a day

MORE APPLICATIONS FOR LICENSE.

The Dispute Between the County Officers and Commissioners to be Heard Early. Court re-assembled on Saturday afternoon, and the consideration of applications for licenses was resumed. Charles P. Ochs applied for license for a restaurant at the corn of Strawberry, South Queen and Middle streets. As its necessity was argued at length at the January sessions, the court did

not hear any argument.

E. B. Showers, of Reamstown, petitioned for a restaurant license. His counsel had the hearing continued to take testimony to show the necessity of the proposed restaurant.

Mathias S. Helfrich, of Ironville, who has kept a restaurant for a number of years, de-sired his license renewed, but there was a re-monstrance filed on the ground that the place was not kept in an orderly manner. Counsel for Helfrich stated that the remon Counsel for Helfrich stated that the remonstrance was filed because Helfrich pursued to a conviction his wife and Dr. Stoner for adultery. Before the trial he was threatened with a loss of his license it he pushed the

case against his wife.
C. S. Blessing, of Florin, Mt. Joy town-ship, desired a restaurant license. It was a licensed house until a lew years ago. A large number of the villagers in their petition say the house is a necessity.

John Weaver, of Paradise township, asked

for a restaurant license, and a large number of residents of the township signed a remon-strance against the granting of the same. John Horting, who for some years kept a liquor store on North Queen street, above the railroad, moved to a larger store room on the same street, between Orange and Chest-nut streets, some time ago. The court grant-ed him a license for his new place of business. The application of John A. hotel license was refused. His restauran license was granted.

Argument on several applications was continued until Tuesday, on account of the ab-

sence of counsel. Court heard argument on the rule to show cause why a mandamus should not issue against the election officers of Upper Lea-

cock, to compel them to issue a certificate of election to A. K. Zellers, who claims that he was elected tax collector in February. It has been agreed between counsel for the unty officers and the county commissioners to have an early hearing on the disputed question as to whether the county officers are entitled to the surplus to their credits on the late the salary act was declared unconstitutional. The case will be heard by one of the udges, without a jury, on a day to be fixed

FIRE IN STRASHURG. Cigar Factory With Its Contents Completely

Burned Sunday Night. On Sunday night a cigar factory which was ituated on West Main street, in the borough of Strasburg, and operated by Daniel Zittle, was destroyed by fire. The building was a wo-and-a-half-story brick and in size 28x36 feet. It was owned by Dr. Joseph Brack-The fire was discovered between 11 and 12 o'clock, in the second story, and it burned very rapidly. Al-though efforts were made to extinguish the flames it was without success and the building was burned to the walls in a short building was burned to the walls in a short time. About 120,000 cigars, belonging to Zittle, were burned, together with 3,700 pounds of leaf tobacco in cases, the cigar-makers' tools, &c. Zittle has an insurance of \$4,000 on the contents in the Northern Mutual company, but that amount will not cover the loss. The building is insured in the same company for \$750.

the same company for \$750. to Zittle. Formerly thirty hands were em-ployed, but of late not more than six or eight have been at work. Zittle had intended to give up the factory shortly and move to Atlantie City to go into the cigar busines there. How the fire started is a mystery to Strasburg people. No fire had been used in the building, and it is likely that an incen-

diary was at work.

Visiting His Old Friends. Mr. Nathan Worley, of Marshallton, Iowe who left Manheim, this county, thirteen years ago for the Wost, has been on a brief visit here since Saturday, the first for ten years; he left for home at 2 p. m. to-day. Mr. W., who is now 68 years old, is in Mr. W., who is now 68 years old, is in vigorous health and has been a pros-perous man, much respected in his Western home, as he was here, for probity and other business qualities. He now carries on large farming operations, his son John conducting the hardware business, and Nathan jr. being in the railroad office. Mr. W. has been for over forty years a subscriber to the INTELLIGENCER, and hi political principles are as sound in Republi-can lows as they were in Lancaster county.

THE HOME RULE SCHEME.

Decreased Interest in Gladstone's Second Read ing of the Bill To-night, LONDON, May 10.—Although there is in ense interest in Mr. Gladstone's speech in the House of Commons to-night, when he will move the second reading of his home rule bill, the rush for seats does not compare with that of the 8th of April, when he intro duced the measure. But forty seats had been

"hatted" at 10:30 o'clock this foregoon. The Post says it believes that Mr. Gladstone has proposed to modify his home rule bill so as to retain 45 Irish representatives at Westminster, but that Mr. Chamberlain has obdurately refused the concession.

The Standard says it thinks that Mr.

dadstone, during the debate on the second reading of the home rule bill, will announce a decision on the part of the government to leave the question of the retention of Irish members of the imperial Parliament open to the opinion of the House of ommons for settlement. It is rumored in London that three cabinet ministers, whose names are not mentioned, will resist every proposed modification of the home rule bill as originally introduced. It is stated that these ministers gave only a conditional assent to even the consideration of the proposed amendments.

The News has no mention in to-day's iss of any proposed modifications of Mr. Gladstone's Irish measures, and this silence is construed as an official intimation that no modifications are contemplated even for consideration.

THE MAY CROP REPORT.

NIMPROVEMENT OF SEVERAL POINTS

DURING THE PAST MONTH. The Season Pavorable and Wheat Better Ad-

vanced Than Usual-Cotton Planting Delayed by Cold Rain-Spring Plowing Retarded the Preparations for Corn. WASHINGTON, D. C., May 10.-The May

WASHINGTON, D. C., May 10.—The May crop report of the department of agriculture issued to-day, indicates an improvement during April of two points, with a general average condition at 65. There is no marked change anywhere, but a slight advance is noted in the Ohio Valley, Missouri, Texas, Tennessee, the Carolinas, Virginia, and Maryland. The May average last year was 70. The season has been favorable, and the wheat crop in more advanced than usual. The averages in principal states are: New The averages in principal states are: New York, 96; Pennsylvania, 95; Ohio, 97;

Michigan, 91; Indiana, 97; Illinois, 92; Missouri, 101; Kansas, 67. The condition of rye averages 96; of barley

Cotton planting has been delayed by cold rains on the Atlantic coast and by overflows on the Gulf coast. The proportion to be planted in May averages 20 per cent. In average years the proportion does not exceed 14 or 15 per cent. The stand is necessarily defective on wet areas, but replanting is rapidly filling the gaps. The propo-already planted are as follows: Carolina 73; South Carolina 82; Georgia 83; Florida 94, Alabama 80, Mississippi 76, Lousiana 77, Texas 84, Arkansas 75, Tennessee 77. While the season has been more advanced than usual, north of the 37th parallel, the heavy snows of early April on the st and the excess of rain prior to April 15 have retarded spring plowing. It is somewhat more advanced than usual in the states between Maine and North Carolina and Minnesota, and also in the South, the

central West, the Missouri valley and on the Pacific coast it is below an average. In the corn growing states the preparation for seeding is later than in regions where small grains predominate. It is stated that 72 per cent. is done in average years 75 per cent. is the proportion.

BLAND'S NEW SCHEME.

Bill Introduced to Do Away With Gold and

Silver Certificates. WASHINGTON, May 10. In the House to-day Mr. Bland, of Mo., introduced a bill providing that any holder of standard gold or silver coin may deposit the same with the treasurer, or any government depository, in sums not less than ten dollars, notes" of the United States, Section 2 makes it unlawful to issue gold or silver certificates and provides that all such certificates heretofore issued, shall be cancelled and destroyed, and the coin notes issued in lieu thereof. Section three directs the secretary of the treasury to maintain a reserve of not more than \$100,000,000 gold and silver coin for the redemption of legal tender notes and an additional reserve equal in amount to the outstanding coin notes issued. All other surplus revenue not required for the payment of the current expenditures of the government, shall be paid out monthly in the redemption of the interest bearing debt of the United States that may be subject to call, provided that, in the discretion of the secre tary of the treasury, not more than \$15,000,-

000 shall be paid in any one month. A bill was introduced by Mr. Beach, of New York, amending the rules so as to sub-

the House to a fine of one hundred dollars.

WASHINGTON, D. C., May 10 .- The supreme court of the United States to-day affirmed the decision of the lower court in the California railroad tax cases, which was in favor of the railroads. The suit was against the Southern & Central Pacific railroad companies, and the case comes under provision of the 14th amendment to the constitution. The railroad companies claimed that their property had been discriminated against in making appraisements for tax purposes and refused to pay the taves levied.

NEW YORK, May 10 .- The announcement of the death of Mr. C. F. Woerishoffer, a promment bear operators had no decided either one way or the other on values at the opening of the stock exchange this morning. During the first half hour prices were ir-regular, some of the list declining frac-

tionally, but in the majority of cases prices Mr. Woerishofler was stopping at the house of his father-in-law Mr. Oswald Ottendorfer, at Manhattanville, in the northern part of the city. No particulars have been ascertained as to the cause of his death.

BIG SPRINGS, Texas, May 10.—Several days ago Juan Salles, a Mexican herder, brutally murdered a comrade named Mock, from

Youngstown, Ohio. Salles fled towards the Northwest and was followed several hours later by Mock's cowboy friends. Near Yellow House canyon, as the murderer Salles rode by the camp of J. R. Jones & Co., he opened fire without warning, wounding two men. Upon reaching the canyon, the now and sought refuge. His pursuers barricaded the store and Salles, seeing his escape impos-sible, set fire to the building and perished in the flames.

Shot Himself and Sweetheart in a Boat. HAMILTON, O., May 10,-Saturday evening Geo. H. Weigel, a young mechanic, and An-nie Blakely to whom he was engaged to be married, took a boat and went out for a row in the reservoir. Yesterday they were found floating around the lake in the boat and both dead. Miss Blakely had been shot through the head and through the breast. Weigel had been shot through the head. It was evident from a letter found in Weigel's pocket that he had done the shooting. Unrequited love is supposed to have been the cause of the deed.
