# THE LANCASTER DAILY INTELLIGENCER, SATURDAY, MAY 15, 1886.

# THE SUSQUEHANNA RISING.

# BECT WEIGH OAUSES HOST EXTREME DESCTOT TO FISHERMEN.

### Work in Hauling From the Water Many one of the River seriously Impeded. Roman Hurt and an Iron Worker Berlously Barned-Town Notes.

Regular Correspondence of INTELLIGENCES. COLUMNIA, May IS.—The Susquehanna river at Columbia is again on the rise and from indications at the present everything locks as if we would have a very high river. The water has been rising slowly for the past faw days, but last night it commenced to come as very rapidly and is still on the increase. The fishermon on the batteries below the feel very much discouraged over the compocts, as the high water is a sure indica-ion of a committion of their work. The fishis now so very poor that it hardly pays or the time and labor expended. At some of the batteries the fishermen are getting andy to vacate, and if the water becomes much higher, all the batteries will be com-willed to stop their work. Brakeman Hurt While Coupling Cars.

Charles Thomas, a brakeman on the shiftng engine C. S. Maltiby, of the Reading & olumbia railroad, met with a paintul acci-ent while at work on his train. He was en-wed in coupling cars at the weigh scales in a Columbia yards and carelessiy leit his fit hand hang over the dead woods. The cars coming together resulted in the mashing of his thumb in a severe manner. The inquiry received the attention of Dr. Linea-waver, who amputated the thumb at the first init

#### Received Painful Burns.

Edward Webster, an employe of the Columbia rolling mill, met with a very painful burning accident while at work at the While rolls at an early hour this morning. While rolling a bar of iron, he was struck above the breast with a flash from the hot iron and received several burns about his neck and breast. While working at the rolls the men have these parts of the bodies exposed, and in this manner often meet with painful accidents.

# The Coaching Party.

The coaching party of Colonel B. K. Jamison, of Philadelphia, in the coach "Rambler," arrived in Columbia last evenand B. Frank Breneman, of Lancaster. The party remained at the Franklin house last night and left about 8 o'clock this morning for the farms of Col. James Young, of Mid-dictown. Messrs, A. J. Kauffman and Wm. B. Given accountant the nearty from the B. Given accompanied the party from town.

#### Death and Funeral.

Keys, living on South Second street, died at his home at an early hour this morning, in the 56th year of his age, after an iliness of two months of consumption. A wife and eight children are left to mourn their loss. The funeral will be held on Monday morning at 9 o'clock, and services to be held in St. Peter's Catholic church.

The funeral of the late Adam Smith took place this morning. Services were held in St. Joseph's Catholic church. An organization of this church, of which the deceased wa a member, attended the funeral. Town Notes,

## This evening a public sale of stock of the

Keeley Stove company will take place at the Franklin house, 147 shares will be offered for sale.

The pay car of the Pennsylvania railroad

The pay car of the Fennsylvania railroad arrived in town yesterday afterooon and the employees of this company received their wages for April. Bartholomew Kington, a tramp, was ar-rested last night by Officer Hardnele for being drunk and disorderly. Squire Frank sent him to jail for five days this morning. Vesterday afternoon William Leonard

Yesterday afternoon William Leonard was walking along the railroad from Mount-ville to Columbia, and found a watch charm composed of Odd Fellows' and Red Men's management the margin William Red Men's ms. The name of William A. Glosse was on the charm, and the finder coming to Columbia, returned the charm to its owner. Mr. Glosser had lost his charm while riding

on an engine. The churches of Columbia will hold their

The churches of Columbia will hold their usual services on Sunday. Mr. Bobert Chalfant and wife, and Mrs. Raber, of Philadelphia, are making a short visit to the former nome of Mrs. Chalfant. The rain of this were has greatly interfered with building operations. At Haldeman's new store, on Locust street, the foundation walls are baing out up as explicitly as possible.

Against Cremation, Rev. E. Meister, pastor of St. Stephen's Lutheran church, will deliver several lectures in Cincinnati, Chicago and St. Louis during the next two weeks against cremation as a method for disposing of the dead.

Love Feast. The Dunkards held a love feast at Ephrata yesterday and it was continued to-day. The attendance was very large on Friday after noon.

THE GREAT REPUBLICAN BACES! Who will will the stakes ? Illustrated. Look out for nex Monday's INTELLOENCES,

# Why We Smile

From the Philadelphia Record. sweet singers, and a few more will build or bay an opera house for his performances. He charges nothing for his singing, and is not fastidious as This goost, at least, can be deduced from the weather : to his accomodations, carrolling tust as swooth

A cold, wet May Makes a barn full of hay.

boundor of the fashiomable lady. He becomes a friend to the lonely and a countertor to such as are in trouble. From his cage, as well as from the wildwood, he sings of the love and cate of THE GREAT REPUBLICAN RACES ! Who will win the stakes? Hildstrated, Look out for next Monday's ISTELLORSCER.

### What Baking Powder Shall We Use ?

Him without whose knowledge not one of the feathered trille can fall to the ground. Like flowers, birds are a beautiful gift to a friend with this advantage-they live longer, and, by This plain question comes home to every housekeeper. We all desire pure and whole-some food, and this cannot be had with the their constant voice, recall to mind the giver use of impure or poisonous baking powder. There can be no longer a question that all the cheaper, lower grade of baking powders contain either alum, lime or phos-Thus writes Holden in his book on birds, an these thoughts were suggested by a recent visi Mr. John Schaeffer's " Canary Farm."

Mr. Schaeffer is a hair dressor at No. 475 Wrs King street, and he lives at No. 17 South Princ street, a few doors south of West King. Fire phatic acid. As loth as we may be to admit so much against what may have been some of our household gods, there can be no gainsaying the unanimous testimony of the official chemists. Indeed, analysis seem to years ago he started his " canary farm okingly calls it, with just one pair of cam and to-day he has over one hundred of th lightful birds, all descendants of that jone find no baking powder entirely free from some one of these objectionable ingredients except the Royal, and that they report as chemically pure. We find some of the bak-ing powders advertised as pure, to contain, under the tests of Profs. Chandler, Habirshaw inal mair. More prettily marked birds or h singers we have never heard. They belon the Hartz Mountain (German) stock, one of teen varieties of canaries and the only varand others, nearly twelve per cent. of lime, while others are made from alum with no cream of tartar. This, we presume accounts for their lack of leavening power as somethat Mr. Schaeffer handles, and, as ever knows who knows anything at all about matter, the German birds are the best i world. The causry was transported from in their lack and for the cook, and for the bitter taste found in the biscuits so frequently complained of by oursetves. But aside from the inferiority of the work to France and Germany, and from the place the whole habitable globe is supplied.

German variety is the only kind Mr scharffe will have anything to do with and his patron never fail to secure a "singing " bird. The original birds have been crossed, of course But aside from the inferiority of the work done by these powders, the physiologists as-sure us that line and altum taken into the system in such quantities as this are inju-rious. They are not decomposed by heat nor dissolved in mixing or baking. They go with the bread, therefore, into the stom-ach, where their physiological effects are in-digestion, dyspensia, or worse evits. nd near blond information by minimal important from New York-the importations being of t same fine German kind, but the more than c hundred on hand, and the numbers that ha been sold, may be said to have sprung from t

digestion, dyspepsia, or worse evils, me little beginning-one pair of hirds The question naturally arises, why do these The question naturally arises, why do these cheap baking powder makers use these things 7 Alum is three cents a pound, lime still cheaper, while cream of tartar costs thirty-five or forty. The reasons for the chemical purity of the Royal Baking Powder were recently given in the New York Times in an interesting description of a new method for refining area or crutic accent for the tartar Two Rooms Filled With Them, At the residence of this most successful et all of Lancaster's bird functors, one large back room on the second story is entirely devoted to chanaties, and birds of all ages hous there be found. As an illustration of their industry we may mention that in one cage containing five birdings that were too young to leave their nest, the mother bird has already gone into the or refining argols, or crude cream for tartar usiness of preparing for another brood by lay

It seems that it is only under this process that cream of tartar can be freed from the lime natural to it and rendered chemically business of preparing the case contained from birdlings in a next, and still abother contained  $\sin x$ —the latter less than two weeks old, and with yeevy few feathers as yet: In the front of Mr. Schaeffer's dwelling: also pure : that the patents and plant for this cos the Royal Baking Powder company about haf a million dollars, and that they maintain exclusive control of the rights. Prof. McMurtrie, late chief chemist of the

Department of Agriculture at Washington, D. C., in the interests of commerce, made an examination of this process, and reported upon the results attained in the refined cream of tartar. The following extract from his report would seem to answer the question reseated at the head of this article, and which so frequently propounded by the house

keeper: "I have examined the cream of tartar used by the Royal Baking Powder company in the manufacture of their baking powder, and find it to be perfectly pure, and free from line in any form. The chemical tests to which I have submitted the Royal Eaking Powder prove it perfectly healthfol, and free from every deleterious substance."

#### False Alarm of Fire.

The alarm of fire to-day at noon was caused by the building of a fire in the furnace of Snyder Brothers store, No. 14 West King street. Some straw and paper had been used as kindling and the result was a great vol-ume of black smoke from the chimney, which outsiders thought was coming through the roof. A great erowd gathered in front of the store, the fireman were soon on hand, but their services were not needed.

#### To be Tried on Monday.

Henry Bauman, of Gordonville, arrested some time ago for obtaining a pension by falsely swearing to an affidavit that he was wounded while in the army, will be tried in the United States court at Philadelphia on Monday. Deputy United States Marshal Hollinger subponned the witnesses yesterand pressure cannot be increased by heat it steam is not generated faster than required, and if the gases of conduction are allowed to pass out into the chimney at a high tem-perature to superheat steam, there must be more waste of fuel than where the gases are cooled to a low temperature by the boiler. Such claims are at variance with both fast and science. From the fast that steam com-ing in contact with surfaces at a higher tem-perature, varying in degree with the inten-sity of the fire to the effects of which they are subjected, the superheating is also variable and makes possible the frequent fires attributed to steam pipos, so stoutly de-

Two Men Hurt. This afternoon about three o'clock the caffolding at Groezinger's new tannery on Water street, gave way and two labor-ors, Conrad Roemer and Adam Harris fell a distance of thirty feet. Harris was badly hurt about the head. Roemer es-caped with a few slight bruises. Dr. McCor-mick attended them.

# Will Begin on Monday.

The finance committee on Decoration Day will begin collecting money on Monday next will begin concerning money on alobolay news for which to defray expenses of the day in decorning the graves of our soldiers. The committee is composed of J. K. Barr, D. M. Moore and Theo. Wenditz.

### Big Hole in the Street.

subject than the writers. This, like many other improvements, had its ploneers, who, by their idents, patient investigation and experiment, acquired a knowledge of the principles involved and the proportions required for successfully beating our homes, factories, public build-ines etc. ings, etc. We find that James Watt, after making

from high pressure engines, and live steam where condensing engines were used. The Conestoga cotton mill No. 1, was built in 1845, operated in 1847, was heated with steam

creasing pressure, consequently requires one-third less boiler, coal and radiator. As all upright boilers with takes extend-ing through steam space are super heaters and pressure cannot be increased by heat if there is not

fires attributed to steam pipes, so stouting de nied by those unacquainted with super

heated steam. The temperature of radiating surfaces and

immunity from fire is determined by pres-sure with saturated steam; thus at one pound pressure the temperature is 216.33 degrees, at fifteen pounds pressure 250.26 do-

degrees, at fifteen pounds pressure 250.26 de-grees, at seventy pounds file 08 degrees. The temperature is determined by the pressure and not otherwise. With super-heated steam the case is different. Then the variable intensity of combustion in the fur-nace of the boiler, which caunot be main-tained at will, determines the additional temperature of superheated stram regardless of pressure. Herein lies the great danger of first from steam pipes. [See " Lardner on the Steam Engine," The dition Superheated Steam, E. STAMM. LANCASTER, Pa., May 15.

THE Grand Fair and Entertainment of R. C. Knights of St. John opens this evening at the West King Street Skating Eink.

The GREAT REPUBLICAN EXCES! Who will win the stakes? Dimension. Look out for next the steam engine a success, constructed the Monday's INTELLIGENCES. first low pressure gravity return radiator in the winter of 1784 and 1785, (a hundred years

Amusements ago.) We find, recorded, that Mr. Lee, at Manchester, under the direction of Messra, Boulton & Watt, created in 1720 vertical cast from radiators, which supported the floors The Showers Franc-The Lancaster Schneizen Verein will open their grounds at Tell's Hair on Monday, with a family picnic. In the fore hoon there will be should by the members of the club, and a fine time is expected. Taylor. above: this proving a success, Mr. Lee then heated his house with direct and indirect radiators, which also proved a success. Then we learn of a number of investigators inquirrehestra will furtish the dancing must Si Perkins Contrag-On Wednesday evening d nextweek, Frank Jones and Alloe Montagen ing into the properties of stream, saturated and superheated, the powers of various materials to transmit and radiate heat; such as potents, stone, glass, wood, water, air, e.g., So that heating with steam was no longer an experiof next week, Frank Jones and Alice Montagine will appear here in E. A. Los ke's great success, entitled "Si Perkins, or The Girl I. Left likehind Me." The Woostei (1010) Press says "The play and company are far above the ordin-ary and Frank Jones as "Si Ferkins" is excel-lent. Miss Montague played the part of "Zana" to parkethen. The entire company is excellent and is one of the best Wooster has had this many." ment, the controlling laws being well under-stood and published by these early en-gineers, and many manufactories were she-fully heated with the exhaust steam

over the Philadelphia & Reading road to Fair mount Park and the Zoological Garden, Phil adelphia, for May 25. Concert for St. Anthony's Church.-The Ziller -thirty-nine verse ago, then common in -thirty-nine verse ago, then common in Eastern mills—by means of cast iron pipes, being the best and cheapest means then at command, which for obvious reasons were not well adapted to heating dwellings. While steam engineers were well aware of the advantages of heating dwellings with steam. Its prometies, the laws enverting thaler Tyrolean Quartette will give a grand con-cert to the benefit of St. Anthony's church, at Mænnerchor hall, on Thursday evening, asdsted by the Lancaster Mannerchor. This traune of Tyrolean Warblers have appeared in the leading cities of the country, and the press have probed them very highly. They appear in their original and picturesque costames, and there is no question about their genuinness. Their songs and musical soles have a mountain freshness about them that can only be obtained among the Alps. One of the members sings Joe Emmet's "Curkoo" song far superior than that celebrated actor ever rendered it. R. C. Knights of St. John Fair opens this

practicable. Then followed an era of suc-successful steam heating by competent en-gineers, also most lamentable halteres by those who only knew how to cut, thread and screw pipes together and victimize their customers with many knocks and rackets in the pipes, big bills for alterations and repairs, excess of heat in one room, no heat in an-other, until it was believed by many that these were the unavoidable results of steam heating as the mean in our motion labor steam. DEATHS KAUPPMAN.-May 13, 1886, Benj. H. Kauffman, in the 77th year of his age. The relatives and friends of the family, and the Senior Order American Mochanics, are re-spectfully invited to attend the function, from his late residence, No. 269 North Queen street m Sunday morning at 10 o'clock. Interm on Sunday morning at 10 o'clock. Interment at Lancaster cennettery. mit-ride Enows.-In this city, on the ittlinet, Augusta wite of Thomas W. Brown. The relatives and friends of the family are re-spectfully invited to attend the funeral from heating, as the men who put up these jobs were practical men and knew all about "cube-contents" best radiators, etc., etc. We also have the house heating low-preswe also have the house heating low-pres-sure boiler improvements in great variety, many of which claim to generate more steam per pound of coal than is accomplished by the best stationary or marine boilers in use. Then we have the super-heating sectional boilers, whose inventor claims the discovery that steam can be heated to 200° without in-creasing pressure, consensuly remove her husband's residence, No. 512 West Walnustreet, on Tuesday morning at 10 o'clock. In terment at Woodward Hill cemetery. 21d
