

COLLEGE COMMENCEMENT.

REV. DR. T. G. APPLEBAUM... REVEREND TO THE CLASS OF '86.

It seldom happens that the church festivals following the Easter tide occur so late in the year that Whitsuntide falls within the commencement week of the college.

LANCASTER'S U. S. BUILDING.

A GOOD CHANCE FOR THE PASSAGE OF THE BILL IN THE HOUSE.

Congressman Hiestand successful in having a favorable report made on the bill already passed the Senate.

The following telegram from the member of Congress from this district, Hon. John A. Hiestand, received at noon to-day, indicates that there is a reasonable ground for hope that an appropriation will be secured for the erection of government buildings in this city:

WASHINGTON, D. C., June 14, 1886.—Mr. Brown, of Pennsylvania, from the committee of public buildings and grounds, has been directed to report the Senate bill authorizing the erection of a public building at Lancaster, Pa.

As a rule the consideration of these grants in different sections of the country is left to the various sub-committees of the whole body and the proposition for Pennsylvania buildings were largely in the hands of Hon. W. W. Brown, of the Williamsport district.

How the Legislators in Washington are Piling in Their Time... How the Legislators in Washington are Piling in Their Time...

Mr. Maxey thought all government grants of railroad lands were earned with the money provided by the granting act should be forfeited.

Mr. Dolph said the bill before the Senate proposed to forfeit about two million acres of land, adjacent to the portion of the line that has not been built.

Mr. Coburn, of Indiana, called up the report of the committee on public lands recommending concurrence in the Senate amendment to the Atlantic and Pacific land forfeiture bill.

Mr. McKean, of Arkansas, opposed the amendment, contending that the adoption would convert the bill into a confirmatory act. The report of the committee was agreed to.

A bill introduced in the House to-day by Mr. Heston (N. Y.) fixes the salary of the treasurer of the United States at \$7,500 and the assistant treasurer at New York \$8,000. Morrow (Cal.) introduced a bill to encourage inventors which gives \$10,000 a year to state institutions for the promotion of inventions and inventors.

A resolution was introduced by Mr. Hewitt, of New York, for the appointment of a joint committee of three senators and five representatives, to consider in what manner can best be celebrated the centennial anniversary of the organization of the United States, the first meeting of Congress, and the inauguration of George Washington, as president of the United States, which will occur on the 30th of April, 1888.
