Henry George in the Interest of Miners. Henry George, the political economist, arrived in Pittsburg on Friday, for the purpose of securing data on the condition of the niners, "From information so far received he does not believe the ininers are receiving fair wages, and that their condition is much worse than it was several years ago. He finds that a great majority of this class make only a scanty living, and that fully one half do not have any money coming to them at the end of the month, having been all spent for the necessaries of life. On the whole their wages are lower than any other class. their wages are lower than any other class. Was in the Reading Cigar Troubles. G. B. Breitigam, of Lancaster, was one of the seven men from this county who worked for Glaser & Frame in Reading, in manufacturing cigars, which caused such an uproar in that town a few days ago. He says the newspapers much exaggerated the situation, there being no violence committed, and the mob being composed chiefly of outsiders and not of cigarmakers. The Lancaster countians came not from Fairville, as published, but from Lancaster, Lititz and Akron, and they went to Reading because there they could get from \$5.50 to \$9 per thousand instead of \$3 in Lancaster. Mr. B. says he and his fellow-workmen were well treated in Reading.

Hill on Cleveland. From Gov. D. B. Hill's Boston Speech. We have a president whose honesty and sincerity of purpose to serve the people faithfully are conceded by everyone. He may make mistakes, but what public man does not make them? He is conservative in his official actions and such conservatism is the safety of the republic. Permit me to suggest that our opponents cannot disturb our equanimity by intimating that we are disappointed about the spoils of office. There is no such disappointment. The Democratic party has higher aims and purposes than the mere distribution of party patronage. ety of the republic. Permit me to suggest

To Make Better Bretzels Mr. Thos, H. Keller, of Lititz, hip, made an improvement in the kettles used by bakers for boiling pretzels for which a patent has been granted him through W. R. Gerhart, of this city. These kettles are furnished with two chutes, placed opposite each other at the top of the kettle, down which slides containing the pretzels are conveyed to a receiving frame, arranged to be lowered into the kettle. After the pretzels are sufficiently boiled the frame is raised and the sides removed. By this arrangement a

number of pretzels can be placed in the kettle and removed at the same time, and are prevented from being broken and losing their shape whilst boiling.

An Open Air Concert by the Liberty Pand. Centre Square was crowded with people last night, for over one hour. The attraction was the Liberty band, which gave their first open air concert on the balcony of Levy's cigar store. The entertainment was first-class in every respect, and the large audience showed their appreciation of it by loud ap-plause. The band has shown great improve-ment of late and they deserve to succeed as

they work hard. East King street, near the west end of the city reservoirs, is in a terribly bad condition.
