Fell in the River.

Yesterday afternoon two tramps, giving seir names as Pat Flanagan and James O'Rourke, were walking along the river shore, where they noticed a boat unlocked along shore. The men got into the boat and went out on the river, using a small paddle. The paddle was dropped overboard, and, in the attempt to recover it, the boat was upset, throwing the men in the water. Flanagan was able to swim, but his companion could not, so he assisted him to get to shore. Town Notes

## THE MILLPRSVILLE CAR LINE.

A Successful Enterprise Which Has Added New Rolling Stock. Yesterday afternoon the Lancaster and Millersville Street Railway company received a new summer car for their line from the Dure company, of Wilmington. The car is larger than those in use by the company, being higher and much wider. It will comfortably seat almost fifty people, while a great many more can be crowded in. The car was placed on the street at the Pennsylvania railroad station at 4 o'clock. Upon invitation of Jacob Peters a number of gentlemen were given a ride in the new car to Millersville and return. The party included Mayor Morton, City Treasurer Myers, Councilman W. P. Cummings, Charles Denues and A. M. Frantz, esqs., Samuel Bausman, Dr. Thomas Ellmaker, a representative of the INTELLIGENCER and others. The trip was made to Millersville in safety, but it was found that the new ear, on account of its width, ran much closer to the trees by the ide of the track than the others. The party arrived at Millersville at 5 o'clock, and the new car created as much excitement as a new new car created as much excitement as a new band wagon. An examination of the car stables was made by the Lancastrians and they found everything in the best of order. The company now has five large cars and use fourteen horses. Seven trips are made to this city and return every day, and business is big on the line. The car company also runs a stage from Millersville to Safe Harbor and carries the mail. The stage leaves Mil-lersville every evening at a cycleck and

HER SEARCH FOR A HUSBAND.

Invoking the Aid of a Clairvoyant—Duped and Robbed. Miss Marie Schurt, a comely girl who mi-grated from Northern Germany two or three years ago, related her experiences in a Chicago court of a systematic search for a husband. She was without relatives or friends, but had about \$200 and lived with an elderly woman in a lodging No. 521 Well street. She recently saw the advertisement of a clairvoyant, to whom she has stated her desire to find a husband. The clairvoyant instructed her to visit a cometery after nightfall, sit upon twelve graves and repeat the Lord's Prayer backward, unravel a woolen stocking and burn the yarn in the back yard with a paper on which her desire had been inscribed; kill a black cat and drink a portion of its warm rears ago, related her experiences in a Chica-

on which her observe man used insertions, and a black cat and drink a portion of its warm life blood and repeat some jargon. When this had been carried out Miss Schurt realized that her fee had amounted to \$40 and that the that her fee had amounted to \$40 and that the clarivoyant had borrowed \$50 more. She grew anxious to obtain a glimpse, however faint, of her future husband. Calling at the medium's house, Miss Schurt was led into a darkened chamber and told to fall on her knees and bow her head in prayer. As she rose from her devotions the door of an adjoining chamber opened quickly and in the dim light sat a wan, his head howed meakly dim light sat a man, his head bowed meekly

on his breast and his arms folded.

"There, my dear," said the medium, "is
the husband you have been praying for, sen to you by the mysterious powers that contro our fates and destinies. He is your kismet.' The iman was Philip Leonard, an express man. After becoming slightly sequanted the first act of Philip was to obtain from Miss Schurt 25, so that he might resume the express business. The money was furnished and the twain went to live together as man and wife. They continued to occupy the same apartments for six weeks, but Philip never apartments for six weeks, weeks, and Fathy have procured the deense as he so often promised. Friday Miss Schurt went to Justice Barker for two warrants. One was for the arrest of Leonard and the other for Mrs. Schurt, the clairvoyant. Leonard was arrested and gave bail. Mrs. Scrup has not yet been found.

#### A PROBIBITION LEADER'S VIEWS.

Joshua L. Bally Speaks Slightingly of the fie publican Declaration. Joshua L. Baily is one of the leading spirits in the Prohibition movement in Philadelphia. He thinks the Republican platform has not been strengthened by the insertion of the Prohibition plank.
"It comes too late to accomplish what it was intended to do," said Mr. Bally,
"for at the Republican convention of two years ago the temperance organizations of the state asked for a declarations in favor of the submission of a prohibitory constitutions amendment to a vote of the people, and that request was refused. lature following was largely Republican, and notwithstanding that petitions bearing nearly 500,000 signatures were presented asking for the sub were presented asking for the sub-mission of the proposed amendment they were rejected. Now that Mr. Quay sees the rapid crystalization of the young and vigorous party of Pronitation, like a shrewd leader he tries to head off the advanc-ing hosts by having the convention adopt the plank in question. The Republi-can Legislature of New York, al-though piedged to favor constitutional prohibition, failed to make good its piedge. After the people of Rhode Island, by a three-fifths vote of the electors, adopted a prohibitory amendment the Republican a prohibitory amendment the Republican legislature, being required to provide for the execution of the law, appointed as the shief administrator a man who bad made himself conspicuous in denounce ing the law, thus nullifying the will of the people. Would it be wondered at if Prohi-bitionists should ask themselves the question whether the Republican party of Penn-sylvania promises to be any more reliable than the Republican parties of New York and Rhode Island? We have in Pennsylvania laws to restrict the liquor traffic; but in Philadelphia, which has been in the almost un-interrupted control of the Republican party for a generation, no effort whatever deserv-

Holworthy was formerly in the em-ploy of Mr. McNay, but was discharged some time ago. The latter missed the clipper and investigated the matter. He tound that and investigated the matter. He found that Holworthy had sold them to another man telling him that they were his property. The clipper was not recovered, as the third party sold them to a Harrisburg horseman. Mr. McNay thinks that Holworthy has been

guilty of stealing more than the clippers from him.

Kicked by a Horse,

From the New Holland Clarion Wednesday one of Mettfett's teams was standing in front of Mentzer's gracery, when the horse began to kick and plunge. With the team were a man and boy, who managed to keep the horse from getting away, but in kicking the animal got his hind feet over the cross piece of the sharts and not being able to remove them he fell down. The boy, who had been sitting in the wagon received a ter-rible kick just below the knee and he cried that his leg was broken. Several men car-ried him into John F. Schriver's drug store, and on examination it was found that nothing was broken, but a painful wound had been inflicted. Mr. Schriver then washed and bandaged the leg, and in an hour the boy was able to go again.

A Northside physician states that ice water does not quench thirst but increases it. " I remember a little story," said he, "which I think might do much good if published during this hot weather, that I heard from an old sailor. He said that he and six ship-wrecked companions lived four days outhree pints of water and were not a bit thirsty. When I asked him to explain, he said that instead of gulping the water down, they each took a teaspoonful and gurgled it well in their mouths. If any one will try the experiment, no matter how thirsty he is, by thoroughly rinsing his mouth with not over a tablespoonful of water, he will find it will quench his thirst as effectually as a quart of water hastily swallowed, and will not hurt him any. I believe that fully one third of the deaths during the heated season are, if the truth was knowing, directly or indirectly due to heavy drinking of ice water." think might do much good if published dur-
