The Real Estate Market,

The Metropolitan rink, of Columbia, has hanged owners, Mr. M. E. Shuman having purchased the same at public sale at the Pranklin house last evening, for \$710. The rink originally cost \$5,100, and Mr. Shuman's purchase includes 257 pair of skates, 17 dozen chairs, steam heating apparatus worth \$600.

and three Seaman gas lamps worth \$300; also a three year's lease on the ground. The Novelty iron works, of Wrightsville, with an original capital stock of \$20,000, is for sale. It has been proposed to organize a stock company and remove the works to Costock company and remove the works to Co-lumbia, but whether this will be done re-mains to be seen. The works employ about 60 hands, mostly children, and its failure to pay satisfactory dividends to the stockholders was due to mismanagement or some other

Improvements and Business.

Messrs. Bachman & Forrey are building ten new houses, at a cost of \$2,000 each, on North Third street, near the Keeley stove works. The plan of a row of houses in Lancaster city has been adopted, and when fin-ished they will becomfortable and handsome

ished they will becomfortable and handsome houses. Columbia quarrymen have been requested by the Pennsylvania railroad company to bid on 60,000 cubic yards of ballast. The quarrymen have sent in their bids, but, we are informed, are "away up," and will not receive the contract, which, by the way, is the largest ever offered by the company. The Columbia iron company's rolling mill is giving entire satisfaction to its owners. On Thursday the employers made the first heat of finished iron, and were successful in turning out forty-five bars of finished iron from forty-six plies of puddled iron. This is

from forty-six piles of puddled iron. This is a remarkably good showing. The general agency of the U. B. Mutual Ald society for York county has been given to our former townsman, B. F. Mullen.

Under date of Antietam, July 22, Herman Astrich and Wm. R. Brinton write to the INTELLIGENCER as follows: "We have now arrived at the place for which we started about ten days ago, and have rowed in all over 200 miles. Several of our days were spent in Washington and Hallimore, so we have averaged about 25 to 35 miles a day, which is by no means child's play. Our row up the Potomac has been especially delightful, as the scenery is grand, as well as historic. "The first night after we left Washington, we spent at Potomac Falls, a place about 20 miles from the capital. The river here is the wildest body of water imaginable, seething, boding and roaring at a terrible rate for about 20 of 400 yards. We made an early start, and pulled right steadily, taking our dinner at the exact place where Hooker crossed the Potomae on his road to Gettysburg. A few hour's later we arrived at Ball's Bluff, where the fighting was so fierce that many of the bravest soldiers jumped over the bluff into ing themselves. A bout 10 o'clock that night we arrived at Pointy Roeks, after two hours rowing in utter darkness, making the longest and hardest day's work since whe have been on our trip ; and in what grand high the supper that was prepared for us this is quite a busy little town, but is now more like Sate Harbor than any other town. "After being storm-stayed for a lew hours near any total for a deserted village. "After being storm-stayed for a lew hours here we received our mail, including several most interesting INTELLIGENCERS which

and arrived there about 250 this alternoon. Here we received our mail, including several most interesting INTELLIGENCERS which we promptly devoured, and after taking a look at the quaint old town and seeing the famcus battle-field, 2,000 feet above the level

of the sea, we continued on our journey until we reached this tamous place, "We are now at Burnsides' headquarters "We are now at burnsides headquarters during the fight. This evening an old sol-dier took us over a part of the battle-field and gave us quite a number of relics, including part of a shell that lodged in his father's house, near the famous Burnsides bridge. Tomorrow morning we will go over the rest of the field; the bloody lane, little Dunker church, Mumma's farm, the corn field, etc.

In the afternoon we will take a li-mile row and then start for our good town, reaching home about Saturday. "Altogether the trip in the cances has been most enjoyable one, as we have seen a a most enjoyable one, as we have seen a good many different phases of life since leav-ing Lancaster, and if we all live another year no doubt a dozen of us will go on an-other trip of the same kind." Messrs, Astruch and Brinton arrived sately

at home last night, baving made the return trip by rail. They look well after their experience.

A Great Running Bace.

The one-and-a-half mile race between the bay gelding Be Calm and the chestnut gelding Armadale, for \$1,000 a side, attracted about 800 sporting men to the Pottstown trotting park on Friday alternoon. There were a number of horsemen present from Philadelphia and New York, while Hanover, York, Gettysburg, Littlestown, Lancaster and Harrisburg, in which vicinity the merits of the racers were well known, sent large delegations. Sam Fisher had the mount on Be Calm, who is owned by Joseph A. Ocker, of Littlestown, while Armadale, who belongs to Col. John B. McClallan, of Cettrachurg to Col. John B. McClellan, of Gettysburg, was ridden by J. J. Carter, of Cynthia, Ky. In the pools Armadale was the favorite at \$100 to \$70. Armadale led all the way over Sido to 576. Armadaie led all the way over the course and won handily by five lengths in 2.44%. The first quarter was run in 24% seconds, the second in 25%, the third in 25 and the fourth in 20%, making the first mile in 126%. Silas Wright and Cyrus Colvin were two of the judges. This is the third time Armadale has beaten Be Caim. About \$5,000 changed hands on the result.

The Mexican Pavilion Combination.

Signor Martinho Lowandes' Mexican Pavilion combination gave their first entertainment at McGrann's park last evening. The combination arrived too late to give an after-noon exhibition. Every seat in the tent was noon exhibition. Fivery seat in the tent was occupied, and as 2,000 persons can be accom-ber present. The entertainment was a first-class one. The gynnasts, trapeze perform-ers, the wire-walker, the trained pony and the trained dogs, the principal attractions, are among the best ever seen in the other. There among the best ever seen in the city. There will be a change of programme at each enter-tainment, and the combination will receive, as it deserves, the patronage of our people. The performance was better than at many 50 cent shows. The show will be in the city until Tuesday night.

Surest Tranguillizer of the Nerves.

The surest tranquilizer of the nerves is a medicine which remedies their supersonsitive-ness by invigorating them. Over-tension of the nerves always weakens them. What they need, then, is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores transquil-ity of the nerves by endowing them with the vigor requisite to bear, without being jarred or disturbed unhealthfully, the ordinary im-pressions, produced through the media of sight, bearing and reflection. Nay, it does more than this-it enables them to sustain a degree of tension from mental application which they would be totally unable to endure without its assistance. Such, at least, is the irresistible corclusion to be drawn from the testimony of husiness and projessional mer litterateurs, clergymen, and others who have tested the fortifying and reparative influence of this celebrated tonic and nervine.)y20 Imd

A woods meeting commenced to-day in De weiler's woods, near Mount Joy. Trains will leave here to morrow in the morning and after-noon. Tickets good until Monday. Itd
