stion could be taken by the association until the men were members of the Union. Andrew Lee, vice president of the Eighth distract of Amalgamated Association of Iron and Steel workers, arrived in Columbia and was present at the meeting of yesterday atternoon. The men joined the association, after which Mr. Lee made a speech stating that \$1,000 per week would be sent to the men, to be divided among the atrikers of the three mills, and this would continue as long as the strike was in force.

The men are very reticent about the business done at the meeting, but say that they are fully determined not to return to work until the advanced prices are paid. The men are of the opinion that the difficulty will soon be settled and they will return to work about next Monday. On the part of the management of the different mills, a different view of the matter is taken and they declare that the advance prices cannot be paid and the mills will not be run if those prices must be paid to the employes. The management claim that Philadelphia mills can procure some of the materials at a lower cost than in Columbia and iron can be sold lower, as freight on the production must not be paid. The Columbia mills pay freight to have their Iron shipped to Philadelphia, which cost is avoided by the mills in the city. The management will not grant the demands of the strikers and it looks as if the strike would be a prolonged one. At the Columbia rolling mill the heating furnaces are now in operation. Much bar iron is not used, but in the place the finished iron is made from somp iron. The men at work say that they cannot afford to stop work, as they have semilies to support.

Corner Stone Laying.

A very large number of people gathered at the new edifice of the United Brethren b, on North Fifth street, last night, at which time the corner-stone was laid. The exercises consisted as follows: Reading of the services of corner-stone laying. Rev. Git-bons, Mount Joy: prayer, Rev. F. J. Clay-Moran; hymn; explanatory address, Rev. C. D. Harp; the speaker gave a financial state-ment of the church, and stated that any persons giving any amount above ten cents would have their names placed in the stone. During singing collectors went among the audience for contributions; the corner stone was then placed in position, after which the people were dismissed with the benediction. On Saturday afternoon the August Flowers, of Lancaster, will play a game of ball with the Columbia club. This game will be a good one and the visitors will present Driscoll and Gibson as their battery. Town Notes.

Rev. Jno. A. Roche, D. D., of Brocklyn, preached at 10 o'clock a very fine sermon from St. John xil., 32: "And I, if I be lifted up from the earth, will draw all men with me." This sermon was one of the best preached at the campmeeting, a very excellent exposition of the text. The doctor is in great request among his friends at Landisville campmeeting and it would seem strange if he should be absent. He is the oldest minister, being upwards of 70 yearsold. He is, notwithstanding his age, one of the most pungent and physically strong.

Moore, Philadelphia conference, preached a very excellent and acceptable sermon from Hebrews ii., 3: "How shall we escape if we neglect so, 3: "How shall we escape it we neglect so great salvation."

At 1:30 there was two meetings in progress—the children's, led by Rev. C. Rhoads, and a meeting for the promotion of holiness in the tent on the hill, led by Mrs. Eliza Smith. Both were largely attended and good results followed.

At 6 o'clock the holiness prayer meeting commenced on the hill. Mrs. Eliza Smith had charge. The meeting was dismissed at the proper time; but one seeker, a young man, would not leave the tent until blessed.

Bo the meeting was continued until 10 o'clock when he was converted. At 7:30 Rev. Mr. Lantz, of Central Pennsylvania conference, preached from Hebrews

kii: Wherefore we, securing a kingdon which cannot be moved.

xii: Wherefore we, securing a kingdom which cannot be moved.

The sermon was well received by the large audience. It was well delivered and packed with thoughts that if appropriated will be editying to the mind and a great blessing to the soul. The meeting was kept up until 10 o'clock by exhortation and prayer. There are now reported at least thirty new converts since the meeting began.

This morning at 6 'oclock the family worship meeting is in progress at the tabernacle while we are writing. The presiding elder, John F. Crouch, appealed to all the heads of families to be present this morning, it being the last of the services this year. He wanted every family to crect a family altar, and keep it up all year round. He missed but one of these meetings while he was on this camp ground. Rev. John Crouch is one of the best meetings while he was on this camp ground. Rev. John Crouch is one of the best men we have here, and thoroughly imbued with his Master's work—kind and affable and genial to a fault. It is not surprising that he has a strong hold on his people. Rev. J. T. Satchell, the president, has been everywhere. "Work, work," is his motto at campmeeting. He will preach at 10 o'clock to-day.

A WOMAN'S SUICIDE. Mrs. Emor Chambers Hangs Herself To a Tree In An Orchard

QUARBYVILLE, Aug. 5.—This morning the wife of Emor Chambers, residing on Robert Maxwell's farm, a mile west of Unicorn, in Drumore township, committed suicide by hanging berself to a tree in the orchard. The woman first sent her grown daughter to pick blackberries. While there was no one else about the premises she stole into the orchard and committed the deed. She was found be-tween 8 and 9 o'clock. Yesterday she kept trying to get away from the house, and it is believed that she then contemplated taking her life. The woman had been melanchol for some time past. She was about he years of age and besides a husband, who is a well known and respected citizen, leaves several grown children

THE MEDICAL SOCIETY

The Business Transacted at the August Meeting of the Doctors. The August meeting of the Lancaster City and County Medical society was held on Wednesday with the following members present: Doctors Albright, Bryson, Black, Baker, Boardman, Blackwood, Carpenter, Craig, Dunlap, Deaver, Davis, M. L., Ehler Borst, Herr, B. F., Herr, A. J., Horting, Ryus, Lineaweaver, Livingston, Leaman, J. R., Lightner, Miller, Musser, J. H., Musser, H. E., Newpher, Rohrer, G. R., Roland, Ringwait, Spartle, Siegler, Shenk, D. H., Witmer, J. M., Wentz, W. J., Welchans Weaver, D. B., Welseman, Ziegler, J. L., and

Reports from all sections of the county showed that there was some sickness, but no showed that there was some sickness, but no epidemic is prevailing.

The last Thursday of August was fixed for the meeting of the Union Medical societies at York Furnace. The societies making up the union are from Lancaster, Dauphin, York and Cumberland counties, this state, Harford and Ceell counties, Maryland.

Interesting cases were reported by Doctors Ziegler, Deaver, Miller and Craig, and disussed by the members.

Blunder in Constructing a Sewer. The new sewer on West King street from Prince street to Centre Square was com-

pleted at noon to-day by Smith & Kitch. The contractors were given twenty days to do the work, but they completed it in seven days and five hours. When the sewer had been almost finished it was found that it was too high at the Centre Square end for some of the cellars along the way. This is considerable of a biunder, but it is not the fault of the contractors who did their work as ordered. The city regulator is probably to blame for

the mistake, but the members of the street committee have a big time explaining it. The sewer is not a particle of benefit to numerous property-holders along the line: but in the usual careless manner of doing city work no stop will be made for such blunders and the Belgian blocks will be laid upon it.

A Manor Surprise On Wednesday Mrs. Benjamin K. Manning, of Creswell, Manor township, was fiftynine years of age, and her children arranged a monster surprise party, which was held in the evening. About two hundred persons were present, and the majority took supper. A speech was made by H. H. Kurtz, and the Conestoga Centre band furnished excellent music. Miss Lillie Hershey played the organ and there was plenty of good singing.

Charged With Perjury.

Lucinda Jenkins, a colored damsel from Columbia, was a defendant at Alderman Barr's court this morning. She was charged with having committed wilful and deliberate perjury in awearing that Mary Lloyd, anperjury in swearing that stary taloys, another Columbia girl, was drunk, which the said Mary alleges is faise, as she does not drink. Lucinda furnished bail in the sum of \$200 for trial at the August court of quarter

sessions. A Missing Horse Found.

This morning when Benjamin Evans, butcher, of North Queen street, went to his stable he found the door open and his horse gone. He supposed that the animal had been stolen and began making inquiry concerning him. He was afterwards found, having been caught in the rear of the Grape hotel.

Sent to the Workhouse Harry Smith, a one-legged stranger, under the influence of liquor, was arrested for beg-

ging on North Duke street, last evening, by Officer Beechler. When he was retused be became very insolent. The mayor com-mitted him to the workhouse for 30 days. Drunk No. 2 was discharged on promising to eave town at once.

The Cook Arrested
Amelia Aldridge, the colored cook at Edward Copland's house, who escaped on Edward Copiand's house, who escaped on Tuesday when a raid was made on it, was arrested last evening by Officer Reilly. Her case will be disposed of on Monday evening, when Copiand is heard for keeping a dis-

INDIANS HIGHLY EXCITED

The Cause, is the Killing of Two of Their Number by Cowboys DURANGO, Col., Aug. 5 .- The 800 Indians at the routhern Ute agency are again in a state of excitement over the killing by cowboys of two of their number who were off or a rough bout trip through the Disappointmen creek region of country. The news reached the agency Tuesday by a Navajo courier; and O. S. Merrill, of the agency, who arrived here yesterday, reports that the Indians are indigent and boisterous. The Utes have been discontented for weeks. They were led to believe that Congress would change their reservation from Colorado to Utab. The bill passed one branch of Congress early in the summer, but is still hanging fire. As soon as the bill passed the House the Utes packed up their traps and have ever since that time been ready to leave on a day's notice. The long delay has made them fretful and led them to believe that some tricking was being played on them. A month ago a party numbering in the vicinity of 100 left the agency for the country to the West and South, which country is occupied by the cattlemen. Their depredations, such as killing cattle, burning grass, &c., have been reported from time to time and a colli sion between them and the cowboys has been expected daily. In anticipation of such trouble two companies of soldiers have been stationed on Disappointment creek. The place where the killing occurred is about 60 miles west of Durango. The particulars have not been received and probably never will be, as the cowboys keep such affairs a secret among themselves. The Utes at the agency are reported to be in a deplorable condition. A loathsome disease is fast diminishing their ranks. Three years ago they numbered 1,100; now they are only 800 strong. During the past year about 100 o them have died, while there have been only

The New Parliament. LONDON, Aug. &-The new Parliament met at 2 o'clock this afternoon, and after a few preliminary ceremonies the swearing in of members was begun.

Among the earliest to arrive was Mr. Gladstone, who took a seat on the front opposition bench wholly unnoticed, not the slightest demonstration being indulged in either by his friends or enemies. He was hardly seated when Mr. Cham. berlain entered and sat down upon the same bench. The Marquis of Hartington quickly followed and took a seat between John Morley and Mr. Chamberlain, When Lord Hartington took his seat Mr. Gladstone arose and advancing toward Chamber lain and Hartington shook bands cordially with both and immediately entered into conversation with them. Mr. Arthur Wellsley Pell was reelected speaker.

Forty Knots an Hour.

From the Public Opinion (London). The idea that it is possible to propel ships at the rate of forty knots an hour, or at some speed much higher than exists at present, is being discussed both in this country and in America. Professor Thurston, of the Sibley college, has recently taken up the subject and concludes that it is possible. The reasoning of those who hold that 47 miles an hour is an attainable speed is based from beginning end on what is done in torpedo boats, by t by no means follows that what is possible on a small scale is equally possible on a large scale. It would be necessary, in order to secure success, to augment not only the dimensions of the moving parts, but the strength of the materials of which they are made without augmenting their weight in like manner, in a way which is not practica-ble. So far as can be seen, the limit has been ble. So far as can be seen, the limit has been very nearly reached at present in such ships as the Oregon and the America. If the poweracquired augmented in any reasonable ratio with the speed, then great advances would be practicable. Yet even if doubling the power doubled the speed, it is not easy to see how double her present power could be got into the America. This vessel has a displacement of 6.500 tops and engines indicadisplacement of 6,500 tons and engines indica-ting 9,000 horses. In smooth water she makes when driven nearly 20 knots; but, unfortu-nately, to double her speed would require not less than 8 multiplied by 9,000 equals not less than 8 multiplied by 9,000 equals 72,000 horse power at least—probably 80,000 is nearer the mark—and this is quite out of the question. The only hope of success must be sought in the discovery or invention of some type of engine which will have no reciprocating parts—a rotary engine, in fact, which will permit an extravagantly high piston speed to be adopted, and even then the chance that such a speed could be made a paying speed is extremely problematical. a paying speed is extremely problematical.

Bible Facts for Sunday Study. The learned Prince of Grenada, heir to the Spanish torone, was imprisoned in the Palace of Skulls, Madrid. After thirty-three years in

this living tomb, he wrote in his Bible the

gniwollet times, the word Jehovah 5,845 times, and the word reverend but once and that in the 111th Psaim. The eighth verse of the 11sth Psaim is the middle verse of the Bible. The ninth verse of the 8th chapter of Esther is the longest verse; the thirty-fifth verse of the lith chapter of St. John is the shortest. In the 107th Psalm four verses are all ke—the Sth. 15th, 21st and 31st. Each verse of the 136th Psalm ends alike. No names or words with more than six syllables are found in the Bible. The 37th chapter of Isaiah and the 19th chapter of the 2d Kings are alike. The word girl occurs but once in the Bible, and that in the 3d verse of the 3d chapter of Joel. There are found in both books of the Bible 3,586,483 letters, 773,693 words, 31,373 verses, 1,189 chapters and 66 books. The 25th chapter of the Acts of the Apostles is the finest chapter to read. The most beautiful chapter in the Bible is the 23d Psalm. The four most inspir-ing promises are John, 14th chapter, 2d verse; John, 6th chapter, 37th verse; St. Matthew lith chapter, 28th verse, and the 27th Psaim, 4th verse. All who flatter themselves with vain boastings of their perfectness should learn the 6th chapter of St. Matthew."

Messrs. CAMPBELL & McKEK,

407 Locust St., Philadelphia.

Gendemen—It is with great pleasure that I speak of the merits of the "Champion of American Table Sauce" as par excellent to any other. From a therough test I have found that it not only imparts the most desirable flavor to nests and soups of all kinds, but it promotes digestion and assimilation, aronses torpidity of the stomach by increasing the flow of the gazirie juice, thereby invigorating the appetite and giving tone to the entire system generally.
