THE LATEST DARE BALL NEWS. Sources of Reasting Testorday the Active club of Reading visited Columbia where they were beauti-fully done up by the club of that place. King and Resh, of this city, formed the battery for Columbia team and they did splendid work. The former struck out no less than thirteen men, while but four hits were made of his delivery. Bradley was not hit hard, except by Brimmer, another Lancaster boy who is having second for Columbia. He had three hits, one of which was a home run. The new additions to the club has very little chance to display their fability, but the team, and here of the Actives, played a fine pane and did good work. A very fair undence was present and the entire crowing of the Columbias. The full score was: corrected. R.R. A.E. Actives. BETA.E.

What We Are Indebted to the South For

There appears in our columns to day the adver-isement of the well-known (and universally used in the Southern States) Simmons Liver Regulator. Years ago it won its way into every ousehold of the South by pure, sterling merit it there takes the place of a doctor and costly prescriptions. The medicine is becoming widely known in the North, and wherever used the demand has steadily increased. It is a family medicine, containing no dangerous and deleterious qualities, but purely vegetable, and so gentle in its action that it can be safely given to any person, no matter what age-the con-tenarian or the crowing youngster. Working people are often in that miserable state of health which renders them unfit for labor; but they baven't time to take medicine and be sick. Sim-mons Liver Regulator can be taken without loss of time, and the system will be built up and

invigorated by it. The Regulator promotes digestion, dissipates nasty sick beadache, and gives a strong, full tone to the system: In malarious climates it is invaluable, both pre ecting attack from the disease and expelling the poison after it has entered the system. It has no equal as a preparatory medicine, and can be safely used when a doctor cannot be called in. Persons of the very highest character and eminence have given Simmons Liver Regulator their cordial and hearty endorsement.

"Yet, I do not regret our conduct on that occasion, for within eight years every reasonable person will recognize that it was not possible for our party to take any other course, as the country was just recovering from the effects of a great civil war, and it would not have been wise to disturb the peaceful relations then existing between the people of our land.
