Vioronia, Tex., Aug. 21.—A disastrous wind stem violted this city yesterday, leaving destruction and desolation in its set. The wind blew a perfect terricane. About seven o'clock this serning an east bound passenger train, which was standing at the depot, was blown ever on the pistform. Several passengers were on the train but all of them escaped unin jared. The freight depot and the Masoni hall, both large buildings, are total wreeks, while the whole colored section is almost literally swept from the earth. Two church steeples were blown down and two churches unroofed. The high school building was considerably damaged. Altogether there were about seventy-five houses completely demolished and 118 more or less damaged. Few buildings escaped uninjured. Trees and most of the shrubbery in the city were blown down, and the streets were filled were blown down, and the streets were filled with debris. Business was entirely suspend-ed. The loss is roughly estimated at \$100,-600. Old citizens say that it was the most le storm ever known in Victoria. The egraph wires are all down and there is no

News from Cuero say the storm was very disastrous to property there also. Advices from the country say the storm was very violent, damaging crops and destroying property. Among the person lissing are Dr. Lewis, Capt Re-Rosecrans, Mrs. Sheppard and family, and Mrs. Hodges and two children. Henry Sheppard was found across the lake, very badly bruised, but still alive. THE NEW TEN-DOLLAR BILL.

What the Silver Certificate of This Den tion Will Look Like.

WASHINGTON, D. C., Aug. 21.—The printing of the new ten-dollar silver certificate began at the bureau of engraving and printing yesterday. The design of this note, as has dready been stated in these dispatches, includes a well-executed portrait of the late Vice-President Hendricks. The work is beng executed on the new distinctive paper which was manufactured expressly for the impressions were taken yesterday, and as each sheet contains four notes, \$200,000 worth of silver certificates have passed through the About thirty days will be required to finish them and have them ready for circulation, but it is understood they will not be issued before the middle of November when the ones and twos are expected to be prepared for issue. The designs for the latter denomi-nation are now being transferred to steel, and the plates will probably be ready for the printers about the middle of next month. The design for the ten-dollar plate was commenced some time before Congress author-ized the printing of the new issue of cer-tificates, as it was deemed advisable to replace the old design with the Hendricks note. This explains why the largest denomination is so much further advanced than the designs for the smaller notes. As soon as the plates for the latter are prepared the full complement of employes at the bureau will be put to work to expedite their circulation.

A Ferry Boat Strikes the Ship Violently-A

NEW YORK, Aug. 21.—When the ferry bost New Brunswick, of the Pennsylvania raliroad ferry,came into the Desbrosses street silp this morning, the engine refused to work at the moment the pilot rang the signal to "back water." As a result the boat struck the piles at the entrance to the slip with great force. The concession was so great that in the recoil an Adams express wagon that was on the boat near the chains went over into the slip. Patrick McNuity, a deck hand, who attempted to stop it, went along. The boat crew made every endeavor to save them, but were unsuccessful. The wagon and baggage were recovered. McNulty's body was carried away by the tide and was not found. A third horse belonging to the Pennsylvanis railroad company went over too, and was drowned

Three Drowned, Two of Them Brothers. Barrie, Ont., Aug. 21.—Thomas and Wil-liam Taylor, brothers, of Hillsdale, and John Hamilton, 14 years of age, went out fishing yesterday in a rickety old boat on Air lake. As they did not return, search was instituted and the body of Wm. Taylor was found standing upright in the water, one hand grasping the fishing pole, while the line was wrapped around his limbs. The bodies of the other two were found near by. Thomas Taylor leaves a wife and four children; Wilm was unmarried.

Drowned in a Swimming Froite.

HANNIBAL, Mo., August 21.—A coroner's jury, which with closed doors to the public has been for ten days investigating the death of Mrs. L. C. Evendon yesterday rendered a verdict of accidental drowning while bathing in the Mississippi river with her neighbor, Mrs. Annie Hazen, Robert W. Cash, recently a candidate for mayor on the Republican ticket, and R. M. Cheesman, a prominent business man. Both women were married, as are also Cash and Cheesman. The party had gone down the river about three miles for a froite and were bathing when the drowning occurred. Cash is now chief of the Hannihal fire department and it is probable he will be peremptorily removed by the mayor who has been requested by a delegation of citizens to take such action. Cheesman, who was master-workman of Eureka assembly Knights of Labor, was at its last meeting expelled from the order.

For a little variation we had a wedding last Wednesday. Mr. Sanders McSparran was the lucky man and Miss Bell F. Sides, daughter of B. F. Sides, M. D., the other party to the contract. It was a quiet wedding, occurring in the afternoon, and they are off on a trip. We threw our oldest shoes and whole bags of rice after them.

Mr. P. B. Shank, who runs the coal and lumber business at Peach Bottom, has control of the steam ferryboat at that place. For the last two years this boat and ferry have been managed by the Peach Bottom railroad, and was a nuisance. Under the control of Mr. Shank the ferry has been doing a largely increased business and greatly to the advantage and comfort of the patrons.

August 31 an excursion will leave Peach Bottom for Luray Cava.

The burying ground at Chestnut Level, known as the Old Graveyard, is in a condition of disgraceful neglect. The weeds and grass run unchecked. The tomb stones are leaningand tumbling in every direction, graves are sunken, making stumbling places for any one brave enough to walk through. There are men and women buried there whose memory deserves better treatment. It is not good taste that makes fine churches and neglects the graveyard.

Catfish as a Bass Balt.

From the Marietta Register. Last week Messra. Jos. Miller and John Engle were fishing. The supply of bait was scarce, and the twain started for the York county shore to secure an addition. Upor it on his line, and captured three bass with it. This is vouched for by both fishermen, hence is reliable. It would be a good plan to train a water snake to catch "cattles" for balt.

The State Geologist and Mine Inspector Williams, in their reports to Governor Pattison, both agree that further attempts at rescue would be foolish.

Injury to a Horse This morning a boy in the employ of Jos. Baer, the huckstor, drove away to deliver some goods. When he returned it was found that the horse was suffering from a severe wound in the shoulder. It was a hole several inches deep. The boy did not know how the injury was caused, but it is believed that he left the animal stand and another team ran into him. The wound looks as though made with a wagon shaft. The horse is a valuable one.
