MERTING OF THE STREET COMMITTEE The Question of Repairing Park Avenue Dis-cussed at Length.

The street committee met in select council

chamber last evening. Clerk Smeltz was instructed to notify the Incandescent Electric Light company to remove a pole they have placed in Concord alley, in front of a gate on the premises of John P. Wolf, in such position that Mr. Wolf cannot open his gate. If the company does not remove the pole it will be removed by the

ing that certain work on the streets be done, were read and several persons who were present were heard in reference to work asked. The committee determined to hold a special meeting at City hall, at one o'clock Friday afternoon to visit the several places where the work is asked for.

The Park avenue question was taken up and discussed by J. Hay Brown, esq., representing Levi Sensenig, and John W. Mentzer, representing himself. It will be remembered that on petition made to commeils some time ago councils ordered the street commissioner to grade and gutter Park avenue, which in bad weather is a limost impassable. The street commissioner began the work, The street commissioner began the work, when he was restrained by Mr. Sensenig, who sued or threatened to sue the city for damages if the work went on. On the other hand J. W. Mentzer threatened to sue the city for maintaining a nuisance if the work was not done. The result was that the work wa stopped and Messrs. Sensenig and Mentzel were requested to meet the committee in consultation last night.

Mr. Brown argued that it was unnecessary to incur the expense of making the repairs on Park avenue, as said avenue was not on the city plan of streets, and would be closed as soon as North Ann street was opened, which would be done in the near future.

Mr. Mentzer in his own behalf spoke of the horrible condition of the street and the dam age that was thereby done to his private pro perty ; and he argued further that Park ave nue was a public thoroughtare, had never been vacated, and was therefore a part of the city plan, and the extension of North Ann street was not likely to happen for years. The committee determined to defer action until Friday afternoon at one o'clock on which occasion Messrs. Sensenig and Mentzer are invited to be present and endeavor to come to an amenable understanding in re-

gard to the matter. The street commissioner was directed to measure the Belgium block pavement on West King street, and the clerk of the street committee was instructed to collect the subscription of \$2 per lineal toot made by the properly owners.

The clerk was also instructed to collect the

subscriptions made by property owners for the construction of the East Walnut street

A sub-committee of three, Messrs Riddle, Borger and Dalsz, were appointed to confer with the county commissioners relative to laying a "noiseless" pavement on North Duke street opposite the court house, The street commissioner was ordered to put in an improved No. 1 injet at Rote's corner, South Queen and Vine streets. He was also ordered to grade Seymour street. the committee believing that he can do the work for less money than the lowest bid made for such work under recent proposals.

A Workman Asks a Question or Two. EDS. INTELLIGENCER :-Allow me a small space in the intelligences, which has championed all causes beneficial to the workingman. The following thoughts were suggested by reading your valuable editorial on "Early Closing." It our merchants can do without three hours work from their employes, why cannot our mill owners be satisfied with one less. They go to work at 6 in the morning and stop at 6, thereby making 11 hours each day, all of them from the chief clerk to the bobbin boy. Another thing, there are employed in these same mills girls and boys under 15 years of age that critical point in their life when an hour's recreation is so beneficial to them. Pray do not think that we are finding fault with the proprietors for hiring them so young. Where proprietors for hiring them so young. Where there are large families it is essential that some must work; especially is it so where the father is a laborer whose wages are small. How weary must these boys and girls get in ten hours, to saying nothing of eleven! So while the reform movement is going on, would it not be a grand thing for the future mill-owner to look forward with pleasure, that his forefather had misopred and carried out the plan of making it hours constitute a out the plan of making 10 hours constitute a working day? True, of late years there has been an admirable school started by one of the superintendents, and there are many who speak of him as a philanthrophist. Let him inaugurate this other movement and hundreds will "rise up and call him blessed." If it is impossible, we have nothing more to say: if it can be done, the sconer the better.

Popular Excursions The excursion over the Pennsylvania railroad on Thursday next, from this city to the state fair at Philadelphia, presents features that cannot fail to attract to it many hundreds of passengers. The tickets for the round trip

The Mayor's Busy Court.

The mayor was busy this morning at the station house having drunks and a vagrant to dispose of. About 500 peoble were present in the afternoon from the surrounding country. After the programme was nearly finished a rainstorm arose and drove the people away, who were compelled to seek shelter in neighboring farm houses. One of the rare sights seen was 7 ladies whose ages range between 55 and 70 years, who had a "smoking party" in the grove. EARLY CLOSING MOVEMENT.

Early Closing. Equality,

Justice.

Fraternity Truth. EQUALITY.

All wage workers should be equal and not be expected to labor over 10 hours per day. Those who are from circumstances compelled to labor beyond this limit are not in the strict sense of the word on an Equality with their fellow workers, and it is only

JUSTICE

to the families of over-tasked working-men and women to favor any movement that will give them shorter hours of labor, by which means giving them the opportunity to spend pleasant evenings in the family circle or

FRATERNALLY to form themselves into improvement asso-

ciations, where they can meet not only their Companions, but Employers and Friends, and so form Fraternal Acquaintances that would lead to life-long Friendship bound by

TRUTH

to one another, thus making it much easier and pleasanter to transact business. More will be accomplished in a shorter space of time and at less expense to all concerned. Confidence will be established upon a firm foundation, buyers and sellers will deal less suspiciously, and the men and women will be respected for their Equality, Justice, Fraternity and Truth. These are our primary Reasons for Advocating the Early Closing Movement.

MACNAY leads onward and upward, and in the direction of progress and reform, while he views with calm complacency the receding forms of his atrabilarious competitor, and his champion in their retrograde march towards the rugged edges which define and overshadow the abyss in which inconsistency and indiscretion are swallowed up,
