To get at the heart of life's mystery.

What does it avail that my thoughts go out Through the trackless waste of a star-gomme If they bring nothing back to my dwelling But figments of error and figments of doubt!

How do I know that the vanished and dead

sea?
What is the faith of another to me?
Yet, how can I live if I live not by bread?

Oh : not for myself these hopes and these fears.

I think of the lives that went out long ago;
I think of the graves that are under the snow. And recompense seek for the value of tears. The lips that have kissed and the hearts that

have bled For other torn hearts. And they who mad rhymes.
And all the great souls that ever rung chimes
And all the great souls that ever rung chimes
Through the loves of the race—they have died.
Are they dead?

This body, so intricate! How do we know That the fair human flower matured by the earth—
Impregnate by love—may not yield the birth
Impregnate by love—may not yield the birth
Of a soul through the pange of its infinite wee?

Beautifying the Skin. From the Southern California Practitioner. In the work on diseases of the skin edited

by Professor von Ziemssen, Dr. Heinrich Auspitz, of Vienna, makes the following ob servations upon this subject : A healthy integument is not necessarily beautiful. Even if all requirements concerning diet, residences, atmospheric and clima

tic conditions, etc., are carried out, the com tic conditions, etc., are carried out, the com-plexion is often extremely bad. The general condition of health has no influence upon the beauty of the complexion, though it has upon the health of the skin. Cleanliness is a size qua non of the beauty of the complexion, though it does not play a great part in the health of the skin.

where is serviceable to the skin in only moderate amounts and at moderate temperature. Very cold or warm baths, when used to excess, diminish the elasticity of the skin

tants.

Distilled and so-called soft water are more

suitable for washing, and less irritating than bard water.

The hard soda soaps are usually preferable to the soft potash soaps for tollet purposes. The quality of soaps depends upon the quality of their constituents and the thoroughness of their saponification. Good soaps must not contain free alkali or any foreign irritating substance. The addition of moderate quantities of perfumes does not materially decrease the condition.

Simple, finely ground powders, such as starch, magnesia, etc., are entirely innocuoues, and often act as useful protection against ex-

and often act as useful protection against ex-ternal irritants.

Frequent application to alcohol abstracts the water of the skin, makes it dry and brittle, and impairs its nutrition. This is also true of glycerine. All toilet washes con-taining alcohol to any considerable extent should be avoided.

This is true to a still greater extent of other additions to washes, such as corrosive sub-

flowers and substances containing tannic seid. The use of sweet smelling oils and fats should be employed to a greater extent than is now done for toilet purposes.

This is particularly true with regard to the growth of the hair. The nutrition of the scalp should be increased by the rational application of fat (for example in the form of oil baths by means of the application at night of a sponge scaked in oil upon the scalp) and the greater use of simple pomades. These should be applied to the roots of the hair rather than the shafts.

Substances should be avoided or sparingly used, which abstract water from the skin and the roots of the hair.

From a Recent Speech. " I want to thank the ladies for their pres ence here to-night, and I want to say to them that I am their worshipper; I want to say to them that Eden was ionesome until God Almighty took from Adam a rib an Made a woman, and ever since that time, God bless her, she has been to man a ministering angel, to wipe away the tear of grief and sorrow, smooth the wrinkles from his brow, to scatter flowers in the pathway of his life, she is the embediment of all that is beautiful; and I pray she will use her influence in the political world in her own way and pleasure to place her humble servant in the gubernatorial chair."

Tux Nineteenth Century Club is an organization that will consist of an equal number of men
and women. It is hardly to be expected that
they will agree on all subjects; but it can surprise no one to learn that Dr. Pierce's "Golden
Medical Discovery," is unanimously pronounced the most successful remedy extant, for
pulmonary consumption, as has been demontrated in hundreds of cases; it positively arrests the disease and restores health and
strength, if administered in its early stages.

Warden A. A. Brush, of the Sing Sing, New York, State Prison, says Brandreth's Pills are the most valuable cathartic he ever used. He has been a great sufferer from rhematism and blood poisoning, but obtained very little relief from medicine or dectors until he commenced using Brandreth's Pills. He took fifty Pills in ten days. They not only cured him of rheuma-tism, but gave him a vigorous appetite and purified the blood completely.

Tried in the Crucible Tried in the Crucible

About twenty years ago I discovered a little screen my cheek, and the doctor programment it cancer. I have tried a number of physicians, but without receiving any permanent benefit. Among the number were one of two specialists. The medicine they applied was like fire to the sore, causing intense pain. I saw a statement in the papers teiling what S. S. had done for others similarly afflicted. I procured some at once. Before I had used the second bottle the neighbors could notice that my cancer was healing up. My general health had been bad for two or three years—I had a hacking cough and spit blood continually. I had a severe pain in my breast. After taking six bottles of S. S. S. my cough left me and I grew stouter than I had been for several years. My cancer has healed over all but a little I about the size of a half dime, and it is rapidly disappearing. I would advise everyone lacer to give S. S. S. a fair trial.
