THE SWIFT SPECIFIC COMPANY.

About twenty years ago I discovered a little sore on my check, and the doctor pronounced it cancer. I have tried a number of physicians, but without receiving any permanent bene-fit. Among the number were one of two specialists. The medicine they applied was like fire to the sore, causing intense pain. I saw a statement in the papers tolling what 8.8.8. had done for others similarly afflicted. I procured some at once. Before I had used the second bottle the neighbors could notice that my cancer was healing up. My general health had been had for two or three years—I had a hacking cough and spit blood continually. I had a severe pain in my breast. After taking six bottles of 8.5.8, my cough left me and I grew stouter than I had been for several years. My cancer has healed over all but a little spot about the size of a half dime, and it is rapidly disappearing. I would advise everyone with cancer to give 5.8.5. a fair trial. with cancer to give 5. 8. 8. a fair trial.
