STRE DEVIL'S AUCTION."

Fine Presentation of a Great Spectacular Play by Gilmore's Strong Company. The audience which gathered at Fulton use last evening to see "The Davil's on" produced by W. J. Gilmore's com-

my was large; but it was rather top heavy, the gallery was packed, white many more ald have been accommodated with seats . The production of the piece was a d success in every particular and no cular play has ever been put on in caster as well as was that of last evening, so it was first produced several years ago so have been many changes made in the sy, but they have all been for the better play, but they have all been for the better Even since last year there are many improvements. As played by this company it is a strong rival of the famous "Black Crook," to which it is somewhat similar. Like all pieces of its kind it is full of devils, spirits, imps, fairles, &c. There are numer-ous mortals, however, and they are given many opportunities to display their talents. This year Ignacio Martinetts, of the given calebrated family of nember of the once celebrated family of member of the once celebrated family of mitomimists, played the part of Toby, the mkey, who is afterwards transformed to a sp. He is a good actor and finds a great al to do during the presentation of the common, was charming as Janet, the miladd, and Miss Milfred Overin made a autiful Chrystaline, the fairy protector is remaining members of the company or all excellent in their different characters.

arly every piece of scenery used in the play is carried by the company and it is of the handsomest and most expensive kind. The stage presented a fine appearance and the transformations were made with startling rapidity. A big feature of the show is the fine ballet, which is of good size and composed of handsome women. A great deal of dancing was done during the evening, the ballet appearing in every act. In the first a lockey dance was given, and before the curtain fell the whole company was seen on the ge, including the great Salamonsky Broth, who created a great deal of amusement their comical dancing. In the second act "Mikado" ballet, which is something now in Lancester, was given, the ladles appear-ing in limited Japanese costumes. In the last act the great "Pescock" ballet was danced. M'ile Leonildi Staccioni appeared in the last two axis and drew forth thunders ola are by her wonderful dancing. The costumes were elegant and a calcium light in the gallery added greatly to the effect, while the ballet was on the stage.

Another strong feature of the show is the specialties which are introduced during the presentation of the play. The company has ber of the best artists in now before the public, and they almost set the audience wild. The Snow Brothers ap-peared as two Chinamen, in the second act, and introdued their acrobatic feats. They also gave an exhibition of hat throwing, one of them going into the gallery and throwing a half dozen hats to his brother on the stage who caught them on his head. Young Martinetii and Miss Murilla apppeared in a Martinoti and Miss Murilla appeared in a specialty in the second act, doing several nect songs and dances which met with great favor. The three Loreilos, who are dancers, contortionists, high kickers, &c., did their "turn" in the last act, and it was really amazing as well as humorous. The whole show is good, and it would be very difficult to get a stronger array of talent together in a traveling party. Too much praise cannot be given to the management for the line production of the play. Those who saw last night's performance do not now wonder why this company has met with such great success this season. Manager Gilmore has not spared any money to put a fine troupe on the road, and he deserves to make money. Besides having the leading variety theatre of the country he is making great headway as a manager of spectscular plays, and if they are not careful the Kiraliys will be made hunt their holes.

BEAVY FALL OF SNOW

Is Is Greater in the East Than Elsewhere Train Deteution. The heavy fall of snow on Sunday has been followed by a still heavier one to day. This later storm began about 4 o'clock a.m., and by noon to-day had attained a depth of several nobes.

All the trains from the East coming into the city this morning were late. The News Express, which should have arrived at 6: 20, did not arrive until 9:50, and then it came in with two locomotives attached. It was first detained near Gien Lock by a freight train which jumped the track, on account of the snow in the switch, and blockaded the road. After this had been cleared away the train ran into great drifts of snow at Frazer's station, which detained it for quite a time.
