The Lancaster Intelligencer

Lancaster, December 22, 1886.

Our Pedestal Member.

Dr. John A. Swope, the member of Congress from the adjoining district over the Susquehanna, writes to the York Age on the subject of the late tariff vote, which was taken, he says, on a motion that the House resolve itself into a committee of the whole on the state of the Union for the purpose of considering bills raising revenue.

Dr. Swope says he voted for that motion because it is conceded that something needs to be done to reduce the revenue and the adoption of the motion would have brought the whole question before the House, which might have struck out the enacting clause of the pending Morrison bill and inserted any revenue reduction measure that it chose.

There is to be a great Union Labor convention in Cincinnati on February 22, and a circular issued by the Land and Labor League of New York tries hard to explain its object.

Mr. Blaine has been addressing the "Congregational Club" in Boston; an institution composed of those of the Congregational religious persuasion who meet annually, on "Fore-father's-day," for the particular object of self-glorification incident to all such occasions.

Mr. Blaine has been addressing the "Congregational Club" in Boston; an institution composed of those of the Congregational religious persuasion who meet annually, on "Fore-father's-day," for the particular object of self-glorification incident to all such occasions.

A candidate. One will not trust the friend of the other. When rogues fall out honest men have their chance, and this is just the Philadelphia situation.

Another Garden. The impression has prevailed that the power of Egypt in the Sudan, in fact all foreign power in that region, had been completely obliterated when the English retreated after the fall of Khartoum.

The New York Herald has a dispatch from Dr. William Junker, a Russian-African explorer, appealing for an expedition to rescue Emin, the German doctor referred to, who served under Gordon in the Sudan, and developed such rare executive ability that he was sent to rule the Egyptian equatorial provinces.

The Herald also publishes a letter from the mahdi to his governor of Equatorial Africa, announcing the fall of Khartoum, and the death of Gordon. It was sent to Emin Pasha, with a summons to surrender, and was forwarded by him to the British consul at Zanzibar.

Emin Pasha's stubborn defense against the enemies that so completely cut him off from the outside world, in the only quarter towards which he could look for help, is worthy of the same admiration that was accorded to Gordon's defense of Khartoum.

The fact that the Russian explorer has been able to bring this message from him shows that he might have deserted his post, but has bravely resolved to share the fate of his followers, whatever that might be. His services to science have been very great, and he is certainly as worthy of an expedition of relief as was his old comrade Gordon.

The Spanish legislature has voted \$4,000,000 for a new navy; yet their old one could demolish ours without much trouble.

BLAINE is going to ride into the presidency by way of Ireland. He will find it a rocky road to travel.

monumental association, has offered to give \$500 toward the erection of the monument if fifty other citizens will contribute a like amount. The monument is to be placed at the Chestnut street front of the new city hall, Philadelphia.

George S. Lenhart, a young man well-known here, and who resided in Middletown until he began his journalistic career, will assume editorial control of the Williamsport Breakfast Table. He has been connected with a Williamsport paper, one in Easton and lately was a reporter of the Jersey City Journal.

George W. Childs has received the thanks of Stratford-on-Avon, England, for his gift of a drinking fountain to the town. In his letter presenting the gift Mr. Childs expresses a hope that the fountain would prove an evidence of good will between the two nations having the same and works of Shakespeare as a common heritage.

Acting Secretary Fairchild has accepted the offer of the Nashville, Chattanooga & St. Louis railroad company to pay \$153,000 in compromise of the claim of the United States now in suit against that company, founded on certain national and invalid interest coupons of bonds issued by the company and held by the United States.

Representative Hamilton, of Georgia, tells a good story at the expense of Emory Speer, Georgia Independent, now United States district judge at Savannah. When Hamilton was at White Sulphur Springs, Ga., last summer, Speer was running for Congress in that district as an Independent Democrat. Hamilton asked him how he was going to vote. "I reckon I'll vote for Candier," said the fellow. "That's right," said Hamilton, "I'm a Democrat, and you are a Democrat. Do you know him?" "No," said the countryman, "but I know Speer."

We have heard many of our old friends say that salvation oil cured them of rheumatism. Those who have had it should not be without a bottle of it for twenty-five cents a bottle all the time.

It has always been understood that consumption was incurable, but it has recently been found that it is curable. Meeting one of the natives, Hamilton asked him how he was going to vote. "I reckon I'll vote for Candier," said the fellow. "That's right," said Hamilton, "I'm a Democrat, and you are a Democrat. Do you know him?" "No," said the countryman, "but I know Speer."

Dr. King's New Discovery is now being sold in the United States. It is a powerful medicine for the cure of all the diseases of the throat, lungs, and chest. It is sold in bottles of 25 cents and 50 cents.

Utterly Discouraged

expresses the feeling of many victims of rheumatism, neuralgia, sciatica and nervous or sick headaches. Having tried numerous so-called remedies and physicians of all schools, without relief, there seems to be no hope. Many such have as a last resort tried Athiophoros, and to their surprise and joy have found that it was a safe and quick cure. Athiophoros is not an experiment; thousands have been cured by its use and they testify as to its value.

Shokomoko, Datchee Co., N. Y., Aug. 26, '86. I took Athiophoros according to directions. It caused a ringing in my head that was not pleasant, it operated on my heart causing a slow and fainter throbbing, and constipated my bowels. When the last dose was taken I did not think much of the medicine; the next day my lameness was better and continued getting less until it left me. My lameness was in my back, shoulders and neck, and had been for eight months. I was advised to try Athiophoros by my neighbor, Wm. Jackson, who had taken a bottle of it for a severe attack of rheumatism in his shoulder and arm. He said "I drove the lameness right out of me; my head felt strong, and my heart almost stopped beating. I thought I was dead, but I came out all right, and have not had any lameness since."

Every druggist should keep Athiophoros and Athiophoros Pills, but where they cannot be bought of the druggist the Athiophoros Co., No. 127 North Queen street, Philadelphia, will send a bottle free on receipt of regular price, which is \$1.00 per bottle for Athiophoros and 50c. for Pills.

For liver and kidney diseases, dyspepsia, indigestion, weakness, nervous debility, diseases of women, constipation, headache, impure blood, Athiophoros Pills are indispensable. Dec 23/1886.

Are constantly exposed to danger from Croup, Whooping Cough, and diseases peculiar to the throat and lungs. For such cases, Ayer's Cherry Pectoral, promptly administered, affords speedy relief and cure.

As a remedy for Whooping Cough, with which many of our children were afflicted, we used Ayer's Cherry Pectoral, and found it to be the most effective of all the remedies which have come under our notice. For this affection, we consider this preparation the most efficacious of all the remedies which have come under our notice. For this affection, we consider this preparation the most efficacious of all the remedies which have come under our notice.

My children have been peculiarly subject to colds and croup, and I tried to find a safe and effective remedy until I commenced administering Ayer's Cherry Pectoral. This preparation relieves the difficulty of breathing and loosens the chest. It is a safe and effective remedy for all the diseases of the throat and lungs. For this affection, we consider this preparation the most efficacious of all the remedies which have come under our notice.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price, 60c. per bottle.
