

FAMOUS UNEQUAL MARRIAGES.

It is right that there should be a generally admitted rule in regard to the marriage of persons far removed in years from one another. But although such marriages are unequal, they are not unequal in the kind in modern times...

FASCINATING SPORT.

The Fair Sea Have a Taste For Angling—How They Fill the Hook—The Difficulty in Gathering Earthworms and Other Kinds of Bait.

Hawthorne in the preface to his "Marble Faun," one of the best of his works, in which he so exquisitely portrays those rich and delightful Italian scenes, and so graphically describes various Italian objects, antiquities, medieval, pictorial and statuesque, says: "While reproducing the book on the broad and dreary sands of Redor, with the gray German ocean tumbling in upon me, and the northern blast always howling in my ears, the complete change of scene, made those Italian reminiscences shine on me vivaciously, and I felt in my heart to cancel them. This very 'complete change of scene' that inspired the great romancer to portray, under a wintry sky, a soft and sunny climate, prompts me, on this cold, stormy day in this snow-bound city to write the following article, which perhaps will be fragrant of the summer and the beauties of the country."

Of all sports and diversions, fishing is, by many odds, the one that is the most universally enjoyed and indulged in by all classes of people, without respect to age or sex. One can hardly walk through a park, or see a sportsman who is peculiarly adapted only to such who are equipped, financially, with necessary acquisitions and qualifications for such a sport, as the fishing rod, school boy, with shining morning face, and not so young and inexperienced to wield the rod and line; and he is generally well skilled in the art of catching and tending of his fish, and in the art of mending his fishing tackle.

There are many other points that I might touch upon, but as this subject is rather a large one, and I do not often indulge in the pen, I will not do so. I will only say that fishing is a most interesting and profitable pursuit, and one that is enjoyed by all classes of people.

There are many other points that I might touch upon, but as this subject is rather a large one, and I do not often indulge in the pen, I will not do so. I will only say that fishing is a most interesting and profitable pursuit, and one that is enjoyed by all classes of people.

THE WHITE MONTHS.

It is a time to be independent. From time to time across the fleecing sunny days of January, the fierce frosts play their untrammelled freedom races along its rocky banks; all living things that can retire to sheltered nooks and crannies are in a state of torpor. The snow-capped peaks and the passing footstep gave it pain, the breath congeals and rims the matted mouth with glittering mail. The very eyelashes freeze together. What a cold! The invisible moisture of the air is turned to diamonds of frost, along whose facets the sunshine streams in glittering ways. The stars of night shine through it with an indescribable brilliancy; the dome of heaven seems more deeply arched, and is coronated with weird and wonderful forms of unoccupied rooms glisten with myriad frost stars. Through open key-holes, and over outside thresholds are blown little rifts of argente blossoms, crisp, airy, delicate, that crumble and melt at the passing touch. The white world is thus a world of contrasts, in beauty, purest and whitest of all white things.

And yet, despite its wintry whiteness, the snow has a certain brilliancy of its own, so brilliant that the brightest fringes of the rainbow look faded and sodden in contrast. The snow has a certain brilliancy of its own, so brilliant that the brightest fringes of the rainbow look faded and sodden in contrast.

And yet, despite its wintry whiteness, the snow has a certain brilliancy of its own, so brilliant that the brightest fringes of the rainbow look faded and sodden in contrast. The snow has a certain brilliancy of its own, so brilliant that the brightest fringes of the rainbow look faded and sodden in contrast.

HOOD'S SARSAPARILLA.

After Diphtheria. The patient recovers strength slowly, as the system is weak and debilitated, and the blood poisoned by the ravages of the disease. What is needed is a good reliable tonic and blood purifier like Hood's Sarsaparilla, which has just the elements of strength for the body, and vitally richness for the blood which soon gives back robust health. After scarlet fever or pneumonia it is also of great benefit.

After Scarlet Fever. Upon our little girl, who had been sick with scarlet fever, the use of Hood's Sarsaparilla was most successful in restoring her to good health. Hood's Sarsaparilla does not give highest praise.

100 Doses One Dollar. Sold by all druggists. It is for sale in France, by G. L. HOOD & CO., Chemists, Lowell, Mass.
