Following is the conclusion of the testi-mony taken at the hearing of the sligged murderers of George Dennis before Alderman Harr on Tuesday afternoon :

#### CTRUS ROWERS' STORY

Cyrus Bowers affirmed : "1 live between Bareville and Farmersville; 1 laid out the corpse ; I saw the neck was discolored some little ; 1 met and talked with James and Ima Dennis, but I do not remember what did say to them about the corpse." There was some argument of counsel as to the offer of the common wealth to show that the witness had told the Dennis brothers certain matters in reference to marks on the body. Counsel for the defense argued that t was not testimony and the offer was with-

Testimony continued : "I have been traveling some with Rudy since the burial of George Dennie."

John Graybill, sflirmed : "I live one-half mile morth of Bareville, in West Earl township ; I knew George Dep-nia, and saw bim last the night before he died, between 8 and 9 o'clock in the evening ; he lived between 200 and 300 yards from where I saw him ; he left for between 5 and 9 o'clock ; Dennis was an old man and sometimes he worked. but was not able to work much saw him after he was dead next y, but not until after the corday. there ; it was between 10 and 11 o'elock."

On cross-examination witness said George Dennis complained to him the night belor his death of feeling badly.

George Bohnert, affirmed : " I live at Bare ville; I new Dennis on the night before his death at my shop ; 1 sold him a purse and he put a few dollars in it from his old pocket-I also gave him a strap to take to Eby Rudy's ; I heard of his death about noon o the day he was found dead.

DR. DAVIS ON THE STAND.

Dr. M. L. Davis, affirmed: "I am cing physician ; I made an examination of George Dennis; I examined the skull. opinal column, heart, liver and stomach ; ] moved all the scalp from the skull; 1 re moved the upper vertebra of the spinal otumn ; there was no break or fracture ; the body was badly decomposed and if there was any injury to the flesh it could not have been discovered ; I examined the heart and found it diseased, enlarged by dilitation ; I found no blood in the heart : the blood remains in the heart when the party died of failure of the heart action, or paralysis of the heart ; if a person was choked to death there may or may not be blood in the heart after death here was some congestion of blood back of the neck ; he did not die of paralysis of the art ; I could not discover any bruises on

the body on eccount of decomposition." On cross-examination the doctor's testiony was: "I cannot tell whether Dennis died a natural or unnatural death.

Anna Morrow was called as a witness, or testimony was merely heresay and was d. If admitted it wo uld have n certain admissions made by Elisworth to his part in the offenses charged.

CATHERINE DENNIS TESTIFIES. Catherine Dennis, affirmed : "I live at Farmeraville, and I am Isaac Dennis' wife ; 1 www.George Dannis shortly before havmak. ing, and the next time he was dead ; on the because they believed their brother had been IMPORTANT LABOR NEWS. He took the position that a strong prima facia case had been made out, and that the defendants should be com-ARDINAL HIBBURA BRPURT TO THE PAPAL AUTRORITING IN RUN D. mitted for trial. Alderman Barr said be wanted time to look over the testimony and that he would render a decision to-morrow as early as pos-sible. The prisoners were taken back to jail by itates as the Knights of Labor. Cardinal Gibbons has placed before the Vatican a for Alderman Barr this morning rendered his mai statement as to the nature of the organimain statement as to the nature of the organization and the stitude the church should adopt toward it. The cardinal eays in this that he considers that any condemnation of the Knights would be not only useless but dictaion in the cases. It was that as the common wealth failed to prove that George Den-nis was murdered, there was nothing to hold the accused on that charge and those can the Kaight would be not only useres but highly inopportune, and that it might alienate the sympathy of the American laboring classes from the church, and might hauper the mission of the church to the laboring were dismissed. As to the charge of rob-bery there was no testimony offered to sustain that charge, and it was also dismissed. Releases were at once sent to the county jall,

the mission of the church to the laboring poor. In addition Cardinal Gibbons treats the alarmist theories respecting the Knights of Labor as puerile, and says that nearly one-third of the men belonging to the organisa-tion are Roman Catholics. Respecting the charge that the association is a secret order, the cardinal ays it is not a secret society in the sense condemned by the church, and is consequently exempt from the canonical cen-sure. In Canada the case is different. The cardinal further says be considers the organization of the Knights of Labor in the united States not only harmiess, but that it will possibly be beneficial in assisting in the eventual settlement of the great question of the proper relations between labor and capi-tal. and at once left for their homes. The case against Elisworth as accessory, after the fact, for which he entered ball for trial, was also The decision meets with general approval, as the testimony offered was considered by those who heard it to have been the weakest

A story is current on the streets that explains why the suits were brought. We give the story as it was related : Shortly after George Donnis' death, Isaac Dennis went to 'hlisdelphis and consulted a fortune-teller.

There is nothing in its constitution hostile to the best interests of the church and nothing that brings the body in conflict with any tenets of the church in a field at work and they had their backs turned towards him. He went up to them and saw they were Eby Rudy and Mart Hess. Dennis went back to the fortune-teller's and told what had happened, and he was again in conflict with any tenets of the church. The trouble has been that the church did not fully understand the purposes and mathematication told that these men and their associates were the murders, and on this fimsy story the on its in the proper!

On further questioning she said that learned that Eoy Rudy had been to the amithshop on the morning of his en he returned his sister asked , and wh him to look after George Dennis and Eby replied "maybe he is dead " Nearly all of the stor part of the testimony was hereasy.

On cross-examination witness testified that Bby Rudy did not have much to say to her on the day of George Dennis' funeral ; the party who made the remark "George Dennis be dead" was Ida Rudy and not Eby Rudy, but that he was present at the time. B. F. Eshieman, of counsel for the commonwealth, said that there were a number of other witnesses in attendance, but their atimony was cumulative and the commonwealth would now rest their case.

Mesars. Brown and Davis, who represente Ellaworth, saked for his discharge, or if the were ready to give ball for his appear ance at the April session. The alderman led to admit him to ball in the sum o \$1,500. The ball was promptly furnished.

Mr. Brubster, representing Martin D. Hess, said he boped the sotion of Ellsworth's conneel in entering ball for their client would not prejudice the alderman in his de-cision as to other defendants. He argued that a prima facle case had not been made out. The first essential for the common th to prove was that Dennis died an unnatural death, and they failed in that proof by the testimony of the only physician who mmon wealth failed to prove any robbery or larceny, of which charges his client was land sgalast.

teinmets also reviewed the evidence Mr. Bla and argued that there was not a sointills of ridence to connect Martin D. Hers with the Senses charged. H. M. Houser for Rouben Harman argued

that the only testimony as to his client was that of the tax collector, which was so flimsy

that of the tax collector, which was so filmsy that it was not worth considering and that the whole testimony was that of suspicion. B. F. Davis, for Eby Rudy, took the position that when Dr. Davis testified that he could not say whether or not George Dennis died a natural or unnatural death the bottom fell out of the commonwealth's case. He made an estnest appeal for the discharge of all the accused because the evidence presented failed to make out a case, and said the prosecution was the result of the discipations of the heirs in not getting as much money as they expected from their document brother.
