After the performance the White House party went behind the scenes to call on Mme. Modjeska. It was Mrs. Cleveland's first visit to the mysterious region beyond the curtain, and, like every one who goes on the stage for the first time, she walked timidly for fear that she would fall down a trap door. Modjeska received her visitors in the dressing room, and after a little chat took the lady of the White House for a tour of inspection over the stage. The money will be divided among 25,000 persons, of whom 16,000 will receive their pay through the mails, and the remainder will have to call in person and receive their checks over the counter. This is the first quarter's payment for the present year, and the individual amounts range from \$1 to \$72 per month. When the pensioners call at the office, on the third floor of the postoffice building, they are obliged to take their place at the feot of the line, and none are so high in rank but that they must wait their turn. The clerks will begin the payments at 5 o'clook a.m., on Friday in order to accommodate the working classes.

The first cost of this system in a city like Now York will be enormous, but there can be no doubt that it will eventually pay well, and the time can not be far off when the citivens of Lancaster will demand that the poles and wires go under ground. The experience of New York will be for our benefit and the working of their system will be watched with niterast. Four per cent, bonds are to be instead to cover the expenses of construction.

The new inter-state commerce law will probably work have with the editorial irec-pass system. The act distinctly forbids the issue of any kind of pass except to railroad men themselves, but it applies only to reads which run from one state into another, not to reads which are entirely within the bounto roads which are entirely within the boun-daries of a state. There is just now an ap daries of a state. There is just now an apparent disposition on the part of the railroad companies to obey this feature of the law, but how long it will be kept up is a different question. With the railroads it is simply a matter of business. They must stop to consider whether they can afford to pay in ready cash for the notices, advertising and general reading-matter, which they now pay for in passes. As for the editors, it would be money in their pockets if the railroads paid in cash for the advertising which they receive in the course of a year. Thomas A. Scott once said that no railroad could be run without issuing free passes.

Mrs. Aifred Thurston, 42 North Main street, Wilkesbarre, Pa., says: "I am not troubled with rheumatism now, since using Athiophores. I believe, should it in any case fall to relieve and permanently cure, the cause would be that the directions were not faithfully followed." J. J. Sayitz, Nazareth, Pa., says: "I gave two bottles of Athiophoros to my sister, and she has entirely recovered. She was afflicted with inflammatory rheumatism and St. Vitus' dance and although we had two of the best doctors, she gradually grew worse. She would ser cam from pain night and day. I heartly recom-mend it."

Every druggist should keep Athlophores and Athlophoros Fills, but where they cannot be bought of the druggist the Athlophoros Co., No. 113 Wall street, New York, will send either (car-riage paid) on receipt of regular price, which is \$1.00 per bottle for Athlophoros and \$60. for
