Emperor William's Minotisth Birthday in the New York World.

he, but no ruler of a great nation, in authentic history, that we can recall, has lived to a greater age. George III., the cidest King in the English line, died at eighty-two after a reign of fifty-nine years. Louis XIV. of France, who was litular monarch for seventy-two years, died at the age of seventy-seven. The emperor, though physically fee-bie, retains his mental faculties well and remains a ruler in something decidedly more than a name.

The circumstances of the emperor's life render him a notable link between the present and the past. Napoleon Bonaparie was but twenty-eight years old and not yet first consul when William was born. The latter was a member of the army engaged in the overthrow of the great Cornican, and while then on the route to Parls was billeted, a lieutenant, in the same street in Commercy that he was quartered upon more than half a century later when going to seize the capital of Napoleon III. He has seen the continent more than once in the throse of revolution, France overthrown twice by outside powers, the supremacy of Austria in the German Confederation destroyed, and his own empire built upon the unity of the German states. He has been a soldier, legislator, provincial governor, once practically an exile, regent, king, and is now an emperor. Singularly enough, he easumed the last-named dignity at Vervailles. This was in 1871. It was in 1801 that he became king of Prussis. He has been subjected to at least five attempts at assessination, in one of which he was wounded.

Nowthistanding that he stands prominently forth in these latter days as a repre-

BBDIOAL HOOD'S BARBAPARILLA.

What is Scrofula

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which concest which developes ulcors in the eyes, ears, or nose, often causing blindness or desfiness; which is the origin of pimples, canescrous growths, or the many other manifestations usually ascribed to "humors;" which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How Can It Be Oured By taking Hood's Sarsaparilla, which by the re-markable cures it has accompitated, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wender-ful. If you suffer from scrofula in any of its forms, be sure to try flood's Sarsaparilla,

The Peculiar Medicine "I have running sores on my limbs for five years, so had at times that I could not walk, nor sleep nights. When I commenced taking Hood's Sarsaparilla, I was in pain so severe that I cannot describe it. I had no appetite and fell away. But Hood's Sarsaparills did me a wonderful amount of good. I have a good appetite, have gained in fiesh, and can sleep well. My sores are almost healed, and I can easily do a good day's work." Mrs. C. F. Lond, Dover, N. H.

and consequently incurable. It is impossible to describe her sufferings. Her body from the crown of her head to the soles of her feet was a mass of decay, masses of flesh rotting of and leaving great cavities. Her fingers festered and and three or four nails dropped off at one time ther limbs contracted by the fearful ulceration, and for several years she did not leave her bed. Her weight was reduced from its to 68 hs. Perhaps some faint ides of her condition can be gleaned from the fact that three pounds of Cosmoline or colutionst were used per week is dressing her sores. Finally the physicians acknowledged their defeat by this linear Wolf, and commended the sufferer to her all-wise Creator. Her husband hearing wonderful reports of the use of Swirr's Syschio (8.8 h.), prevailed on her to try it as a last resert. She began its use under protest, but soon found that her system was being relieved of the poison, as the sores assumed a red and healthy color, as though the blood was becoming pure and active. Mrs. Balley continued the 8.8 S. until last February; every sore was healed: she discarded chair and crutched, and was for the first time in it years a well woman. Her husband, Mr. C. A.
