TER VEGSTABLE GAMDER. of fields Believed to be Among the Very Best Possible. I the Germantown Telegraph.

From the Germantown Telegraph.

The great importance of gool vegetables in their season cannot be overestimated, and to the end that their cultivation may be commenced in season, all preparations that are to be previously made should be attended to. One important point is to make up a list of seeds to be procured in advance, that no dalay may result for want of seed at the of seeds to be procured in advance, that no delay may result for want of seed at the proper time for planting. To secure as much success as possible the soil should be prepared in a portion of the garden as soon as the season will admit, so that some of the most hardy seeds can be placed in the ground for early growth, and then planting continue from time to time as occasion seams to require. seems to require.

In the selection of the various seeds only the best varieties should be taken, and thes men which our country offers. They will be glad to send their catalogues for the asking and from which a great selection can be ing and from which a great selection can be made. We give below a list that from re-peated trials are believed to be among the best and which may in part sesist in making out a list of different varieties: Beans, Bush-Dwarf Horticultural, Dwarf German Wax, Refuge, Early Yellow six

Disorders Which Affect the Kidneys Are among the most formidable known. Dis-betes, Bright's Disease, Gravel, and other com-plaints of the urinary organs, are not ordinarily ured in severe cases, but they may be averte by timely medication. A useful stimulation of the urinary glands has ever been found in Hos-tetter's Stomach Bitters, a medicine which not only affords the requisite stimulus when they ne inactive, but increases their vigor and ecretive power. By increasing the activity of the kidneys and bladder, this medicine has the additional effect of expelling from the blood impurities which it is the peculiar office of these organs to eliminate and pass off. The Bitters is also a purifier and strengthener of the bowels, an invigorant of the stomach, and a matchless remedy for billiousness and fever and ague. It counteracts a tendency to premature decay, and sustains and comforts the aged and infirm.

and consequently incurable. It is impossible to describe her sufferings. Her body from the crows of her heat to the soles of her feet was a mass of decay, masses of flesh rotting off and leaving great cavities. Her fingers festered and and three or four nails dropped off at one time, the finite contracted by the fearful ulceration, and for seviral years she did not leave her bed, Her weight was reduced from 15 to 60 he. Perhaps some faint idea of her condition can be gleaned from the fact that three pounds of Cosmoline or olatment were used per week in dressing her sores. Finally the physicians acknowledged their defeat by this flace Wolf, and commended the sufferer to her all-wise Orastor. Her husband hearing wonderful reports of the use of Swipt's Frentific (8.8. &), prevailed on her to try it as a last resort. She becan its use under protest, but soon found that her system was being relieved of the poison, as theories assumed a red and healthy color, as though the blood was becoming pure and active. Her Balley continued the 8.8 & until last February; every sore was healed; as discarded chair and crutches, and was for the first time in if years a well woman. Her husband, Mr. C. A. Balley, is in business at 17g Backstone Street, Boston, and will take pleasure in giving the details of this wonderful ours. Send to us for Treatise on Blood and Skin Diseases, mailed free.
