of the Inter-State Commerce Act The Philadelphia Press publishes the on the inter-state commerce act, h seems to show that the law has already been condemned by a large ma-icity of the manufacturers of the state. All tranches of industry depending principalwunon coal and iron, are disposed to look n the law with small favor, and as the prosperity of this state is largely dependent on those industries, its trial here will be as severe and thorough as in any part of the

If f fails to satisfy Penn-ylvania its doom is sealed, but unless the interest on this subject is greatly overestimated, the people of the state will insist upon a fair trial of the law and a clear statement of ts defects before they consent to its condemnation. They well know that the policy of the railroads has been hostile to it, and that the roads seem bent upon making the people sick of it, and this knowledge alone is enough, to make them look apon the failings of the act with charity.

Large shippers had read the act and brought their common sense to bear upon it with the conclusion that long hauls would be made dearer and short hauls heaper, but they now find that the uncommon sense of the railway men has enabled them to raise nearly all the rates and some of them to figures beyond all reason. Excessive charges are, however, being gradually modified in many cases, owing to the evident danger of stifling industries that supply large volumes of freight; and it is too soon to pass judgment upon the act or even to be rand a guess as to the ultimate reult of the present trial.

We may, however, congratulate ourselves that it comes upon us at a time when money is plenty, business healthy and the prospect bright; for, if the conditions were not so favorable, the terrible strain of this experiment might be very diaastrous.

It may be the forerunner of railway legislation yet more radical, and it is well to give it a thorough test now, when we are strong enough to stand it.

#### The Rhode Island Result.

The news from Rhode Island grows better as the days lengthen, and now it is assured that, besides electing their governor, the Democrats have obtained control of the legislature by a majority of nine. This ensures them the full complement of state officers, and, if there was a United States senator to choose, that fat plum would also be theirs. It is not wonderful that the Democracy

of the state are celebrating their victory in a manner proportionate to its vastness. Since the organization of the Republican party, Rhode Island has ever been steadfast in that faith, and this complete revolution that has ensued there is as gratifying to the Democrats as it is paralyzing to the Republicans.

Far-seeing politicians see in this straw the beginning of a mighty wind that is ing to blow for Cleveland next year from New England's hitherto inhospitable shore.

#### An Exceptional Woman.

It is not often that man or woman rises to the sublime height reached by the late Catharine Lorillard Wolfe, of New York, who has just died, leaving large sums of money to public and religious charities. She was a deeply religious woman to whom her church was a first consideration, as is shown by her bequest of \$350,000 to the rector, wardens and vestrymen of Grace Episcopal church, New York, the income to be devoted to its maintenance.

After providing for affairs of spiritual concern, she forgets not the general public weal. Her valuable collection of paintings goes to the New York Metropolitan sum and she leaves to her executors in private \$260,000 with instructions what to do in regard to carrying out their trust.

And so unnumbered thousands, in the great church and splendid museum she has strengthened, will live to gratefully recall the memory of the wealthy woman whose whole life was spent in the betterment of

#### Does It Mean a Union !

There was a significant deliverance by he Knights of Labor at their Harrisburg evention a few days ago when the followg resolution was adopted :

WHERMAS, The farmers of this common-wealth are suffering from unjust and unequal taxation, which is cripping one of Fennayivania's greatest industries, Resolved, That this convention recognizes the vast agricultural interests of our state, and pledges itself to support any just meas-ter in their behalf.

Does this mean a union between the Knights of Labor and the Grangers? If every grange in the country becomes a local assembly of the Knights of Labor,

the union will be one of the most signifisant and far-reaching of recent times. A Case for the Coroner. If it is the business of the coroner to in-restigate suspicious deaths, why is it that so official netice has been taken of the lading of the body of a dead infant in the

superfluous on the stage," his death occur-ring while he was apparently good for many years before the footlights. He did not live to see his powers wane, and feel that the time had gone by for their recuperation. He chased in his work many a frown from the face of care, and a good portion of the world was better-humored for his having lived in it. There will be keen regret at his taking off, especially in this city, where he was always a great dramatic favorite.

THE world is moving. Joseph Smith, president of the Church of Latter Day Saints, preached a sermon against polygamy in Kirt-land, Ohio, on Sunday.

JUDGE PEARSON CHURCH, in the equity court of Crawford county, has decided that the acceptance by a physician of the agency for a hair tonic is not sufficient reason for expulsion from a medical society. In his opin-ion delivered Judge Church, pronouncing the expulsion vote of the Crawford County Medical society vold, says :

The court of common pleas has plenary power in the control of all unincorporated associations, and like power to prevent and restrain the commission and continuance of strain the commission and continuance of acts contrary to law and prejudicial to the rights of individuals. The governing laws of such a body, while they may be unfair or despotic, yet must be reasonable and not ab-surd; they must not violate natural rights and they must not be repugnant to the constitution or the laws of the state. The association itself must follow and obey its own laws and rules. If an association keep within these bounds, courts of justice will not interiere with its courts of justice will not interfere with its edicts and decrees; even if they are arbitrary and tyrannical; yet courts of justice have such a supervision over it as to inquire whether or not any specific action is within or without the boundaries of law and reason. The plaintiff has not been guilty of violating any of the laws of the society of which he was a member; the charges and specifications are of a very trifling nature, and not worthy the serious attention of gentlemen of the position and reputation of these defendants. The point was largely one of eliquette and casuistry.

#### VICTORY IN RHODE ISLAND. The Democrats Elect Their Ticket in Newpor

and Win the Legislature. The Rhode Island battle has been fought and a Democratic victory won. The four Republican assemblymen who failed of an election on Wednesday went before a mixed convention of Republicans and Prohibitionists Friday, where an effort was made to unite on one set of candidates. Senato Sanborn, Republican, desiring harmony and party success, would not run again, and this, in the estimation of the Democrats, saved them, for Sanborn is by far the strongest Republican in Newport. When it became known that another Republican had been

known that another Republican had been nominated for senator in Sanborn's place, the Damocrats were jubilant, and have carried their enthusiasm to a grand success.

Despite the excitement incident to Wednesday's annual election, nearly a hundred more votes were cast Saturday. William J. Underwood, Democrat, deleated Thomas Coggeshall, Republican, for senator by 36 votes. For the assembly, John H. Crosby, jr., Democrat, got 44 more votes than Wm. fownsend. Republican; Gen. Arnold L. Burdick. Democrat, beat W. P. Sheffield, jr., by 43 vetes, and Dalton E. Young, Democrat, defeated William B. Franklin, Republican Prohibitionist, by 149 votes.

The Democrats are wildly celebrating their victory, and well they might, for such a one has not been theirs for over thirty years. Both parties fought bravely. The Democrats in joint legislative convention, will now elect Honey lieutenant governor and McGuiness secretary of state, and will probably turn out judges, clerks and sheriffs throughout the state. The victors deserve the spoils. East Greenwich elects one Democratic representative and Warwick one Republican representative, making the Senate stand 19 Republicans and 15 Democrats, and the House 28 Republicans and 41 Democrats, or 47 to 56 in grand committee in favor of the Democrats.

#### An Old War Clater.

Harrisburg Corr. Philadelphia Record. The House has passed a bill for the payment to Henry Mulien, of Lancaster county, for his services as first lieutenant in the United States army from June, 1864, to May, 1865; and thereby hangs a tale. Mr. Mulien has had a claim at Washington for nearly two decades for pay which he alleges was due for the period referred to. The national government has two or three times passed and reconsidered bills for his reitef, and finally intimated that if the state would adjust the claim, find it a proper one and payit, the national government would reimburse the state therefor. Mulien enlisted in April, 1862. In the Fifth regiment of the Reserve Corps. He re-enlisted in the field in 1864. In 1864 he was made lieutenant of Company A, 191st regiment. On account of movements in the field the notice of his appointment did not reach Governor Curtin until after the entire regiment was captured on the 19th of August, 1864, in front of Petersburg. Lieut Mulien could not be mustered in until after his exchange and his return to his regiment in May, 1865. The interest attached to this claim is that it has been persistently before Congress for twenty years, and now, for the first time, has been recognized by the state. ment to Henry Mulien, of Lancaster county,

JOHN T. BATMOND DRAD.

Metaschoty Puting or Evansville, Ind., or "Colonel Sellon" Southern Teer.

At Evansville, Ind., John T. Raymond, the colebrated actor, died at 1:15 o'clock Sun. day morning. He arrived from the South on Friday afternoon quite iii from intestinal disorder, complicated with heart trouble. About midnight Saturday night he commenced failing rapidly, and became uncon-scious. He was attended by members of his company, who are grief-stricken over the company, who are grief-stricted over the said occurrence. Mr. Raymond's family live in New York. The remains were sent to New York at 6 o'clock Sunday evening. John T. Raymond was one of the moet widely known of American actors. He was of Irish descent, his name having been changed to Raymond from O'Brien. He was about 52 years o'd, and had occupied a prominent position as a character comedian in this inent position as a character comedian in this country for fifteen years, and had also appeared in London with a fair share of success. Mr. Raymond's success dated from the production of a dramatization of Mark Twain's "Gilded Age." As Colonel Setters the actor created a character which hit the public fancy, and after some changes and emendations the play was taken on the road, and brought Raymond both fame and fortune. Since securing his position as a favorite comedian he had tried many new plays, keeping closely to the line of characters for which he was best adapted. He appeared successfully in "Fresh, the American," "In Paradise," "For Congress," "The Magistrate," one of Pinero's comedies, and "The Woman Hater." His last appearance in Philadelphia was in the nent position as a character comedian in this last appearance in Philadelphia was in the latter play at the Walnut street theatre during the Christmas holiday week. He was to have produced his latest play, "A Gold Mine," by Brander Matthews and George Jesep, at the Wainut on May 16.

Mine," by Brander Matthews and George Jessop, at the Wainut on May 16.

Mr. Raymond was twice married; first to the actress Marie Gordon, from whom he was divorced at Brooklyn in September, 1873, on the lady's application. On April 11, 1881, he married Miss Courtney Barnes, daughter of Rose Eytings, the ceremony being performed in Parlor C of the Continental hotel, in Phila delphia. This last union was a happy one, and Raymond fairly idolized his wife and family, who live in a pleasant home in New Tork city.

Raymond was very popular among his professional brethren as well as with the public, and from his propensity for practical lokes and for matching coins many humorous incidents have sprung. He expressed distrust of his Southern trip during the winter, and said that he feared the effects of the climate upon his system, which was

The Same Human Nature. Many vain attempts are made to repeat the remarkable success of Benson's Capcine Plaster. This spiendid remedy is known, soid and used everywhere, and its prompt action and unrivalled curative powers have won for it hosts of triends. Imitations have sprung up under similar sounding names, such as "Capstin," "Capsicum," etc., intended to deceive the careless and unwary. These articles possess none of the virtues of the genuine. Therefore we hope the people will assist us to protect what are at once their interests and ours. Ask for Benson's Plaster, and examine what is given you, and make sure that the word "Capcine" is cut in the middle of the plaster itself, and the "Three Seals" trademark is on the face cloth. Any reputable dealer will show you the safeguards without hesitation. If you cannot remember the name—Benson's Capcine Plaster—cut this paragraph from the paper. BUPTURE CURED. CLINTON, CLINTON CO., IOWA, March 26, 1886.
About nine years ago I was attacked with a severe cutting pain in my left side. I screamed at times with agony. No remedies availed until I placed an ALLOCK'S PLASTER over the seat of pain. I wore ih: Plaster ten days, the pain decreasing every day until I was cured. My daughter was ruptured just above the navel when only three months old. She suffered little until she began to walk. The treatment of physicians appeared only to aggravate her case. I procured appeared only to aggravate her case. I procured an Allocks's Posous Plaster and cut it in three pieces Ore I applied over the rupture. It acted perfectly. At the end of ten days I washed the place with a little alcohol and put on a fresh piece. I used atterwards two more pieces, and atter forty days the child was entirely well. I have never found any Plasters equal to ALL cock's. E. W. MEAD.
