TRIEGRAPHING BY SBA. Thomas Edison Returns Home From Florida Talks About His Recent Experiments.

Thomas A. Edison, the famous electrician. has returned from his three months trip to Florida and his now with his family at his beautiful residence in Llewellyn park, West Orange, N. J. Mr. Edison looks robust and healthy and says he has succeeded in ridding previous to his departure. The story about Mr. Edison's eyes beginning to fail him was certainly a fiction, and yesterday afternoon in the midst of his happy little family he talked to a reporter with a bright light in as merry a pair of eyes as anybody would wish

"I went South mostly for my health," the wizard said, "but I did a little experiment-ing. I shall probably now remain home all "What kind of experiments did you make

"What kind of experiments did you make white in Florida?"

"I experimented mostly on telegraphing by see, but have not gone far enough yet to make known the progress I have made. My experiments gave me satisfaction, however, and next year I think I will have the work completed. I have experimented both by electrical and mechanical processes. It is an excellent place down there for such work. The waters are calm and not deep, with an unbroken stretch of at least twenty miles. I think the time will come when vessels at see can talk to each other at distances of twenty miles. The talking will be done by means of dots and signs, and anybody can understand them."

"Do you think the time will come when a man in America can talk by telephone to a man in Europe?"

"A discovery will first have to be made. It is almost impossible to talk twenty mites by sea now. A man cannot talk over a wire from Broadway, New York, to Coney Island and be heard with distinctness. It now requires all the electrician's skill to make even that connection. The difficulty even that connection. The difficulty squares itself in making connection by sea. squares itself in making connection by sea. If it required a certain amount of skilt to get up telephonic communication between New York and Coney Island, say twenty miles, it would require the square of that skill to get it up on another twenty miles, so that it would be about one million times as difficult to taik from America to Europe as from New York to Coney Island.

"The cause of the difficulty is on account of the great induction. The wires stretched

"The cause of the difficulty is on account of the great induction. The wires atteched across the country are not near the earth. There is an induction between the wire and the earth and the nearer the wire is to the earth the greater the induction. The wires that go across the ocean are very near the earth, causing great induction. It will be a long time before any good telophoning by sea will be done and, as I said, some new discovery will have to be made."

The Mayor Committe All Mis Subjects

The mayor had only four cases to dispose of this morning, but what they lacked in number they made up in interest. Number one was James McTague, who was so drunk that he had to be carried to the station house. His only excuse was that one drink of whisky was the cause of his condition. His honor remarked that it must have been a big one and it would take a long time to get rid of that one drink, and his sentence was made

thirty days. Number two was Jimmy Quinn. It was his first appearance at the mayor's court for several months, and his defense was a novel one. He denied having been drunk, and his story was that he was examined for deafness, and the instrument inserted into his head made him giddy, and the officer imagined be was drunk. Under the circummagined he was drunk. tances the mayor made his sentence fortyeight hours.

Number three was Hattle Wilson. She was found on Rockland street at an early hour this morning promenading on that thoroughfare, by Officer Beechler. Hattie admitted that she was drunk. Her appearance was not prepossessing. Both her eyes were in mourning and looked as it some one had got in their work most effectually on those organa. The mayor after hearing the eviher thirty days at her last appearance. Hattie corrected his honor by informing him that her last dose was 60 days. The mayor thought 90 days was a proper punishment this time, and that was her sentence.

Number four was the orator, Col. Robert Paggart. He started in to make a speech to he mayor, but his remarks were cut short by the mayor saving, five days. The colonel costs, as he had made engagements to travel the county in the interest of both factions in the coming primary, but the mayor's hard heart would not reient, and the colonel will

The parties arrested while having a row in Mifflin street one day last week were heard being drunk and disorderly they were sent to jail as follows: Reuben Hutton, George Harple, George, better known as "Cotty," Hoover and Albert Green each 30 days; Rebecca McLain 5 days; Susan Stackhouse 20 days and Elizabeth Hoover 2 days. The charge of resisting an officer against Green and that of keeping a disorderly house against George Hoover were held under advisement. Fred Wettig was discharged on payment of costs.

Before Alderman Barr. George Breckel has been prosecuted before Alderman Barr for assaulting his stepmother. In default of ball he was committed for a hearing.

Swindled of \$1 000

It was stated recently that the three men who hired two teams in York and abandoned them at Shenk's ferry were polished gentle-men, and had no intention of stealing the liveryman's property. They are now known to have had "queer" business in that locality On the road from York to Gien Rock they met Emanuel Davinney, who was eager t est his lack in their lottery. The crooks left Mr. Devinney after securing \$1,000 of his money. Devinney did not return home, but went to Steelton, Dauphin county, where a friend found him nearly crazy.

Chorus - "Alwa Virgo," (Campana). Solo by Miss Leila Beat - Choirs of St. Anthony and St. Joseph Churches. Krminie Selection - (Tobani), Prof. C. Thor-bahn's Orchestra.

It was a brilliant musical event, and the work was enthusiastically applauded by the audience. The orchestra showed the most careful training, and its eleven members played as one. The skill of the young handling the first violin was par ticularly noticeable. The solid choruses of the Mænnerchor attracted the usual plaudite and the members thereof gained local laurels. Mrs. M. Matz sang in charming style and her daughter developed quite a large degree of talent as an amateur recitationist. Prof. Thorbahn's clarionet solo was one of the gems of the evening. In the Laudate Pueri" a fine chorus was heard along with H. Drachbar's clear sweet tenor voice. The high school choruses were very Drachbar captured the audience by his pathetic F. Sener was to have sung, "Ernani, Fly With me," but Prof. Matz announced that illness prevented, and the orchestra filled in this gap with a fine selection. Miss Leila Bear's fine sopano voice was heard in the "Alma Virgo," which the joint church choirs assisted in. The eve. ning of harmony closed with selections from "Erminie" rendered in fine style by the orchestra. All in all, it was one of the finest concerts that has been given in this town for a long time, and Prof. Maiz, who conducted

BARNUM'S BIG SHOW It Will Be in Lancaster on Saturday, May 14th For more than 50 years past P. T. Barnum has been before the public catering to their amuse ment and instruction, and during that time h has been the originator and manager of nearly all the largest public enterprises in this country. All his past achievements, however, are dwarfed by comparison with his present enormous enhibition, and which in its entirety will be in Lancaster on Sturday, May 14th. His this year's show, comprised under the name of the United Barnus and London Shows, consists of nine nmensely large exhibitions in one, with three full ctreus companies in three rings a museum of living wonders, two double menageries, a big elevated stage, the great Roman hippodrome, reproduction of Jumbo; Alice, Jumbo's widow; the ivo. y boned elephant skeleton, the mascots Captain Paul Boyton's aquatic performances in specially constructed lake of clear water; the flying symmasium, etc—and is transported upon a railroad-train a mile long; has 8.0 people on its pay-roll; requires a tent covering ten cres, seating 20,000 persons, with two other tents each 300 feet long. Herds of el-phants, cameis, 500 horses, 130 ponies, and hundreds of other wild animals are under other huge canvases. In exhibiting this overwhelming collection novelties-in which lo acts of a daring kind are shown-Barnum has well sustained his title of the "prince of showmen," for in his line he has so equal. In addition to the attractions menioned there are the thrilling Roman charles races, male and female jockey races, hurdle, flat, and steep'e-chase ruces, and many other kinds of sports and contests. Besides all this there will be a grand equestrian entertainment, in which a great many European sensations will be introduced. The entire exhibition is one of the most exciting character, and entirely novel in every respect. The monster parade will take piace in the morning at 8 o'clock. Itd&w
