Beer is the cheaper drink and of less concentrated intoxicated power. The supposition is that the public good is furthered by the substitution of beer for whisky as a beverage; and if so its sale should be more lightly taxed. But on the other hand a cheap beer license causes the sale of whisky surreptitiously in the beer saloons, and furthermore, it is hardly the fact that the adulterated beer which is so generally sold is wholesomer than even poor There is no doubt that they are anxious that whisky. He wants to know why this policy is not as good for children as for students of medicine, whose minds are supposed to be already formed and trained.

struction is simply wearing out the minds of children, at least of a large majority of them, and he compares its effect upon the brain to that on the eyes of a person who should spend six hours in looking alternately through a telescope and a microscope, giving a few minutes to each. His sight would surely be injured. Yet children are required to fix the whole force of their half-matured brains upon a great variety of things totally unlike, and at the end of the day the result must be in many cases a hopeless confusion.

The Municipal Bills

Let the legislature detest the present bills, and authorize the governor to appoint a commission of experienced gentlemen in municipal affairs, restricted to draft an act laving down general principles only, similar in nature to our constitution, applicable, alike, to all the cities of the state, defining in short and simple terms, what are the powers of the executive, fluancial and legislative depart-ments, and leave all other things to the counments, and leave an other things to the councils for legislation. Then each city can pass such ordinances as the wants of their several localities need, not included in the board, comprehensive and fundamental powers given to the other departments.

About twenty years ago I discovered a little sore on my cheek, and the doctors pronounced it cancer. I have tried a number of physicians, but without receiving any permanent Among the number were one or two specialists. The medicine they applied was like fire to the sore, causing intense pain. I saw a statemen in the papers telling what S. S. S. had done for others similarly afflicted. I procured some at once. Before I had used the second bottle the neighbors could notice that my cancer was healing up. My general health had been bad for two or three years—I had a hacking cough and spit blood continually. I had a severe pain in my breast. After taking siq bottles of S. S. S. my cough left me and I grew stouter than I had been for several years. My cancer has healed over all but a little spot about the size of a half dime, and is rapidly disappearing. 1 would advise every one with cancer to give S. S. S. a fair trial. MRS. NANCY MCCUNAUGHEY. The latest conclusion of the Senate is to make the beer license the same as the whisky license. What the final decision will be is quite uncertain and what the ne will say about it when it gets the sance cannot be foretold. In truth it is doubtful whether or no we will have any odification at all of the license laws. The Republican majority is being led apparently by its leaders in that direction. at they do not always go the way they face. Their disposition to crab-like progression is very marked. Brother Cooper ends to be a hot friend of high license, and perhaps he is; but he is such an educated liar that his words do not conclusively testify to the fact. The Republican managers are seemingly in the throes of delivery over another old matter, the apportionment of the state party stomach for many years. It has not yet been able to digest it, and is not likely at this season to dispose of the pressional apportionment; which will

For astance, the children who take part in religious services cannot be expected to understand the great things they hear, or even to consider questions that puzzle their iders, but no one will doubt that the ions produced and lines remembered, are useful for mature thought later in life. This is an important point, but does not non to weaken the argument against a licity of studies. Gov. Alger Offered \$90,000.

Ex Gov. Alger, of Michigan, while in Paris last summer, saw Munkacsy's painting, "Christ Before Pilate," and on its arrival in

New York he offered Munkacey's agent, Mr. Hedeimeyer, \$60,000 for it. The offer was refused. Mr. Alger and Mr. Hedeimeyer sherward met in Detroit, and Mr. Alger offered \$60,000, which was accepted. A con-

tract for the delivery of the picture was drawn up and signed, and Gov. Alger paid \$2,500 to bind the bargain. The picture was to have been forwarded to him on his return from a trip to California and Mexico. Gov. Alger has a fondness for Munkacsy's paintings, and had already bought "Kittens" at a cost of \$8,000 by the same artist. While on his way to California he received a telegram from Mr. Sedelmeyer stating that the painting had been sold without his, Sedelmeyer's, knowledge to Wannamaker, of Philadelphis, for \$100,000, and he offered the governor \$3,000 for a release. This was declined. Mr. Alger finally let Sedelmeyer off on the payment of \$8,000, the price he had paid for "Kittens," and Detroft lost "Christ Before Pilate," which Gov. Alger proposed to put in the new art gallery as a gift to the people of that city. It is stated that Gov. Alger has now offered \$45,000 for Munkacsy's "Last Days of Mozart," but that it is held at \$50,000.
