This matter of appraisers' fees in liquor s shows how very great an effect is ed upon the administration of the w by the fees of officials. It will hardly ed that the appraiser's service under new law in the matter of licenses is ely nothing. Nothing is given him do save to collect a fee of two and a-haif s for each license granted. This was was him as a compensation for the loss of fee of one dollar received by him under present law, nominally for appraising business done by the licensed taverns. cally he has done nothing under the t law but to yearly return a list of need places, at the same valuation year, and one that he knows to be rossly inadequate. We publish elsewhere a communication from Mr. James G. He ranks it now as for protection. Mr. McSparran admires the position of the Philadelphia Record, but says we belie the Record when we say it is for free trade; it simply resists tariff robbery, as Samuel J.
