- "SEEN NODDLY TO MR."
 I'm but an auld body
 Livin' up in Deceade,
 In a twa-room'd bit hoosie
 Wi' a toois' beside.
 Wi' my coo and my gramphy
 I'm as heppy 's a bee,
 But I'm far proces noo
 Since she noddit to me!
- I'm nee one far past wits—
 I'm gey trig and hail;
 Can prant twa-three fawties,
 An' look actor my hail;
 And when our queen passes
 I gang out to see,
 Win by luck she might notice
 And nod out to me;
- But I've aye been unlucky, and the blinds were are doon, Till last week the time O' her versit cam' roon.
- I waved my bit apron
 As brisk 's I could dae,
- An' the queen lauch'd fu' kindly, An' noddit to me ! My son sleeps in Egypt-
- It's nac use to freit— An' yet when I think o't I'm sair like to greet. She may feel for my sorrow,
 She's a mither, ye see —
 An' maybe she kent o't
 When she noddit to me!

To Detect Hogue Butter

A good deal of scientific work has been done in the effort to find out good tests for bogus butter. What has been published in your country, in the report of the department of agriculture for the year of 1886, by Dr. Thoa. Taylor, is very interesting, but not sufficient. Some of the states of the Union ont. Some of the states of the Union have now very stringent laws against the selling of bogus butter under a false name. Also in Europe nearly all the states have such bills, or at least considering such laws. The weakest point everywhere is the quick detection of bogue butter.

The weakest point everywhere is the quick detection of bogus butter.

In Germany, where a bill against bogue butter has been introduced in the House of Representatives, chemical tests are ignored, and the plan is to enact that all bogus butter must be colored, before leaving the factory, with a color quite different from that of cow butter. One has made trials in coloring such butter. First, it worked badly, but only as long as one attempted to color the finished butter—the coloring of bogus butter by coloring the milk added during the preparation, proved quite successful. The committee of the German House of Representatives considering the question, has however refused the attempt to make it a law that bogus butter must be colored by a vote of 12 to 12.

Prof. Soxhiet, of Munich, has proposed new treatment which is worthy of attention. He proposes—and his proposition will be offered to the House of Representatives in Germany—to make it a law that all bogus butter must be mixed during the preparation with phenol-phtalein, which is made out of tar, and one gramme of to gus butter. The butter can then be offered for sale colored yellow, or uncolored, or in any way desired, and the phenol-phtalein will not be seen at all. But by adding a solution of soda, or ammonia and water (liquor ammonic caustici), or even a teaspoonlui of water and the sah of a cigar, to a poice of butter the size of a bean, the whole of the butter will become a nice red if to a piece of butter the size of a bean, the whole of the butter will become a nice red if it is bogus butter or if bogus butter is mixed

It will be immediately seen that this is a proof which can be made by every policeman in any shop, by every guest in a dining room, etc. In your country it would be easy to en-act that no butter shall go out of the factories to which has not been added the phenoi-phtalein. The internal revenue officers, which have to deal, since the first of November, 1886, with bogus butter, could very easily look at this point also.

tienr the Way loss of time, when the intestinal canal is blocked up by reason of constipation, chronic or temporary. It should be borne in mind that this ailment is prone to become last-

ing and obstinate, and breed other and worse complaints. Hostetter's Stomach Bitters is the precise remedy to remove the obstruction effectually, but without drenching or weakening the blockaded bowels, a consequence always to be apprehended from the use of always to be apprehended from the use of violent laxatives, which are among the most pernicious of the cheap nostrums swallowed by the credulous and misinformed. The flat of experience, and of the medical fraternity, sanctions the claims of this standard aperient. Not only as a source of reiler and permanent regularity to the bowels, liver and stomach, but as a means of remedying and preventing kidney and bladder troubles, and fever and ague, it is without a peer.

The opinion of an old and well known mer-chant is given in a few words, viz: "I think Dr Bull's Cough Sycup is the best cough medicine that is made." LUTHER B. BLACK, Belma, Ind. "Diseased nature oftentimes breaks forth in strange cruptions," and the result of it all is pain. Now Salvation Oil will send the pain to the right about at the triffing cost of only 25 cts

TRUE ESTIMATE OF VALUE. Remember that when we assert the value of BRANDARTH'S PILLS We at the same time refer you to the thousand of testimonials we have published supporting all and even more than we claim. The best evidence of their value lies in these testimonials. The Pills have been in use in this country for over fifty years and in that time have surely been well tested. We never heard complaint of them. They are harmless, being vegetable, and always do their work well.

Or Black Leprosy, is a disease which is considered incurable, but it has yielded to the curative properties of Swipr Spacrice—now known all over the world as S. S. Mrs. Balley, of West Somerville, Mass., near Boston, was attacked several years ago with this hideous biase cruption, and was treated by the best medical talent, who could only say that the disease was a species of

-LEPROSY-

and consequently incurable. It is impossible to describe her sufferings. Her body from the crown of her head to the soles of her test was a mass of decay, masses of fiesh rotting off and leaving great cavities. Her fingers fastered and three or four nails dropped off at one time. Her limbs contracted by the fearful ulceration, and for several years she did not leave her bed. Her weight was reduced from 125 to \$0 lbs. Ferhaps some faint idea of her condition can be gleaned from the fact that three pounds of Cosmoline or ontiment were used per week in dressing her sores. Finally the physicians acknowledged the sufferer to her all-wise Creator.

Her husband hearing wonderful reports of the use of fiwirs's Spacific (\$ 5.5), prevalled on her to try it as a last resort. She began its use under protest, but soon found that her system was being relieved of the poison, as the sores assumed a red and healthy color, as though the blood was becoming pure and active. Hradiey continued the S. S. until last February; every sore was healed; she discarded chair and crutohes, and was for the first time in twelve years a well woman. Her husband, Mr. C. A. Bailey, is in business at 17% Blackstone street, Realiey on Blood and ekin Discases, mailed tree.
