DE FOR OR THE WEATHER.

People Arranging for Pientes and Exem Weather Prophet A. J. De Voe writes from Hackensack, N. J., under date of June 8: Hackensack, N. J., under date of June 8:

The present outlook of the weather is very encouraging to the farmers. The dry weather has not seriously affected the crops, and the recent rains have restored the grass. The present indications are that we will have abundance of rain up to the latter part of August and in some sections entirely too much. There are two periods each month when heavy rains will fall in some parts of the United States, and during the present month these periods occur from the 8th to the lith and from the 22d to the 25th. And to tell in just which states it will be the most severe requires a careful calculation, which I can only partially make during the month of June; but after this month I will be able to figure out the audden changes down to a figure out the sudden changes down to

This is the month when people are arrang-This is the month when people are arranging for pienies and excursions. Some prefer cool days and others hot days, so I will give an outline of the present indications and your readers can prepare their schedules for their pleasure trips: The E2th, 13th and 14th, cloudy, rather cool: 15th and 16th, warm and pleasant: 17th and 18th, very warm, with thunder: 19th, 20th and 21st, partly cloudy, pleasant weather: 224 and 23d, very close and sultry, thunder showers approaching: 24th and 23th, the hottest weather for this month, with heavy showers, followed by a very sudden fall in the temperature: and the 27th, the day set for the editors' excursion, will be decidedly cool, but clear, ture; and the 27th, the day set for the editors' excursion, will be decidedly cool, but clear, with a brisk northwest wind and overcosts will feel comfortable. On the 28th the wind and 30 h a cold northeast; and on the 29th and 30 h a cold northeast storm will prevail along the Atlantic coast and July will enter clear and pleasant and the 4th will be partly cloudy with a moderate temperature, and on the 7th and 8th very heavy thunder showers will occur. will occur.

Woman's Era.

Victor Hugo said that the coming era was woman's era. What does that mean? That women shall be petted, that they shall work harder, longer hours, for less pay than men, that they shall be allowed to wear ruffles, lacer, sike and sating to their hearts' con-tent? No, none of these weaknesses and wrongs was connected with the thought of this great humanitarian writer. What he this great humanitarian writer. What he meent was, that the spiritual is in the ascendant; that we are outgrowing barbaris legislation; that woman must take her place at man's side in government, in ner paces a man sade in government, in seience, in art, in business, in all the profession. It means that the world has far enough advanced, and that woman, without rake to her womanliness, without danger to ner purity, can and must step out of her narrow sphere: that she must take upon herseif greater responsibilities than ever before; that she must guide and direct man's en-ergies to noble fields and worther aims than ever before. To strengthen her for this nest arduous work she dare no longer sub to disfranchisement and subjection mit to disfranchisement and surjection. At disfranchised class may get induigence, but does command no respect, no bearing no lasting influence. We need woman suffrage, not for woman's protection only, but for man's higher development, for the sake of justice, right and truth.

BLACK WOLF

Or Flack Leprosy, is a disease which is considered incurable, but it has yielded to the curative properties of Swiff Spacific—now known all over the world as S. S. Mrs. Bailey, of West Somerville. Mass., near Boston, was attacked several years ago with this hideous black cruption, and was treated by the best medical talent, who could only say that the disease was a species of

-LEPROSY-

and consequently incurable. It is impossible to describe her sufferings. Her body from the crown of her head to the soles of her feet was a mass of decay, masses of flesh rotting off and leaving great cavities. Her fingers festered and three or four nails dropped off at one time. Her limbs contracted by the fearful ulceration, and for several years she did not leave her bed. Her weight was reduced from 12 to 60 lbs. Perhaps some faint idea of her condition can be gleaned from the fact that three pounds of Cosmoline or ointment were used per week in dressing her sores. Finally the physicians acknowledged their detect by this Black Woof, and commended their detect by this Black Woof, and commended the sufferer to her all-wise Creator.

Her hueband hearing wonderful reports of the use of Swirr's Specific (S. S. S.), prevalled on her to try it as a last resort. She began its use underpretect, but soon found that her system was being relieved of the poison, as the sores assumed a red and healthy color, as though the blood was becoming pure and active. Mrs. Balley continued the S. S. until last February; every sore was healed; the discarded chair and crutches, and was for the first time in twelve years a well woman. Her husband, Mr. C. A. Balley, is in business at 1716 Blackstone street, flowton, and will take pleasure in giving the details of this wonderful cure. Send to us for Teatise ou Blood and Skin Discases, mailed free.
