The surest way for sweet gfri graduates to get into print is to wear calico dresses on commencement day.—Lowell Citizen.

Lafayette college commencement begins with Baccalaureste day, Sunday, June 2s.

Mary Parsons Hankey was graduated from Columbia college, New York, last week. Her course in Columbia has extended over eight distinct languages—Latin, Greek, English, Angle-Saxon, French, German, Italian and Spanish, in all the requirements of the fullest course in each, the junior historical and political science, and the natural science, or a total of more than thirty subjects in letters and science acquired by herself in the predsing retirement of her own sanctum. mate nature and that any definite compound produced in the former can be prepared by synthesis as soon as its chemical constitution has been made out.

Prof. Thomas, of Little Rock, has a curious library. The covers of the books are of wood, each a different spectmen. They are made from white oak, red oak, black oak, chestnut, American besch, birch, red cedar, yellow pine, pitch pine, willow, poplar, cypress, "old field" or long-leaved pine, bois d'arc, black walnut, hickory (several varieties), white and red maple, box elder, black locust, black sumae, water locust, coffee bean, wild plum, holly, basswood, papaw, bay, umplum, holly, basswood, papaw, bay, umbrells, wild cherry, sweet gum, eim (several varieties), sycamore, witch hazel, butternut, pecan, hickory and twenty or more other woods.

Of the late Rev. T. S. Johnston, D. D.,

who died in Lebanon a day or two ago, the Lebanon News says that as secretary of the board of foreign missions of the Reformed church, "he made the mission in Japan es-pecially effective, visited different states in delivery of lectures to bring before the peo-ple the importance of the cause which he represented. Through his energy missiona-ries have been sent to Japan, schools opened and established at Sendai. His lectures were illustrated with Japanese handlwork and made doubly effective by the thorough knowledge he possessed of its people and the power with which he presented his favorite work. While still pastor of St. John's church he was elected a member of the school heard from the Third. school board from the Third ward, of this place. He at once identified himself with the cause of the public schools and was a prominent factor in their government. He was subsequently chosen as a member of the board of control from the Fifth ward under the city government, and was at its organiza-tion in June, 1886, elected president. At a reorganization of the board last Tuesday evening he was unanimously re-elected."

**BLACK WOLF** 

Or Black Leprosy, is a disease which is considered incurable, but it has yielded to the curative properties of Swiff Spacific—now known all over the world as S. S. Mrs. Balley, of West Somerville, Mass, near Boston, was attacked several years ago with this hideous black eruption, and was treated by the best medical talent, who could only say that the disease was a species of ---LEPROSY---

and consequently incurable. It is impossible to describe her sufferings. Her body from the crown of her head to the soles of her teet was a mass of decay, masses of flesh rotting off and leaving great cavities. Her flagers festered and three or four nails dropped off at one time. Her ilmbs contracted by the fearful ulceration, and for several years she did not leave her bed. Her weight was reduced from 125 to 60 lbs. Perhaps some faint idea of her condition can be gleaned from the fact that three pounds of Cosmoline or ointment were used per week in dressing her sores. Finally the physicians acknowledged their deteat by this Black Wo.f. and commended the sufferer to her all-wise Creator.

Her hu-band hearing wonderful reports of the use of 8 wirr's 8 rective (2, 8, 8), prevailed on her to try it as a last recort. She began it use under protect, but soon found that her system was being relieved of the poison, as the sores assumed a red and healthy color, as though the blood was becoming pure and active. Mrs. Salley continued the 8, 8 until last February; every sore was healed; she discavined chair and crutches, and was for the first time in twelve years a well woman. Her husband, Mr. C. A. Balley, is in business at 174 Blackstone street, Boaton, and will take pleasure in riving the details of this wonderful cure. Send to us for Teatise on Blood and skin Diseases, mailed free.
