BUBBING HUTBLE. A Thief Steals Money at Baker's Ephrata Hotel.

Thieves were at work on Friday night in the village of Ephrata. Both places visited by them were hotels. The first entered was irew Baker's, and the thief forced open the shutter on the north side of the building and raised the window. Money is all the thief was after, as nothing else was disturbed. There were between six and seven dollars in change in drawer and all was taken except two five-cent pieces with holes

The next place visited, it is supposed by he same thief, was the hotel of Davis Winters. The entrance was attempted the same way as at Baker's, but nothing was stolen. The lief is that the thief was scared away by the day breaking. Tracks leading from this hotel were measured and were 11 inches in length. He were no shoes.

The attention of investors is called to the stock of the Lancaster Steam Heating Company, offered for sale by Jacob B. Long, broker. This company, which will begin operations here during the coming Pail with a capital of \$10,000 in shares of \$50 cach, will be under the Holly system, adopted by the American District Steam Heating company, which has been found to work to absolute perfection in Williamsport, Wilkesbarre, Harrisburg, Beliefonte, Philipsburg and Bloomsburg, in this state, not to speak of New York and many other piaces in the country. Besides furnishing beat it is proposed to furnish power, as is successfully done in New York to the largest manufactories. The returns from this stock as an investment have been exceedingly profitable (in New York the last year the dividend having been 12 per cart.), and in our compactly built city it connot tall to pay better than in any of the above named cities of Pennsylvania.
