The Flag of the Nation

The flag restoration incident has given some Republican hotheads like Fairchild a chance to stir up sectional hate by his blood-curdling whine "paleied be the hand, etc."

The Attempt of the Republicans to Wrest the Event to their Purpose

The attempt of the Republicans to wrest the event to their purpose for party capital use has been blocked by the president's relegation of the whole transaction to Congress.

Natural Gas Reserves

The self-estimated expression of Pittsburg, as reflected in the daily press of that city, is a pleasant thing to behold; and it is also pleasing to watch the ecstatic huzzas that the average Pittsburger gives himself, now and then, as he reflects upon the beauties of natural gas.

But if the Efforts of Man are so Puny, how can he rely upon them to relieve this fearful pressure?

But if the efforts of man are so puny, how can he rely upon them to relieve this fearful pressure? The power to avert one danger argues the power to provoke the other.

Charges That Should Be Met

The New York Sun makes a savage attack on Mr. Powderly, general master workman of the Knights of Labor. It charges that he, in defiance of the constitution of the order, ruled in the Richmond convention last October that the convention had a perfect right to amend the constitution, though that constitution is said to require that every proposed amendment must first be submitted to the local assemblies, and this must be done sixty days prior to the meeting of the general assembly.

These are grave charges and should be promptly met by those against whom they are directed.

These are grave charges and should be promptly met by those against whom they are directed. They are made by a great newspaper which has never been accused of unfairness to the laboring classes. Mr. Powderly enjoys a high reputation for honesty, and it is inconceivable that he would be guilty of the base trickery with which he is now stoned charged.

Locomotives Run With Petroleum

Locomotives has at last been achieved in the effort to run locomotives with crude petroleum, and the announcement is hailed with joy by railroad men who have long looked forward to the use of this cheap fuel. It seems a little strange that this apparently simple problem has not been solved long ago.

There is little story of Colonel Markbreit, assistant treasurer of the United States at Cincinnati, that is worthy of the press.

The developments in this case indicate a source of danger from lead poisoning unsuspected. Giving a Signal Unmistakably. From the Oil City Derrick.

Those afflicted who dread that terrible illness, consumption, will be rejoiced to learn of a reported cure made by Dr. Kollischer, a Vienna physician, who has produced artificial calcification of tubercles by means of hypodermic injections of what he calls calcium phosphoricum.

The Rhode Island Democrats with a great battle of bugles started in to reform the miserable constitution of that state. But the season of the general assembly is ended and no result has been achieved.

It will never be known until that final day when Gabriel blows his trumpet how often the government is swindled under the benevolent pension scheme. It is now stated that the \$100,000 pension received by "Blind" Patterson, of Elmira, N. Y., is said to be a fraud upon the government and one of the parties to the deception has confessed.

PROF. THOMAS L. GRAHAM, principal of the high school at Wilmington, Del., who spent his boyhood days near McCall's Ferry, remembers how to have lain along the river shore about the middle of July.

KING OTTO, of Bavaria, the mad king, is fond of peasant shooting. But no peasants are killed, although his majesty fancies that he had brought down several. The way they manage the royal sport is very simple.

A fine hunting rifle is handed to the king and he immediately points himself in one of the directions of the rifle is loaded with a blank cartridge. A man is tried to point himself in a bucket and to emerge from it at a given signal. Immediately on his appearance a royal beam of light is directed upon him.

The king dies; the man falls and the servants put him upon a stretcher and carry him off, while his majesty rubs his hands in delight. The king receives a report from his physician in his application for another job. It is a fine thing to have a crazy king.
