Genealogy of the Mosquito.

From the Baltimore Sun.

The long cylindrical eggs of mosquitoes are laid in little pockets which float on the surface of standing water. In four weeks after hatching the insect passes through its transformations and becomes an enemy to man's comfort. The young mosquito, in the larvæ state, is aquatic, living like fish in ponds, lakes and stagnant water. It is fish-like in shape, with the head and adjoining parts much enlarged, and breathes by means of a bunch of hairs radiating from a long tubercle at the end of the body and connecting with the internal respiratory tubes. It remains most of the time after coming from the egg at the bottom, feeding upon decaying matter, and is thus very beneficial as a scavenger. Later it becomes very active, jerking up and down in the water, aided by a pair of broad caudal leaves. When observed constantly about the surface of the water it is a sure sign it is about to assume the full shape and powers of a mosquito. The aquatic animal is seen to crawl—a leaf or bit of twig—give a twist or two, split its covering, and in a short time put out wings and float away. The males, which may be distinguished by their bushy horns or feelers in front of their head, do not bite. It is the female who gives all the trouble—singing and biting. No poison gland has yet been found in the mosquito's head, and it is generally thought that the inflammation and swelling following the bite of mosquitoes are due to the irritation set up by their slightly barbed jaws and perhaps the saliva is slightly acrid. Under the microscope the soft, plastic foot of the mosquito is seen to be freckled. It may comfort those who suffer from the attack of these insects to know that mosquitoes have their personal trouble also, as the microscope shows vermin on them not unfrequently.

Is It a Wise Change?

From the Easton Express.

The Easton school board has adopted a new method of conducting the annual examinations of pupils, the good result of which will be rather questionable. No teacher is to examine his or her own pupils, but that duty is delegated to other teachers who know nothing about the peculiarities or merits of the scholars over whom they will have control during the several days of examination. Of course this arrangement will have no effect upon the glib-tongued and forward children, but it will prove disadvantageous to the timid, although meritorious scholars. They have become accustomed to their teachers through years of association, understand their methods and the teachers have learned the disposition of their pupils by daily contact with them, and having gained their confidence could obtain much better results during the trying ordeal of the annual examinations. It is argued on the other hand by some of the members of the board, that a pupil should be able to answer questions on the studies pursued, no matter by whom propounded. This is no doubt true, yet it does not do away with the fact that some little people are frightened by contact with strangers, and although perfect in their studies during the entire year, they might fail on a final examination for promotion, not because of lack of knowledge, but simply on account of the sudden change of teachers, whose methods and manner might be entirely different to what they were accustomed to.

Though Shaken Like a Leaf

By the most trivial causes, weak nerves are easily susceptible of invigoration, a term which also imports, in this instance, quietude. The nervous have but to use Hostetter's Stomach Bitters systematically, to overcome that super-sensitiveness of the human sensorium, which is subversive of all bodily comfort and mental tranquility, and which reacts most fearfully upon the system. The difficulty underlying this, as well as many other ailments, is imperfect assimilation, no less than incomplete digestion of the food. In the discharge of both the digestive and assimilative functions, the Bitters are the most potent, the most reliable auxiliary. As the body regains vigor and regularity by its aid, the brain and nervous system are also benefited. Persons subject to the influence of malaria, dyspeptic and rheumatic invalids, and persons whose kidneys are inactive, should, also, use the Bitters.

SPECIAL NOTICES.

Take Your Choice.

You can be weak, nervous, debilitated, and despondent, disqualified for work of head or hand, or you can enjoy a fair share of health and peace of mind. *Burdock Blood Bitters* will alleviate your misery and do you a world of good if you will but have faith to try. For sale by H. B. Cochran, druggist, 137 and 139 North Queen street, Lancaster.

Allow Us to Say

That a good deal of the suffering in this world can be avoided by purchasing *Dr. Thomas' Eclectric Oil*, and using it as per directions. It is an infallible cure for all aches, sprains and pains. For sale by H. B. Cochran, druggist, 137 and 139 North Queen street, Lancaster.

An Excellent Report

Hon. Jos. G. Goodridge, of Brooklyn, N. Y., writes this "Cannot express myself in sufficiently praiseworthy terms *Burdock Blood Bitters* have done me for the past two years; keep my stomach in splendid trim." For sale by H. B. Cochran, druggist, 137 and 139 North Queen street, Lancaster.

The Chinese Must Go.

And so must neuralgia and rheumatism, when *Dr. Thomas' Eclectric Oil* attacks them. This medicine is a marvelous product of ingenious thought. Buy it and try it. For sale by H. B. Cochran, druggist, 137 and 139 North Queen street, Lancaster.

Dr. Tanner's Stomach.

Dr. Tanner certainly has a great stomach—great because of its strength and endurance. We may err in saying that the doctor uses *Burdock Blood Bitters*, but if he does, his digestive powers are easily accounted for. "Burdock Blood Bitters" being a standard medicine are sold by all druggists. For sale by H. B. Cochran, druggist, 137 and 139 North Queen street, Lancaster.

A Baptist Minister's Experience.

"I am a Baptist minister, and before I ever thought of being a clergyman I graduated in medicine, but left a lucrative practice for my present profession, forty years ago. I was for many years a sufferer from quinsy. *Thomas' Eclectric Oil* cured me. I was also troubled with hoarseness, and *Thomas' Eclectric Oil* always relieved me. My wife and child had diphtheria, and *Thomas' Eclectric Oil* cured them, and if taken in time it will cure seven times out of ten. I am confident it is a cure for the most obstinate cold, or cough, and if any one will take a small teaspoon and half fill it with the *Oil*, and then place the end of the spoon in one nostril and draw the *Oil* out of the spoon into the head, by sniffing as hard as they can, until the *Oil* falls over into the throat, and practice it twice a week, I don't care how offensive their head may be, it will clean it out and cure their catarrh. For deafness and earache, it has done wonders to my certain knowledge. It is the only medicine dubbed patent medicine that I have ever felt like recommending, and I am very anxious to see it in every place, for I tell you that I would not be without it in my house for any consideration. I am now suffering with a pain like rheumatism in my right limb, and nothing relieves me like *Thomas' Eclectric Oil*." Dr. E. F. Crane, Corry, Pa.

Miraculous Escape.

W. W. Reed, druggist, of Winchester, Ind., writes: "One of my customers, Mrs. Louis Pike, Bartonia, Randolph county, Ind., was a long sufferer with Consumption, and was given up to die by her physicians. She heard of Dr. King's New Discovery for Consumption, and began buying it of me. In six months' time she walked to this city, a distance of six miles, and is now so much improved she has quit using it. She feels she owes her life to it."

HOOD'S SARSAPARILLA.

The Oft Told Story

Of the peculiar medicinal merits of Hood's Sarsaparilla is fully confirmed by the voluntary testimony of thousands who have tried it. Peculiar in the combination, proportion, and preparation of its ingredients, peculiar in the extreme care with which it is put up, Hood's Sarsaparilla accomplishes cures where other preparations entirely fail. Peculiar in the unequaled good name it has made at home, which is a "tower of strength abroad," peculiar in the phenomenal strength it has attained,

It can be given in a cup of coffee or tea without the knowledge of the person taking it; is absolutely harmless, and will effect a permanent and speedy cure, whether the patient is a moderate drinker or an alcoholic wreck. Thousands of drunkards have been made temperate men who have taken Golden Specific in their coffee without their knowledge, and to-day believe they quit drinking of their own free will. Indigestion and Dyspepsia.

A POTENT REMEDY FOR

Indigestion, Acute and Atonic Dyspepsia, Chronic and Gastro-Intestinal Catarrh, Vomiting in Pregnancy, Cholera Infantum, and in convalescence from Acute Diseases.

Over 500 physicians have sent to us the most flattering opinions upon Digestylin as a remedy for all diseases arising from improper digestion.

For 20 years we have manufactured the Digestive Ferments expressly for PHYSICIANS' use, and for the past year DIGESTYLIN has been by them extensively prescribed, and to day it stands without a rival as a digestive agent. It is not a secret remedy but a scientific preparation, the formula of which is plainly printed on each bottle. Its great DIGESTIVE POWER is created by a careful and proper treatment of the ferments in manufacture. It is very agreeable to the taste, and acceptable to the most delicate stomach. For the reliability of our statements we would respectfully refer to all Wholesale and Retail Druggists, and PHYSICIANS generally. Price $1.00 Sold by Druggists, or WM. F. BLACK WOLF

Or Black Leprosy, is a disease which is considered incurable, but it has yielded to the curative properties of SWIFT SPECIFIC—now known all over the world as S. S. S. Mrs. Bailey, of West Somerville, Mass., near Boston, was attacked several years ago with this hideous black eruption, and was treated by the best medical talent, who could only say that the disease was a species of

—LEPROSY—

and consequently incurable. It is impossible to describe her sufferings. Her body from the crown of her head to the soles of her feet was a mass of decay, masses of flesh rotting off and leaving great cavities. Her fingers festered and three or four nails dropped off at one time. Her limbs contracted by the fearful ulceration, and for several years she did not leave her bed. Her weight was reduced from 125 to 60 lbs. Perhaps some faint idea of her condition can be gleaned from the fact that three pounds of Cosmoline or ointment were used per week in dressing her sores. Finally the Physicians acknowledged their defeat by this Black Wolf, and commended the sufferer to her all-wise Creator.

Her husband hearing wonderful reports of the use of SWIFT'S SPECIFIC (S. S. S.), prevailed on her to try it as a last resort. She began its use under protest, but soon found that her system was being relieved of the poison, as the sores assumed a red and healthy color, as though the blood was becoming pure and active. Mrs. Bailey continued the S. S. S. until last February; every sore was healed; she discarded chair and crutches, and was for the first time in twelve years a well woman. Her husband, Mr. C. A. Bailey, is in business at 175½ Blackstone street, Boston, and will take pleasure in giving the details of this wonderful cure. Send to us for Treatise on Blood and Skin Diseases, mailed free.
