THE ALLEGED PRESIDE PRAUDS. and Valo to Bo Tried on the This

When and Valo to Be Tried on the Third Messay of August.

When we went to press on Wednesday afternoon the deciarations and depositions of Captain Joseph G. Vale and George Weiman, filed at the pension department, were being read by Special Examiner John S. Nadler, before United States Commissioner Kennedy, Vales deposition, taken as late as May of this year, sota forth that he saw Weiman wounded.

The next witness called was ex-Alderman McGlinn, and he testified that Weiman lived in the house with him in 1884, and on the atternoon of the 20th of September, while George Weimau was leaning on the barrel of his gun it was accidentally discharged and the contents entered his left fore arm, making an ugly wound and tearing out part of the bons. Dr. Henry Carpenter was called in and he dressed his wounds. Before the doc-tor's arrival witness was asked by Weiman to may to the doctor that he did not want his arm taken off, as he did not come to this country to become a pauper. The wound in the arm healed nicely and by spring Weiman was able to work.

Peter B. Fordney, the next witness called. was also an eye witness of the shooting, and be testified in substance the same as Alderpan McGlinn.

Postmaster Slavmaker testified that he was present when the man made and signed the decigration admitting that he had never been shot in the arm while in the army; that his arm was injured by the accidental discharge of a gun in 1854, and that he would not have sion if it had not been for Capt. Vale calling on him and urging him to do so, be (Vale) volunteering to make the affidavit that he had seen him wounded. This closed the testimony for the United

States, and Commissioner Kennedy an-nounced that he would hear any testimony that might be presented on behalf of the prisoners. Major Reinochl, their counsel, said he would not offer any at present, but would reserve their defense until the case was tried before the court and jury.

Commissioner Kennedy said that under the evidence presented he would have to hold the accused for trial. He fixed the ball at \$1,500 for each defendant for trial at Philadelphia, in the United States district court, on the third Monday of August. Weiman gave the same ball as for the hearing, Fred erick Ritchie, and Capt. Vale's bondsman Weiman, who was qualified to being the owner of property in this city sufficient to cover the above bond.

It is believed that Weiman intended to

skip last week. He called on a business man in this city and wanted to borrow \$100 to take a trip West. He was refused the money, and as he had no ready money he did not ge

THE STATE COLLEGE ASSOCIATION Their Final Exercises and Professor James

Address in the Court House On Wednesday afternoon papers were read in the college chapel before the State College association by Presidents Magili, of Swarthmore, and Apple, of Franklin and Marshall, on "The Proper Relation of Colleges to the Educational System of the State," and "The ides of the Higher Education." Greeting was sent to the State Teachers' association announcing their intention to meet with them

Owing to the threatening weather the as ociation did not find a large sudience assen bled in the court house last evening, but those who stayed away missed a most excellent emay and music of the best,

The exercises were opened by an overture by Miss Daisy Smaling and Mr. Walter Bausman. Prayer was then offered by Dr. James Mottat, of Washington and Jefferson, followed by the beautiful rendition of Rubinstein's "Yearning," by Miss Bechtold.

The compist of the evening, Prof. E. J. James was then introduced by Dr. Apple. ssor James appeared to embody a rare and strange combination of the vigor and vim of youth with the caution and learning that belong to venerable age. He spoke William Rochow, on Fifth street. Beattle rapidly and distinctly for about forty-five An abstract of this essay will be published in Saturday's INTELLIGENCER.

Dr. Apple thanked the essayist in the name of the association and called for remarks. The call was responded to by President Magill, of Swarthmore, Prot. Enoch Perrine. Dr. Max Hark and others.

A telegram was then read from the Penn-sylvania State Teachers' association in reply to a message sent to them earlier in the day. It announced that Scranton would be the place of meeting in July of next year, and that they would be glad to co-operate with the College association. At a special meeting of the college committee the time and place were agreed to. A resolution of thanks was passed by the visitors for the bospitality ex-tended to them.

The audience then passed resolutions warmly thanking the ladies and gentlemen who had contributed so largely to the entertainment by music.

Miss Bechtold in an admirable manner sung "Sognai," by Schira, and after a prayer and benediction by the president, the meeting adjourned.

St. Francis college of Loretto, and Allegheny college of Meadville, were admitted to the association on motion, as their delegates, who were unable to be present, had expressed a wish to join the association

Sheet Copper Cornices.

To-day the Lancaster cornice works, Duke street above Chestnut, shipped to Harrisburg for use on the new passenger station of the Pennsylvania railroad, in that city, an immense amount of exquisitely wrought sheet copper work, the equal of which is not to be een elsewhere in the United States. The work consists of six dormer windows and cornices, each of different design and all wrought artistically in vines, leaves, cornucopias, scrolla, medallions, &c. Each of the six dormer windows are 22 feet in length and of proportionate height. The casings, sills, lintels and cornices of these immense gable windows are all of sheet copper, and were manufactured under direction of J. L. Arnold. This is an entirely new business in this country, and the elegance of the work turned out certainly reflects great credit on

Before the work was shipped to Harrisburg, the more artistic portions of it were photographed by B. Frank Saylor. The work will be very soon placed in position at Harrisburg. It will not be painted—the copper after being exposed for a time to the ther will seeume a dark bronze bue, and will be practically indestructible.

At the Grand Opera House.

At the Grand opera house last evening the audience present at the second presentation of "Lady Audiey's Secret" was small. The performance, with Miss Adele Carleton in the leading character, was very good. The support given her is strong. George H. Hamilton appeared in a sketch and pleased the people. This evening Louis Aldrich's play "My Partner" will be given with Miss Carleton and Messra. Rowe, Barrymore and Todd in the cast. A Fine Crop of Wheat.

John Rebman, auctioneer, who has traveled over half the county within the past few weeks, tells us that the wheat in most places is light and will not perhaps yield over litteen bushels to the zero. There are a few exceptions where the grain is heavy. The finest crop in the county, he thinks, is that of B. J. McGrann, near this city, who has a field of twenty-five acres that will yield forty bushels to the zero.

PERU, Ind., July 7.—At 10 o'clock Wednes-day morning Dr. E. B. North, chief surgeon of the Webseh railway hospital, was called to see James Christian who, his wife said, had shot himself. The doctor and his attendant burried to the Christian house, a few rods distant. Looking through the cracks in the woodshed they saw Christian's appar-ently lifetees body. Hestily opening the door, the doctor stepped in, when Chris-tian sprang to his feet with an oath and pulled s big navy revolver. Dr. North went out, closing the door, but it was flung open instantly by Christian, who, hold ing his revolver close to Dr. North's right side, fired. The physician fell over, ortally wounded, with Christian on top of him. The bystanders pulled Christian away and he was hurried to jail. Dr. North was carried to the hospital, where a vain attempt was made to extract the ball, which was fired from a 48 calibre navy revolver. It entered the body two inches below the armelt and longed in the kidneys. Last night the wounded man was very low and cannot re

Christian was lynched this morning at 12:30 by a vigilance committee and taken down at 3 a. m., and conveyed to the under taker's where the body now lies. Chris tian bore a bad reputation. The universa opinion is that he met his just deserta. Dr. North was a highly respected and prominent man. He was a Knight Templar Knights of Pythias and head surgeon of the Wabash hospital here. He was a brother in-law of Dr. Jackson, chief surgeon of the Wabash railroad. His condition is worse this norning, and no hopes are entertained of his recovery. The verdict by the coroner's jury was "death by strangulation at the hands of an unknown mob.
