Superstitions Made Charming.

From the Philadelphia Inquirer. That Mrs. Cleveland is not without a touc of superstition was shown by her plucking and preserving a four-leaved clover during ber Adirondack trip. It was shown again law week, when she deferred the presentation of a dismond ring at Wells college until after midnight, that it might not occur on Friday. And it is to be noted, in defense of the

The most vigorous constitution, and the strongest physique, are not proof against a disease, the germs of which impregnate the air we breath and the water we drink. The true preparative, the surest defense, is to fortify the system with a medicine which possesses specific virtues as a asfeguard and remesty. Hostetter's stomach litters is precisely this article—proved by conclusive tests to be so. Not only on this continent, wherever missing gives birth 10 the instantal infection, but in the tropics, where fover and ague assumes the most malignant types, this incomparable, popular and deserving medicine has, for over a third of a century, shown its efficacy. Chils and tever, dumb ague, bilious remittent alike yield to its influence and are prevented by it. The word "fail' has no place in the lexicon of possibilities when this pecress article is used. It tones the atomach, arouses the liver when sluggish, and promotes beauthful activity of the kidneys and bladder. The most vigorous constitution, and the

Facts Worth Knowing. In all diseases of the nasal nucous membrane the remedy used must be non-irritating. The medical profession has been alow to learn this Nothing satisfactory can be accomplished with douches, snuffs. powders, syringes, astringents or any similar applications, because they are all irritating, do not thoroughly reach the affected surfaces and should be abandoned as worse than failures. A multitude of persons who had for years borne all the worry and pain that catarrh can indict testify to radical and permanent cures wrought by Ety's Cream Balm.

The wonderful efficacy of Swift's Specific as a reacedy and cure for recumatism and all blood diseases, has never had a more conspicuous illustration than this case afforc's. The candid, ansolicited and complaint testimony given by the venerable gentleman must be accepted as convincing and conclusive. The writer is a prominent citizen of Mississippi.
