Manual Training.

There is a steady pressure in these days towards manual training in the public schools, and the scheme is already well advanced in its second stage of experiment in several of the large cities.

Paris Mobs.

An able article in the London Saturday Review treats of the recent mob demerit over General Boulanger in a very serious vein. The Review holds that, while it makes very little difference for the moment whether Boulanger is a quack pure and simple or a gallant officer, there can be no question of the strength of his following; and the demonstrations of the Paris mob are an ugly symptom, none the less serious because the work of the scum of the great city.

Pacific Road Investigation.

Senator Leland Stanford has answered the fifty-eight questions propounded by the Pacific Railway commission under protest. He holds that nothing in the contracts of the Central Pacific railroad authorizes the present investigation by the United States, and that the railroad was organized under the laws of the state of California.

of \$1,013,000, and filed in a claim for seventeen millions of possible business directed to other subsidized roads. This is all very beautiful. Some of it is quite sublime, and people will be anxious to know just how much of the earth the senator thinks was given to his road.

The Ohio Republicans. John Sherman has carried the day at the Ohio Republican convention, and his presidential endorsement resolution has gone through unopposed. None but goings, however, will pretend that he has a united Republican party at his back in the Buckeye state.

The platform adopted at the convention is in places thoroughly bad. Everything that was demagogic was endorsed, including the Blair educational bill and the dependent pension bill.

THE OHIO IDEA IS EVERY MAN FOR HIMSELF. The annual digest just completed shows values in Chatham county, Georgia, which includes Savannah, aggregating \$24,643,334.

WANTED.—A speech from John Sherman that will not contain a bloody shirt word.

SENATOR HENRY L. DAVES, of Massachusetts, in common with millions more in this country, wants a revision and reduction of the tariff duties and internal revenue levations. This is what he said to the American Papermakers' association at Saratoga.

GIVE THAT PRESIDENTIAL CHESTNUT, JOHN SHERMAN, ALL THE ROPE HE WANTS.

MR. AND MRS. CLEVELAND will visit Philadelphia on September 15, 16 and 17. The Quaker city will be a fine place to go to during those three days.

THE NEW YORK TELEGRAPHIC report last evening, of the Governor-Bradner prize fight, had the pugilists battling seventy rounds in thirty-five minutes. The Examiner, which has the same "pony" service, says they fought seventy-two rounds in thirty-five minutes.

Under the Marquis of Queensberry rules the rounds are three minutes in length with one minute rests. Thus the INTELLIGENCER account very properly and accurately gave the number of rounds as nine, consuming thirty-five minutes.

LAST YEAR the internal revenue system yielded \$118,836,757 for revenue at a cost of only \$4,675,000 for collection.

JOSEPH BENSON FORAKER will grow tired of carrying Old-Man-of-the-Sea Sherman on his back.

MAJOR BURKE, the New Orleans Journalist, has high hopes of the industrial future of the New South. Leaving out of the question the ore and coal, limestone and manganese so plentifully distributed throughout Virginia.

CHARLES REED, the lawyer who defended Gutman, has been detected in robbing a hotel room in Jersey City. He was not prosecuted.

PRESIDENT R. P. CLEMENTS, of the Chicago Savings Bank of Leavenworth, Kansas, has tied with the Chicago bank in the extent of \$5,000,000, and the bank is closed.

being in Philadelphia a scheme to build a home for servant girls. It is proposed to build a large house with about 300 rooms in it and have it managed as a boarding place for about \$2 to \$3 a week, or so much less as possible. It is also the intention to have an intelligence office connected with the house, for the purpose of supplying girls with situations free of charge.

While Simmons Liver Regulator is generally admitted to be one of the most valuable household remedies, it is an absolute specific in all cases of Colic from whatever cause they may arise, and as such I earnestly recommend it.

THE SUPREME COURT OF LOUISIANA has shown that it understands the true principle of journalism. In a controversy between the editor and the business manager of a newspaper, the paper the court, deciding against the business manager, held that "a public newspaper is not a purely mercantile enterprise, nor is the vocation of an editor merely mercenary."

THE CHIEF OF THE UNITED STATES BUREAU OF ANIMAL INDUSTRY has just made a preliminary report to the commission of agriculture in reference to the progress of the work for the suppression of pleuro-pneumonia for the six months ending June 30, 1887.

CO-OPERATION IS NOT recommended upon such conditions will be no more effective than the present. It is not until the government has nothing to gain by paying the expenses. An investigation has been made into the extent of the pestiferous infection in Pennsylvania, and it should prove sufficient to endanger the animals of other states the cattle of Pennsylvania.

THE ENTRANCE to the Colosseum is not more impressive than a month dismounted of teeth. This disagreement is in great instance, the consequence of a great attention to them in youth, but it happily prevents, with SOZODON, used as a snuff speaker once and he and his friends, away they go.
