AN OLD WOMAN WHO WAS FOUND DEAD IN THE STREET... MARIETTA, July 20.—Mrs. Fred and Miss Annie Brady were standing on a cellar door the other evening looking into Mrs. Servick's millinery store window when the door gave way and both ladies were precipitated into the street. They fell a few feet, some of which had lately been put in and escaped with a few bruises and torn dresses.

J. L. Wimer's fatherly bantam rooster has hatched the eggs upon which it has been sitting for four weeks. As soon as the little peeps made their appearance Mr. Wimer carried them out into the cold and several of them perished. Evidently he was afraid of hurting them, or through lack of experience, thought they were able to get along for themselves. In his awkwardness he trampled one and killed it. Mr. Wimer rescued the survivors and put them in a warm place at night. One still remains and is getting along splendidly. This rooster raised a brood last summer, too.

The employes on Dr. H. M. Alexander's vaccine farms are kept very busy just now. He has orders for over five thousand points, which must be filled immediately. Although he keeps a large amount of fresh virus on hand constantly, yet at times the periodical smallpox scare makes the demand greater than the supply in stores. These farms have a world-wide reputation. Many of the orders come from the Pacific coast, where an epidemic seems to be raging. There are only four other of these farms in the state. Those here are an important local industry and Dr. Alexander has grown rich in the business. Although the communicating and shipping facilities are not of the best, as he loses several hundred dollars yearly as a result of a very large trade while other farms become defunct. He has all the modern improvements and apparatus procurable and the farms are in fine condition.

George Washington Shuster and Miss Lizzie B. Hoffman were united in the holy bonds of wedlock by Rev. G. M. Hickman. The Merry Campers will encamp all next week at Wild Cat Glen.
