HOW TO PRESERVE PRUIT.

improvement on the old methods of doing everything up in its weight of sugar for preservation. By using a smaller amount of sugar the flavor of the fruit is better preserved, and there is a greater variety. But some hould also be put up according to the old nethod, especially of the very sold fruits, method, especially of the very and fruits, which in came are often too sour to suit most tastes. Many in cities do not take the trouble to put up fruit in its season. They argue that it is nearly or quite as cheap to buy and where the fruits can be brought from the tropics at all times of the year, every season has its own supply. Few farmers, however, feel like paying out money for foreign fruits while they have more delicious varieties from their own grounds.

Canning fruit in sallcyllo sold, and especially for exhibition purposes, was recently referred to by A. T. Grant, of Worcester country, Mass. In reply to an inquiry for detailed information as to the process our correspondent kindly forwarded the following statement: "Use no heat. The fruit should be put in the glass cane fresh and just as picked, and for looks be shaken down as solid as possible, but not to bruise the fruit, as berries shrink some, but not nearly as much as when done the old way by cooking. Then prepare a solution of sallcylle sold 35 grains, sugar 8 ounces, with 1 quart of water, and when dissolved pour over the fruit. After about one hour a little more of the solution may be solded, seeing that the cans are full, and then seal as usual. Of course, the cans cannot be tight the same as when sealed hot, because the shrinkage while cooling causes a suction—so don't fear if the cans leak, as they certainly will a little. Nothing can be finer than fruits thus put up for the fair' and similar uses. For the table we have decided to use pint cans, so as to eat the entire contents of a can when first opened. Then one can count on putting up strawberries, raspberries and blackberries and find them good, but blueterries are not as good as shavings. Corns, beans and peas are put up a little different, but as we did not succeed with them cannot advise trying them." sivine trying them. In Garden and Harnyard.

The famous cow Electa, for which her owner, A J. Cowan, of Venango county, Pa., once refused \$10,000 was sold by him to an Oil City butcher the other day for \$50, she having been ruined by overleading. Although this cow stood at the head of all milk producers in this country is few years ago, her pedigree was never known. She came to Cowen's family as an estray. She was a famous prize-winner.

to make butter, and a sense of waste and a misuse involuntarily arise whenever either is used for any other purpose; while in fact, buttermaking is the least useful purpose for which milk is employed.

A new method of washing butter has been patented in Germany. As soon as gailered in the churn in particles of about one-tenth of an inch in size it is transferred to a centrifugal machine, whose drum is pierced with holes and lined with a linen sack, which is finally taken out with the butter. As soon as the machine is set in rapid motion the buttermilk begins to escape, and a spray of water thrown into the churn washes out all foreign masters adhering to the butter. This wash is kept up until all this comes away wash is kept up until all this comes away clean, and the revolution is then continued till the last drop of water is removed, as ciothes are dried in centrifugal wringers. Patuless Regulation. It is no longer a question of doubt-al-though the contrary was once believed-that medicines which produce violent effects are unsuited to other than desperate emergencies. In other words, that super-potent remedies are calculated to weaken and injure the sysare calculated to weaken and injure the sys-tem rather than reform its irregularities. Among medicines of debilitating effect are calliarities and cholagogues which copiously and abruptly evacuate the bowels. Hecause it does not do this, Hostetter's Stomach Bit-ters is preferable to the drenching class of purgatives. Painless in its effects, it is suf-ficiently active to remedy chronic constipa-tion. It relieves by invigorating the intes-tines, and canables, not forces, them to per-form the duty imposed upon them by nature. Promoting the secretion of bile in normal quantities by its healthfully stimulating effect upon the liver, it is eminently conductive to digestion, and contributes in no small degree to keep the bowels regular.

A Haptist Minister's Experience.

"I am a Baptist minister, and before I ever thought of being a clergyman I graduated in medicine, but left a lucrative practice for my present profession, forty years ago. I was for many years a sufferer from quiney. Thomas' Electric Oil cured pps. I was also troubled with hourseness, and Thomas' Electric Oil cured then, and if taken in time it will cure seven times out of ten. I am confident it is a cure for the most obstinate cold, or cough, and if any one will take a small teaspoon and half fill if with the Oil, and then place the end of the spoon in one nestril and draw the Oil out of the spoon in the head, by sniffing as hard as they can, until the Oil falls over into the threat, and practice it wice a week, I don't care how offensive their head may be, it will clean it out and cure their catarrh. For deafness and earache, it has done wonders to my certain knowledge. It is the only medicine dubbed patent medicine that I have ever felt like recommending and I am very anxious to see it in every place, for I tell you that I would not be without it in my house for any consideration. I am now suffering with a pain like rheumatism in my right limb, and nothing relieves me like Thomas Electric Oil." Dr. E. For sale by H. B. The Theatrical Profes Merit will win and receive public recognition and praise. Facts, which are the outcome of general experience, growing through years of critical and practical test, become as rooted and immovable as the rock of Gibraiter in public opinion, and henceforth need no further guarantee as to their genuineness. The indisputable fact that Switt's Specific is the best blood purifier in the world, is one of these immovable Gibraiter facts of which we have spoken, and every day's experience roots this conviction deeper and deeper in public opinion. Every class of our people in America and in Europe, every trade, calling and profession, including the medical profession, have borne voluntary testimony to the remarkable virtues of 8.8.8 and its infallible efficacy in curing all diseases of the thousands and open to the inspection of all Now come, unsolicited, two distinguished members of the theatrical profession, who grainfully testify to the wonderful curstive qualities of the specific in their individual cases.
