THE INTELLIGENCEE,

The Changed Situation. railroad situation in the West has aded very decidedly, and so has the all street situation. The latter has d to be an accurate indication of the try's condition, its prices being ly due to manipulation. But it looks though the people in control of railroads, who also control ill street prices, had concluded to ns in the country. We expect to er soon of the accommodation of the ed strike, which has now been we to be remarkably under control, the limitation which has been sudly put upon it, to the road on which

The public is always very much in the as to the outcome of threatening attudes between great corporations and mir employes, since it is seldom possible o reason about them, the main-springs the movement being known only to lose who incite them; these generally sing the railroad directors seeking to erve their pockets.

The industry of the country is largely the mercy of the men who are trusbes placed in charge of great corporas. seeking their own profit at the cost of their trust. When the law lays a beavy hand upon such practices, and only then, can we hope for uninterrupted sessons of business prosperity and calm. Commendable Zeal.

The state department has displayed dable zeal in the case of Mrs. Leon Baldwin, whose husband was mured by Mexican bandits, and whose laim of \$100,000 damages against the Mexican government, is based on the fact that Mexico had invited American capial and immigration to the region where Baldwin was killed, and had formally ranteed protection of life and propty. It will be remembered that when claim first became prominent, it was feared that Mexico might with justice reject it on the same ground that we might have plausibly held against China's claim of indemnity for the murr of Chinese miners in the far West In the Chinese treaty now awaiting ratition, it is not admitted that Chinamer note and lawless regions are entitled to indemnity for loss of life and property, and the money granted is given solely from humane considerations.

The difference between the Mexican and Chinese case is simply that Americans are invited and urged to operate in to and lawless regions of Mexico, and protection is assured, while China-Americans have suffered in Mexico at the hands of outlaws, and in spite of ises it is well known that they go the border states of Mexico with their lives in their hands. The diffity of procuring evidence has usually graged any effort to induce Mexico to make good her guarantee. It seems to be very foolish for a government to nise what it is obviously unable to form within reasonable expense, but that is not our concern. And as both England and Germany have collected ages in similar cases, there seems to be no escape for Mexico except in the everthrow of Mrs. Baldwin's evidence. retary Bayard says that her claim is sil established, and has assured the lady that it will be vigorously pushed.

Granting License. Some of the Philadelphia judges have on making a sensation in that town by ting the majority of the applications cease. Presumably they are selectog the best of the lot; but according to newspaper reports, if that is their ination, they are not very successfully outing it ; but this is an almost necesary result in deciding so many cases in the brief time allowed for the examinaon. The judges have evidently underaken too much in attempting to decide n brief inquiry as to the character of be thousands of places applying for se. They are influenced doubtless other information than that which ey get in open court ; and information thus privately obtained is very apt to be at bed quality.

at is occurs to us that these Philahis judges are making law, in so libconstruing the authority given som to withhold licenses for cause, as to sthhold them from respectable and resible persons for no other reason than eir own idea that the places are not eded. The idea of the high license law was that places not needed would be owded out by the high license and the and; and the applications in Philadelhis were reduced one-half by this influsee. It seems that such applicants as ere willing to pay the fee and could seare bondsmen, and who were men of ed character, who had heretofore kept es of good repute, should have had sir licenses granted as a matter of get; and that the judges should not at up their own desire to limit drinking es against the free license of the law.

Morocco. All this trouble with Morocco has a very ugly look, for it bids fair to put us the position of fighting for dignity, of averiling the lives of brave seamen and aking the lives of miserable barbarians e a pig headed Mohammedan d. st refuses to release a Moor who has w a claim on our protection. And to aggravating part of the business is t we cannot gain anything very tangde by hostilities. Perhaps we had beter pocket the insult for the present and day land a force of marines and

Our national quarrels of late years have Signal reputation. Canada and Mexico; we looked down upon them over our good boot toes of a rotten navy and desides coasts! But if Germany don't stow about the seizure of Samoa she sy find a foeman worthy of her steel. Rhode Island.

Rhode Island has gone Republican with majority on the head of the ticket of 1,600 or 1,700, after one of the most desperate canvasses ever made by the Republican party. In 1884 for president, it gave Blaine 6,639 majority and two years later gave a Republican majority of 4,396. Last year the Democrats carried the state for governor by 3,984 votes, and captured the popular branch of the legislature. The Republican victory on Wednesday was nothing to boast of. The Democratic lever is working and Rhode Island may be put in the doubtful column for November next.

THE Memphis Sunday Times, in its issue of April 1, is filled with pictures of the men who have made Memphis the enterprising city that it now is. The performance is very creditable to the Times, and suggests that George S. Landis, now of the Times, but formerly of the INTELLIGENCER, has not allowed his hand to forget its old time cun-

THE first issue of the Manhelm Monitor the new paper of that progressive borough, is very creditable and, as it carries the name of Mrs. Fannie R. Missemer at the top of its second page, there is abundant evidence that this good lady has not mistaken her calling. The first issue abounds in news and makes the live suggestion that Manbeim ought to have a semi-centennial celebration on May 16, as that date will be the fitteth anniversary of the incorporation Manheim as a borough. As a reason for expecting sufficient patronage, the Monttor notes that Lancaster county has less papers in proportion to its population, than the counties of Dauphin, Lebanon, Chester, York, Schuylkill, Montgomery, Bucks, Cumberland, Delaware, Franklin, Juniata, Perry, and others in this section of the state. Montgomery county, for instance, with a population of 95,000, has 28 weekly papers, while Lancaster county, with 139,000 inhabitants, has only 21 weekly papers. We trust that the new journal will get its hare of the newspaper patronege that is

THE Oregon Democratic state convention heartily endorses the president's tariff re-form message, and flies the name of Grover Cleveland for president with Governor Pennoyer, of Oregon, for vice president. The Pacific coast Democrats are moving on.

WE publish to-day President Cleveland's reply to the ill-considered protest of the Methodist conference sgainst the exclusion of native languages in the education of Indians. In the first place the government does not "compet them to receive all religious instruction in English." The government simply provides for an ordinary secular education and has nothing to do with religious teaching. It would be the height of foliy to try to educate savages to take care of themselves without giving them the language of the country by the laws of which they must be protecte with whose citizens they must cope. The only way that we can save the Indians from extermination is by teaching them to take care of themselves, to swim with the cur-rent of civilization when it strikes them. It is of the very first importance that they abould abandon their language, and the civ-ilized Indians have tacitly recognized it and made English the language of their national congress in the Indian territory. An interpreter is present to translate fo those members who do not speak English Yet these Indians have a literature and are not invited to our shores, but alphabet of their own and therefore much than the illiterate savages for whom the ministers presumed to speak.

WANAMAKER'S.

PHILAUSEPHIA, Thursday, April 5, 1888. The Spirit of Youth which comes with April is putting more than usual life all thro' the store. The tide of life that flows about the counters would indicate that all the local world knows our story as told by the merchandise. Not so however.

There is daily news. Items, to be told that make this column good reading-very good. Too good for you to miss.

To-day good family reading. Somewhere in that which follows men and women, boys and girls all find interest. And some points touch all.

We are pluming ourselves with a little honest pride about BOOK NEWS. It has taken a long step upward and forward. It is gaining recognition for literary originality, and is also eclectic and practical—takes Mr. Busy Man by the hand and says: "Allow me to introduce purest tooth-powder. 25 and you to the noble companionship 45 cents a bottle. of good literature." Mr. Bookworm already knows and respects it. 5 cents a number, 50 cents a year.

JOHN WANAMAKER,

HOOD'S BARSAPARILLA.

Silks. If not, read on a little We believe Hood's Sarsaparilla is the very best medicine to take to keep the blood pure and to expel the germs of scrofuls, saltrheum, and other poisons which cause so much puffering, and sooser or later undermine the general health. By its peculiar curative power, Hood's Sarsaparilla strengthens the system while it cradiates discase.

"Early last spring I was very much run down, had nervous headache, felt miserable and all that. I took Hood's Sarsaparilla and was much benefitted by it. I recommend it to my friends." Mas. J. M. Taylos, ill's Euclid Avenue, Cleveland, Ohio, Hood's Sarsaparilla

Keep the Blood Pure

"Tora first-class spring medicine my wife and I both think very highly of Hood's Sarsaparilia. We both took it last spring. It did us a grat deal of good and we felt better through the hot weather than ever before. It cured my wile of sick headache, from which she has suffered a great deal, and relieved me of a dizzy, tired feeling. I think every one ought to take something to purify the blood before the hot weather comes on, and we shall certainly take Hood's Sarsaparilla this spring."

"I had erysipelas in the worst form, being nearly covered with bilsters. My husband heard of flood's Sarsaparilla end insisted on my taking it, though I had little faith. I had taken but a few doses, when I began to feel better, and in a week I was sure it was doing me good. I continued to take it according to directions and when the first bottle was gond I was entirely well. I have not been troubled

Letter From the Assistant Foreman of the Delivery Department—A Subject in Which
Thousands Are Deeply Concerned.
About five years ago I suffered from painful urination and great pain and weakness in the lower part of my buck, pain in the limbs, bad taste in the mouth, disgust at food, and great mental and bodily depression.

I live at 24! York street, Jersey City, and on arriving home one night I found a copy of the Chaker Almanac that had been left during the chaker Almanac that had been left during the day. I read the article, "What is the Disease that is Coming Upon Us?" It described my symptoms and feelings better than I could if I had written a whole book. My trouble was indeed "like a thief in the night," for it had been stealing upon me unawares for years. I sent for a bottle of Shaker Extract of Roots, or Seigel's Syrup, and before I had taken one-half of it I felt the welcome raitef. In a few weeks; was like my old self. relief. In a few weeks t was like my old self. I enjoyed and digested my food. My kidneys soon recovered tone and strength, and the

urinary trouble vanished. I was well. Millions of people need some medicine sim-ply to act on the bowels. To them I commend Shaker Extract in the strongest possible terms. It is the gentiest, pleasantest, safest and surest purgative in this world. The most delicate women and children may take it. One delicate women and children may take it. One point more: I have all the more confidence in this medicine because it is prepared by the Shakers. I may claim to be a religious man myself and admire the Shakers for their zeal, consistency and strict business integrity. What they make may be trusted by the public.
