TRADE IN OLD AND NEW LEAF.

BUYERS SHUNNING THE SEED VARIETY AT THEIR PRIVATE PRICES.

A Claim That Too Much Money is Being Paid For Good Leaf—Several Hundred Cases of Old Leaf—By Local Factors.

The purchase of the '87 seed leaf crop is being right along, though there are not a great many purchasers of the dealers believing there is no money in it at the prices now being paid.

There is a good deal of difference of opinion among dealers as to what proportion of the '87 crop of seed leaf has been purchased. Mr. Brubaker's purchase was all made in Lancaster county.

The following transactions in old leaf are reported: Skiles & Frey sold 110 cases, most of which was '86; B. S. Kendig & Co. sold 125 cases, this firm reports having sold on an average 60 cases per month for the last six months.

Sumatra—The system in vogue now of trying to force sales tend to hammer prices down. Although this may be excusable with those who do not more than they could chew last season, and are forced to realize in order to meet the demands of the market...

Philadelphia Market. Seed Leaf—Notwithstanding the uncertainty that hangs over the market, induced by various circumstances, the belief is general that a No. 1 fine domestic Havana seed wrapper can be sold at a profitable price, so that a favorable point can be secured for American growers...

The Miaming Bulletin says: The market during the past week was less active than for some time. Prices ranged as follows: Spanish, 10 to 12 1/2; seed leaf, 5 and 2 to 6; and one fine crop reported at 10 to 12.

The Elgerton Reporter says: There has been the least doing in tobacco matters the past week of any since the market opened for the new crop. Business has been down to a very low ebullition. There are no buyers in the field, and whenever a sale is made it is under some peculiar circumstances and figures are low down in the scale.

The action of the employees of the Edgar Thompson steel works Saturday last, in refusing to accept Mr. Carnegie's scale and proposition, is having very depressing effect on general business in Braddock.

PROF. BRISTOL'S ANIMAL SHOW.

His Troops of Quasipeds Antoinch a Big Evening at Fulton Opera House.

Last evening Prof. Bristol's Quasipeds, or trained animal show, appeared for the first time in this city in a house where it will be all week.

When the curtain was rung up last night about twenty horse, mules and ponies were seen upon the stage in a group. They all seemed in the best of humor, and as contented as children.

Another wonderful animal is Mattie, who was in the school room. She solved the number of arithmetical problems in a way that astonished everybody.

Mr. Conkling got up from his bed at eleven o'clock Monday night and walked down his room in a robe and slippers. He is almost crazy with pain.

Dr. DeLafeld described the nature of the operation, but when asked whether it was a matter of life or death, he said: "It is impossible to tell at present. We shall probably be able to tell you in two or three days."

WESTMINSTER PRESBYTERY.

REV. G. B. CHOS CHOSEN MODERATOR FOR HALF A YEAR.

This morning Alderman Deen had a hearing in a civil case about tobacco, which was quite interesting. It seems that recently Harry Retke, a buyer for John Mayer, purchased a lot of tobacco from Frank Rohrer, farmer, who resides near Mount Joy.

The officers are requested not to use loud, profane language or unruly conduct while in the station house or on duty. Also to enforce the ordinances in regard to keeping the pavement from being blocked with barbed wire.

Formerly the reports sent to the mayor's office in regard to a number of lights not burning, and complaints for street commissioner and water superintendent were written every morning, but Chief Smith for convenience has them printed.
