WATER, NOTHING BUT WATER

THE DIRT OF A WOMAN INMATE OF THE COUNTY HOSPITAL.

Does Not Want Food Because She Says She Does Not Need 11-Not a Particle of Anything But Water Passes Her Lips During the Past Six Weeks,

One of the most remarkable cases ever sown in the community is that of Mary J. Weldler, an inmate of the Lancaster county al. It has been six weeks exactly ay since a particle of food of any kind passed her lips, although occasionally she aks from a half to a pint of water during day. It has been almost two years almost the first support to the first two years almost the first two years almost two years all both of these finally and refused to take ything of any consequence. On the al where she has since been refused to cat and at first was supposed that her stomach ald not retain anything. It was soon nd that this was not the case, and it was nally determined by Dr. Sensenig and the relatives that she should be fed by s oump. This was resorted to and as she ought bitterly, it was found necessary to andougher. At first but light food was iven, but it was gradually made more stential. For five months the guite thin when first admitted to the insitution but she grew much stouter and ked very well. At last it was thought hat an appetite had been created for her and that she she would eat of her own accord It was believed that she would become ungry after a time. It was thought best to give her a trial without the use of the pump in order to see what effect her absti from food would have and with some hope that she would finally become hungry enough to est. It seems that she is determined not to est and in order to save her life force will again have to be resorted to. During the aix weeks hat the woman has been fasting she has been taken to the table three times each day with the other inmates and been comed to sit there during the dinner hour. to eat at the base and conxed to eat at

every meal, but she seems determined o resist to the last even it kills her. When the woman bund that sithough she pretended to refass all edibles, she would at times manoge to get possession of little things on the dy, which she would est. Since she began the present fast, it has been utterly sible for her to get anything except at the table and there no one has seen ber take a bite. She has access to water which she takes at times of her own will and at other times when asked. Of late she has grown much thinner and pale. She as to be in constant fear that the pump will be used upon her, and keeps begging that it will not be allowed. The woman is between 35 and

40 years of age, with a husband and one child. When she first began to from food she also refused to allow the child to have nourishment. When this was learned the child was taken from her. The reason for this woman's strange conduct could never be learned; when asked concerning it she simply says that she don't want food and does not need it. She has never given any one more satisfaction than this and seems to be possessed of wonderful will power. This morning while a reporter of the INTELLIGENCER was at the pital she was offered a small piece of ge. She placed it to her lips but rould not eat It and soon threw it away. She as sensibly and seems to be rational on all subjects, but she seems to have a horror of food or else is very stubborn. Her case is a strange one and it is likely that she will have to be forced to eat to prevent

epaugh's Circus and Wild West.-Stories of Western warfare have a strange and absorb-ing interest for all; but when these scenes are reproduced by those who in real life have participated in the exciting and savage war-lare of the frontier, that interest exceeds all bounds. It is evident that no stage encom passed by brick walls is large enough to per mit the proper presentation of a spectacular mi hary drama. Nothing smaller than the tupendous canvas covered amphitheatre of the great Forepaugh and "Wild West" com-bined shows, which exhibits in Lancaster on next Tuesday, is large enough for the pur-pose. Dr. W. F. Carver, the famous scout and send shot, and scores of Indians, cow-boys and soldiers participate in the great scenes of frontier life and broader warfars. A settler's camp on the prairie, a Virginia reel on horse back, lassoing the buffalo on the plains, and an attack by Indians on the overland main coach, are picturesquely flustrated, and then follows realistic, dramatic, and intensely thrilling portrayals of the Mountain Meadow Massacre and Custer's Last Hally. Many of the Stoux Indians who participate in these thrilling mimic battles were at the Custer massacre, and their presence here among civ-dized people, and reproducting scenes in their own lives, adds an interest and realism to the exhibition that no mere actor could ever
