

The Daily Intelligencer. LANCASTER, MAY 14, 1888. PUBLISHED DAILY, except on Sundays and Public Holidays, at the office of the Intelligencer, No. 12 South Queen Street, Lancaster, Pa.

We think it possible that the Washington Post might be conducted with better sense and judgment. Located at the national capital, and the only democratic daily journal there, it is in a position to be mistaken as an administration organ.

The Post thought that a very smart thing to do, and considered that it would be especially effective coming from it, because it is printed in Washington under the shadow of the president.

It is quite impossible that the president, who has been a distinguished champion of the extinction of the political power of federal patronage, and who has earned the esteem of the country by the uprightest of his administration, was influenced to veto the Allentown postoffice appropriation bill by the tariff position of Congressman Bowden.

This does our all-wise and esteemed Philadelphia contemporary settle off-hand a problem which has been vexing some minds not a little. When the luminous intelligence of the Times fell all at once, the clouds vanished and all was clear as the noon-day sun.

It would be well for our positive contemporary to explain why public buildings are a necessity in places where United States courts are held. It was on this plea that Williamsport secured the building, and not because of the big business that was done in that city for Uncle Sam.

The true basis for Lancaster's demand for a public building was that it was a public necessity. Here are some of the figures for collections made in the Ninth revenue district in recent years:

Peace in Central America. The republics of Costa Rica and Nicaragua have settled a dispute of long standing by reference to the president of the United States as an impartial arbitrator, and advice from the former indicates profound satisfaction with the decision reached.

give confidence to capitalists and assure the safety of commerce. Ever since the United States marines and sailors interfered to restore order on the isthmus, there has been a marked improvement in the direction of tranquility and the lesson given was clearly understood.

PHILADELPHIA this week will have a vast addition to its store of wisdom. The Lancaster bar are telling the supreme court judges what is the law of the state.

It is stated that some of the disappointed liquor men in Shippensburg, this state, are responsible for the dastardly explosion of dynamite in front of the store of J. C. Hummel on Saturday morning.

It was widely printed that Dr. L. Webster Fox, the famous young Philadelphia oculist, had been disconcertedly treated at the medical convention in Cincinnati.

For printing a newspaper there is no ink like black ink. The New York World on its fifth anniversary last Thursday tried the experiment of printing in red. It was a bloody essay and was soon abandoned.

A BILL has been introduced by both branches of the Swedish Diet placing a prohibitory duty on American pork, and advance reports of the United States consular agents give an interesting summary of the debate in the first chamber of the Diet, where the vote was 63 yeas against 65 nays.

On Saturday last the first number of the Columbia Daily News made its appearance under the editorial direction of Messrs. Stutz & Paschall. The latter is the recent purchaser of the weekly Current. The new paper promises exceedingly well, and the management modestly announces that the first number will be much improved upon.

cool, brave and unshamable in a crisis. GEORGE W. ORRILL, of Philadelphia, was 67 years old on Saturday, and a banquet in his honor was given at Donoe's hotel. The Childs-Drexel fund, which was started by a donation of \$10,000 from Mr. Childs and A. J. Drexel, now amounts to \$16,000.

Rheumatism. No medicine could have served me in better stead. -C. C. Cook, Corner Avoyelles Parish, La. G. F. PHILADELPHIA, Monday, May 14, 1888. Our Story to-day is very important and interesting. You should read it. JOHN WANAMAKER.

We make a big break in many prices of Dress Goods to-day. We make it. It is not made for us. The whole Dress Goods market, our stocks and others, are passed in review. It's wise to do it. It's done.

It is an offering of quantities, hundreds of pieces in many lots; of assortments, every lot complete in variety; of bargains, the reductions are large enough to appear to everybody. You know we never ask you here to a meagre show.

Why do we do it you may likely ask. There is pleasure in bargain-giving, but the real reason is, we want to sell. We always do, and mean to more and more.

Scotch Surah Zephyr Gingham. Several times this spring we have told you of the fine cotton, the delicacy and fastness of the color, and the stamp of Fashion's approval. Needn't repeat that here—you know it all.

Scotch Zephyr Checked Gingham. If you know Gingham one of the great honest Gingham names will come to your mind and you'll ask, Are they? Well, no, they are not, but it's a bright mind that will say they do not bear a great trade mark. Equal? Yes, we think so. They were 40 cents at the last sunset; 25 cents now. 30 inch.

Wool-and-Cotton Plaid Suiting; small checks with over-plaids, mostly cotton. In color and style nearly equal to the finest English Wool Suiting, 120 pieces, 34 inches. The price is absurd—12 1/2 cents; just half.

Wool Check and Overplaid Suiting. Various grays and browns in broken checked grounds, with overplaid in orange, black, red and white. The effects are neat with a touch of style. They were 45 cents, but to-day are going at 25 cents. 75 pieces, and 18 varieties of color.

Wool Diagonals in plain colors. Forty pieces. Assorted in terra-cotta, Gobelin, serpent, modes, and browns. Reduced from 37 1/2 to 25 cents. They were 45 cents a few days since. 42 inches.

German Plaid Beige. All wool, ten colorings, forty pieces. They are from one of the best Saxony makers, and combine the happy medium in style, midway between the pronounced and plain. They go down from 75 to 50 cents. 39 inches.

French Wool Chevron Stripes. Very neat stripes about one-half inch wide, separated by hair-lines of strong color. Very few neater designs for Spring Costumes have been brought out this season. They have sold freely at 75 cents; you may take them to-day at 50. Fifty pieces, eight colors. 40 inch.

French Brunelle Cloth. Plain colors, with self-checks, various shades, including the novel light tints, with several sizes of checks. The character, colors—12 of them—weave, and finish, are such as to make these goods most desirable. They would be at normal cheapness, 65 cents. Will you appreciate them more at 50 cents? We'll see. 40 inch.
