A Pemale College For Our County. The one thing that has been wanting to make the educational facilities of Laner county equal to those of any other tion of the country has been a woman's lege. We have public and private hools equal to the best; our normal hool stands as high as any; we have in Franklin and Marshall a college where ing men can receive as good a classical young men can receive as good a classical and scientific education as anywhere in the land; but we have not had up to the present an institution where our young ladies could have the benefits of a firstclass collegiate education. This want, however, is for the future to be supplied through the enterprise of Prof. H. A. Brickenstein, principal of Linden Hali

seminary at Lititz. In a characteristically modest circular Prof. Brickenstein announces that the initial steps at least have been taken to give at that well known Moravian institution an opportunity for young ladies to prosecute their studies in all those higher branches of learning that are essential to a thorough collegiate course, at the completion of which they may, if desired, have the degree of B. A. conferred upon them in due form. Besides a continuation of the studies commenced in the higher classes of the seminary, the additional course will include Latin, (Virgil, Cicero, &c.), higher literature, history (including contemporary history and the bilosophy of history), mental and moral sence (including ethics, msthetics, and the history of art), legal status of women, besides political and social economy, logic and evidences of Christianity. To these may be added still further branches, and special courses of lectures as circumstances shall demand.

In taking this step forward Linden Hall has made an important move in the right direction, one demanded by the needs and the whole tendency of the times. With the prestige and well won popularity that venerable institution of learning already enjoys, there can be little doubt that this expansion and enlargement of its course in the line of a high-class college for women, will be an immediate success. It ought to be specially appreciated by all Lancaster countians, and receive their liberal patronage. It completes the educational equipment of our county.

Church Lotteries.

Judge Biddle, of Philadelphia, has startled a good many good people of that city by announcing that he has asked the director of public safety to investigate a church lottery drawing to be held at a strawberry festival. The judge took ad-vantage of a trial of a lottery policy case president of Union college in Schenectady, to deliver a few decided and sensible remarks on the subject of church fair lotteries, and that there might be no mistake as to his meaning he exhibited a lottery ticket issued in 1761 to build a church afterwards presided over by Rev. Dr. Buchanan, the brother of the president He said that lottery tickets were widely sold in those days, but experience having taught their demoralizing effect stringent laws had been passed against lotteries of all kinds. " At the present day lotteries are only held by two classes of people—the religious people and the bad people. It is most strange to say that the most difficult thing is to eradicate it among the good people."

The judge complained that while he was trying to enforce the law against the bad people, be had brought to his attension a schedule of a grand lottery arranged by some of the very test citizens. For ten cents one had an opportunity of ining one of a list of valuable prizes. No doubt the good people will be very ch shocked at the suggestion that this en and innocent breaking of the law in interest of churches should be classed th the carefully hidden lottery policy

Its Mission.

The convention of Democratic clubs in Harrisburg finished its work on Thursday quickly and well. There was none of that unseemly squabbling and violent sorder that characterized the meeting of the Republican clubs in Lancaster. The latter was in session all day and did practically nothing but wrangle. The socratic clubs were in session only two hours and dispatched a large amount of business in very satisfactory fashion.

This club convention took the proper view of its functions. It is not to lead, but to follow the party. It is an organizing and not an originating force. In its president, Eon. Chauncey F. Black, it has for its head one of the ablest and most incorruptible men in public life in nsylvania. It may be confidently sdicted that the Democratic Society of sylvania will have large influence in ing the party in Pennsylvania, and beinging into it the great body of young men of the state, the 200,000 who vote president this year for the first time, to the ranks where they naturally be-

Their Power.

Man is not allowed to achieve control over the forces of nature without cost: and the utilization of the power of elecity and of natural gas, which are his latest triumphs, seem to be the costliest of life and treasure. They prove to be dangerous elements to handle, but tless they will be sufficiently conrolled as to remain among the forces butary to man's 'purposes. This conal, however, needs to be made more at than it now is, for there is too avagant a waste of life and ty now caused by their use. The fires and many deaths due to must be greatly lessened in num-The uncertainty as to when they e is a chief element in the dread them. They give no warning; but seducing those handling them by

impunity, to put their trust in the break out into violence.

Religious Assemblages.

There is most remarkable religious activity prevalent now in the shape of assemblages of most of the denomina-tions. The Methodists have elected their bishops in New York : the Presbyterians are Lurying sectional issues in Philadelphia; the Catholics are laying a university corner-stone in Washington; the Lutherans of the state are in session here and minor bodies of various churches are holding important meetings throughout the whole country.

The newspapers spread the details of these gatherings column after column. Yet some short-sighted clergymen pretend to believe that at all times the press pays more attention to the elaboration of vice than to the presentation of the claims of religion.

THE Democrats of Mississippi have in-dorsed the Mills tariff bill, and those of Texas go a step further in advocating the claims of Mr. Mills for vice president. The Texas man is now having his inningr.

THE Republican New York Press tersely says: "Stop this nonsensical delay and confirm Unief Justice Fuller."

THE Carilele Volunteer has begun its seventy-fifth volume, and keeps on improving, as though it was a youngster. THE supreme court of the state has de-

clared that a crossing is a place where both parties must be on the lockout, the one for passing teams and the other for foot passengers. Both have the right of way, and both must be equally cautious.

To the large body of Lutheran clergymen in attendance at the one hundred and fortyfirst annual ministerium of Pennsylvania in this city at present, Lancaster extends a most hospitable welcome. This assemblage of clergymen has been in Lancaster before this, but many of those comprising it now know nothing of the royal old-fashioned welcome of which Lancaster is capable. They are probably learning it now, and we trust it is for them a pleasant experience. They have brought rainy weather with them, but the sun will not much longer stay behind the clouds, and when it does come out, Lancaster will be arrayed in a other city in the country.

IT has been raining furiously this week : but it is a Democratic rain. MRS. CLEVELAND carried Philadelphia

this week, and her husband ought to carry the state. MAHONE's home, Petersburg, Va. has some back to the Democratic fold.

THE Democratic clubs are going shrivel the Republican majority in this

Swindstog in Priest's Garb. A fine-looking man dressed like a Catholic priest stopped in James H. Hart's jawelry store, Brooklyn, Thursday afternoon and asked to see a diamond cross worth \$200. Mr. Hart produced one and the stranger asked that it be sent to the the stranger asked that it be sent to the Sisters of Charity attached to St. Paul's orphan asytum. He then left the store while the cross was given to J. D. Scuthwick, one of Hart's oldest employes. He went to the convent, but before he could ring the bell the door was opened by the alleged priest, who invited Mr. Southwick into the parlor and asked if he might take the cross up stars asked if he might take the cross up stairs to the Mother Superior. If it suited he would bring back the money. Mr. South-wick handed over the cross, and the priest went up stairs. He had not gone far when Mr. Southwick heard him come down again.

Simon Cameron for Alger. Detroit Special to N. Y. Heraid.

General Russell A. Alger returned from his Eastern trip this afternoon. A close friend of the general states that his interview with General Simon Cameron at Harrisburg was much more important than the morning dispatches indicated. The fact is that General Cameron offered General Alger that General Cameron offered General Alger his un qualified support. The Pennsylvania veteran wrote a letter to the general saying. Come to Harrisburg. I want to see you." The old Republican leader said to General Alger: "I have been looking up your record very closely. I find that you were a gallant soldier during the rebellion, a successful business man in civil life and a popular and estimable governor of your state. In short, you are my choice as next president of the United States, and I will be very glad to use what little influence I have to secure your nominal, a at the Charage convention."

HOOD'S BARSAPARILLA.

A GOOD NAME

At home is a tower of strength abroad-says the familiar proverb, and it is fully verified by the history of Hood's Sarasparilla. The first words of commendation and praise for this medicine were received from our friends and neighbors and from the time it was fairly introduced up to the present, there has been, and is now, more of Hood's Sarasparilla.

Sold in Lowell, Mass., where it is made, than of all other surasparillas and blood purifiers combined. This "good name" among people who have known Hood's Barsaparilla and its proprietors for years should certainly be strong evidence to people in other cities and towns of the excellence and merit of this medicine.
